bonds and mortgages. Their anticipations have not been realized by the results. I have made diligent inquiry among the large number of real estate men with whom I come in contact, and I have only heard of very scattered instances in which such moneys have been attracted to investments in bonds and mortgages. Among my own clients not one such instance has occurred. I confess I am somewhat surprised at this result, as I had thought that the enactment of this law would have attracted considerable money to mortgage investments, but not sufficient, however, to offset the tendency of the rate of interest to increase, on account of the large amount of exempt money becoming taxable. I find, moreover, that, while lenders are able to secure a net return free of tax as large as they obtained previous to the passage of this act, but subject to the risk of local taxation, they are so prejudiced against the dangerous provisions of the law and its complicated machinery for the collection of the tax that they are more disposed to contract than to in-

their new mortgages, the same net return as they previously obtained, they are also able to secure a higher net return on their mortgages made before July 1, which remain exempt, by requiring the owners of the property so mortgaged to increase the rate of interest by ½ per cent. or more. Such mortgagors are at the mercy of these creditors, because, on account of the operation of this law, they are unable to replace their loans at the rates current before its passage.

In the agricultural counties there is also a class of men who lend, at high rates and discounts, considerable money on the farm mortgages of their neighborhoods. These lenders are not generally popular, and the tax assessors are vigilant in discovering and taxing the mortgages so held. The low rate imposed by this law, as contrasted with the prevailing high local rate, therefore, makes the law popular with such lenders. . . .

It has already borne heavily upon the people of Brooklyn, the city of homes of the middle class. Money under 5½ per cent. is

crease their lendings. This view is sustained by the current statistics, showing—

- (1) That the par value of mortgages recorded between August 5 and December 31, in the years 1904 and 1905, in the boroughs of Manhattan, Brooklyn and the Bronx, have been as follows:
- |               |               |
|---------------|---------------|
| 1904.....     | \$194,000,000 |
| 1905.....     | 148,000,000   |
| Decrease..... | 46,000,000    |

The amounts of mortgages recorded from January 1 to August 5 in the years 1904 and 1905 were as follows:

1904.....	\$261,000,000
1905.....	606,000,000
Increase.....	\$345,000,600

The amount recorded during that period in 1905, therefore, increased 132 per cent. over the amount recorded during the same period in 1904. If it had not been for the passage of the mortgage tax law, I am of the opinion that the same percentage of increase would have continued during the remainder of the year; that is to say, from August 5 to December 30, 1905. In that event there would have been \$343,000,000 of mortgages recorded during that period, or an increase of \$195,000,000 over the same period of 1904, instead of a decrease of \$46,000,000.

- (2) That the average rate of interest on investment mortgages increased from 4.93 in 1904 to 5.46 per cent. in 1905.

- (3) That the price of non-taxable bonds does not indicate that there has been any considerable conversion of this class of trust investments into mortgages.

The general body of lenders and the entire body of borrowers being opposed to the law, who, then, is in favor of it?

Some persons in favor of the law will be found among the trustees of estates, who, being by law compelled to invest in mortgages, have been locally assessed for personal taxation at high rates, 1½ to 2½ per cent., or from 25 to 50 per cent. of the total income. These people are the victims of our barbarous system of taxation on personal property; they are certainly entitled to relief, but not at the expense of the entire real estate community.

I find also that certain corporate holders of mortgages exempt by law from local taxation are pleased with the law, because while securing, on account of the increased rate of interest on

practically no longer obtainable in that locality. The following table of mortgages recorded in that borough during the week ending December 23 will illustrate with peculiar emphasis the force of this statement:

	1905.	1904.
Total number.....	553	460
Number at 6 per cent.....	304	159
Number at 5½ per cent.....	134	2
Number at 5 per cent.....	17	263
Number at 4½ per cent.....	1	11
Number at 4 per cent.....	—	2

This law is opposed to all the principles and theories of taxation, compelling a debtor to pay a tax on his own debts, increasing the annual charges on real estate, decreasing its net returns and eventually decreasing its value. It is indefensible from every point of view.

A recording tax on mortgages with local exemption, or a conveyance tax on equities, or both, would raise a large sum of money for the purposes of the State without depreciating the value of real estate, and without imposing upon the real estate community the annoyances and vexations of the present law.

Call for Allied Real Estate Interests.

The Allied Real Estate Interests of the State of New York has issued the following notice:

"A meeting of this organization will be held at the Real Estate Salesrooms, 14 and 16 Vesey st, New York City, on Friday February 2, 1906, at 3 o'clock P. M. The officers of the association will report concerning the work being done to secure the amendment of the mortgage tax law, and the substitution therefor of a simple recording tax. Short addresses will be made by William M. Ivins, Ernest Hall, Lawrence Veiller, Robert W. de Forest, William N. Cohen, Robert E. Dowling, and Watson S. Dunmore, of Utica. Henry W. Sprague, of Buffalo, Vice-President of the organization, will preside. It is important that every member should make it his first duty to attend this meeting. Members are also invited to bring their friends.

"B. AYMAR SANDS, President.  
"ALLAN ROBINSON, Secretary."

The Committee on Arrangements include Edmund L. Baylies, Noah C. Rogers, Alfred E. Marling, B. W. B. Brown, G. Richard Davis and Murray O. Giles.

## Building Operations.

### Mercantile Building for West 15th St.

15TH ST.—Ole H. Olsen, Southern Boulevard, Bronx, will erect on a plot 75x93.4, at Nos. 22, 24 and 26 West 15th st, a 6 or 7-sty fireproof mercantile building. C. Abbott French, Columbus av, will be the architect. No contract has yet been issued.

### Five New Flats for Brook Avenue, Bronx.

BROOK AV.—Messrs. Stern & Morris, 1133 Broadway, have plans under way for the erection of five high-class 6-sty flat buildings, 40x90, to cover the block front on the west side of

Brook av., between 136th and 137th sts., at a total cost of about \$250,000. Abraham Silberwitz, of 80 Willett st., will be the owner.

### Murphy Company to Build Auto Garage.

73D ST.—The Murphy Construction Co., 5 East 42d st., has received the general contract to build for the Automobile Realty Co., of No. 55 Duane st., at Nos. 177-179 East 73d st., a 5-sty and basement garage building, 40x80 ft. in size, to cost about \$60,000. Charles F. Hoppe, 55 Duane st., is architect. N. F. Brady is President and A. H. Laidlaw, both of 55 Duane st., is Secretary and Treasurer.

### Plans Filed for \$4,000,000 Pennsylvania Terminal.

7TH AV.—Plans were filed with the Building Department late on Friday for the new terminal station for the Pennsylvania New York and Long Island Railroad Company, to cover the entire blocks bounded by 7th and 8th avs, 31st and 33d sts, at a stated cost of \$4,000,000. The structure will be four stories in height and 433.4x771.6½ ft. in size. Messrs. McKim, Mead & White, of No. 160 5th av, are the architects. The materials will be Milford pink granite and Indiana limestone; roof of vitrified tile.

### Plans Advancing for Brunswick Building.

5TH AV.—Approximate estimates are being received by Architects Francis H. Kimball, of 71 Broadway, and Harry E. Donnell, of 3 West 29th st., associated, for the new 12-sty office building to be erected on the east block front in 5th av. between 26th and 27th sts. for the Brunswick Site Co., of 30 Pine st. The building will cover the entire plot, 197.6x130, about 31,106 square feet, and will cost approximately \$1,000,000. Mr. Robinson, of the Gorham Co., 5th av. and 36th st., is Vice-President of the company. (See also issue of Dec. 30, 1905.)

### Another Fifth Avenue Office Building—Opposite the Waldorf-Astoria.

5TH AV.—Henry Corn, of No. 320 5th av., will build, on a plot of 79.3x100 ft., at Nos. 341 to 345 5th av., immediately facing the Waldorf-Astoria Hotel, a 16-sty store and office structure. Mr. Corn's 5th av. building operations are well known. The new building will be planned to eclipse in construction and adaptability to commercial purposes anything yet accomplished in the neighborhood. He has informed the Record and Guide that no architect has yet been commissioned. Messrs. Maynicke & Franke, 298 5th av., have been architects in other building operations. No contract has been awarded.

### Mr. Goldsmith Will Build in the Spring.

34TH ST.—J. G. Goldsmith, of the Goldsmith Building, 22-24-26 West 34th st, will erect an office and loft building, 12 stories, at 32 and 34 West 34th st, on a plot 45x100, separated from the Goldsmith Building by the Dunston Building. The new improvement, which is in line with recent events in this thoroughfare, was mentioned in the Record and Guide of February 25, 1905. But building operations were delayed. Work will now be commenced on April 1. Messrs. Warren & Wetmore, of No. 3 West 33d st, are the architects. The building has been leased to Paul Bonwit, of Bonwit, Teller & Co., of 58 West 23d st.

### The Thompson-Starrett Co. Will Build Great Horse Exchange.

61ST AND 62D STS.—Plans for the new Horse Exchange Building will be drawn by Messrs. Hill & Stout, of No. 1123 Broadway, and the general contract will be in the hands of the Thompson-Starrett Co., of No. 49 Wall st. The building will occupy a plot comprising six city lots, 150x100 ft., running through from 61st to 62d st, 55 ft. east of Broadway and 100 ft. west of Central Park. It will be six stories in height, and cost \$400,000. The structure will contain all the modern features of a great horse mart. Mr. W. D. Grand, of the American Horse Exchange, Broadway and 50th st, has formed a partnership with M. H. Tichenor & Co., of Chicago, and the owners will be known as the Tichenor-Grand Co. A similar structure will also be erected in Chicago by the same firm, and this contract will be performed by a contractor of that city.

### Plans for Fine Arts Society Building.

The American Fine Arts Federation has appointed a committee, uniting the thirteen art societies of this city, for the consideration of the erection and establishment of a United Fine Arts building, the location of which has not yet been determined. Mr. John W. Alexander, representing the Society of American Artists, is chairman of the movement, and Grosvenor Atterbury, of 20 West 43d st., representing the New York Chapter of the American Institute of Architects, is secretary. Messrs. Phillips & Jullien, decorators, of No. 156 5th av, New York, have obtained the general contract for extensive alterations to private residence recently purchased by C. E. Henry Stengel, Esq., at corner of Broad st and Lincoln Park, Newark, N. J. Albert S. Gottlieb, 156 5th av, New York, is architect.

## Bids Opened.

A contract has been awarded to the General Railway Signal Co., of Lincoln Park, N. Y., for interlocking and automatic block signals to be used on the New York Central & Hudson River R. R. Co.'s electric system at New York. The contract amounts to \$2,000,000.

Bids were opened Jan. 19 for furnishing, delivering and laying a 12-in. flexible joint, subaqueous water main from Barretto Point to Riker's Island and thence to North Brother Island, as follows: J. Cromwell, Jr., 69 East 127th st, New York, \$47,439; Louis D. Gregory, 125th st and First av, \$65,617; J. H. Locheim, Mint Arcade, Philadelphia, Pa., \$61,374.

## BUILDING NOTES

The Army Building, in Whitehall st, is to be enlarged by two additional stories. The Secretary of War has transmitted to Congress an estimate of appropriation asking for \$80,000 for the purpose.

Arthur A. Ernst, formerly of the engineering department of the Holophane Glass Co., has opened offices in the Broad Exchange Building, 25 Broad st., rooms 1346 and 1347. He will make a specialty of engineering of light and illumination.

At the office of the George A. Fuller Co. it was learned this week that building operations under erection by the Fuller Co have not been seriously interfered with by the present strike, the only important building upon which work is affected being the new Plaza Hotel, at 58th and 59th sts.

It is announced by the Erie Railroad Co. that contracts will be awarded without further delay for work on the Bergen cut, to eliminate the tunnel through which the road now runs outside of Jersey City. The improvement is part of the company's plan for its new freight and passenger terminals at Jersey City.

A company has capitalized at \$3,000,00, it is said, to erect a steel tower 700 ft in height at Coney Island, to be known as the Friede Globe Tower Co. Samuel M. Friede, the inventor, is president; Edward A. Langan, of Brooklyn, vice-president; Alfred Price, secretary; and H. R. Wade, of Manhattan, treasurer. It is estimated that more than 7,000 tons of steel will be used in the structure, and the cost will approximate \$973,500.

**T**HIS illustrates the Power House of the Metropolitan Railway Company, at 96th Street and East River, New York City. It is considered, both from architectural and mechanical standpoints, one of the best examples of its class of building in this country. Among the several highly commendable features of this structure, the Ar-

chitectural Iron Work, including window frames and sashes, stairs, railings, etc., all manufactured and installed by the Hecla Iron Works, stand out boldly as master specimens of mechanical handiwork.

**The Hecla Iron Works are recognized as the first and foremost concern in the manufacture of Architectural Metal Work in the World. The plant is the largest and most complete, and the quality of its work is considered the standard, the world over.**

North 10th, 11th and 12th Sts., from Wythe Ave. to Berry St., Brooklyn, N. Y.

Builders who are anxious to save time in setting floor hinges will be able to do so by using the "Chief" floor hinge, handled by J. N. Limeburner, 84 Chambers st. This hinge simply rests upon the surface of the floor, and is applied by screws to the floor or expansion screws to stone or cement sills, thus requiring no large hole to be cut into the floor as is the case of floor hinges having a box spring. By actual count it is claimed three "Chief" hinges can be set in the time required to set one box-spring hinge.

For the protection of all concerned—architects, builders and the public in general—John W. Rapp, the manufacturer of fire-proof doors, is issuing through his lawyers a warning against infringing his patents; and he is preparing for next week's Record and Guide an important communication on this matter. He specifies seven concerns, manufacturers, that are infringing on his patent (No. 653,400), and he has instructed his lawyers to commence suits against those who persist in manufacturing and selling such doors.

Henry Pels & Co., 68 Broad st., New York, have issued a new catalogue of 48 pages, illustrating and describing Johns' Patent Punching and Shearing Machines. This catalogue is most complete, and they have gone to considerable trouble in order to assist their prospective customers in selecting the most suitable machine for their purpose. Henry Pels & Co. have for many years been designing and building punching and shearing machines for hand and power, but in their new catalogue they show several new types and others which have been changed in certain details of construction in order to adopt every improvement. A copy of this catalogue will be sent on request.

Edward S. Murphy, of the contracting firm of Murphy Bros., 489 5th av. was appointed Superintendent of Buildings of Man-

hattan on Tuesday by Borough President Ahearn, to succeed Isaac A. Hopper. Mr. Murphy is a native of New York and a graduate of Villa Nova College, of Pennsylvania. He is 41 years of age, a member of the New York Athletic Club, the Catholic Club and the Irish-American Athletic League. After his graduation he went into the building business with his father. In 1889 the firm became Murphy Bros., his junior partner being Sylvester Murphy, who was Assistant Building Superintendent under the Van Wyck administration. Mr. Murphy resides at No. 1205 Park av. A very successful administration is predicted for him.

A business-like and at the same time attractive catalogue has been put out by Farnham, Limited, of No. 39 Victoria st., London, S. W., England, calling attention to the Farnham patent processes for waterproofing by paraffine wax and cleaning by sand blast, stone, brick or marble buildings. Among the cuts of buildings to which the work has been applied are the Hotel Cecil courtyard and Strand front, Westminster Chapel, Maple & Co.'s premises, Tottenham Court road; "Pear's Soap" premises, New Oxford st.; London and Southwestern Bank, Fenchurch st., and Royal Liverpool Friendly Society, Liverpool. This line of work pertains to waterproofing exterior masonry through absorbing into the pores molten paraffine under heat absorption, which renders the wall impervious to moisture, thereby preventing disintegration as well as penetration of damp. Farnham, Limited, execute this work throughout the United Kingdom of Great Britain. Farnham's Continental Patents, Limited, execute similar work on the Continent, and the National Waterproofing & Cleaning Co., with office at 42 East 23d st., New York, and other offices throughout this country, are the associated companies for this line of work in the United States.

As the Portchester Railroad will carry passengers to White Plains for 10 cents (the New York Central system charges 40 cents for a single trip), the completing of the new electric line will make important changes in population centers. Ten years hence urban and suburban advantages will be pleasantly intermingled for most well-to-do New Yorkers.

On Tuesday, before the Washington Heights Local Board of Public Improvements, appeared General Horace Porter, President Butler, of Columbia University, and John D. Crimmins, to urge that the city acquire for park purposes the land between 116th and 122d sts., Claremont av. and Riverside Drive. The property is near Grant's Tomb. The estimated cost would approximate about \$3,000,000.

An advertisement of recent date in the daily papers stated that by sending a fee of one dollar to the advertiser full information would be sent taxpayers in regard to assessments on real and personal property for the year 1906. A clear saving of 98c. can be effected by mailing a letter requesting this information to the Department of Assessment and Taxes, 280 Broadway. The public will always find Deputy Commissioner Bell and his office assistants glad to furnish all the information required.

## Legislative Doings.

The New York City Republican delegation in the Legislature, after a conference, declared for the repeal of the mortgage tax law of 1905. The question as to whether a recording tax bill should be enacted as a substitute was left to a committee consisting of Senators Page and Gardner and Assemblymen Dowling, Wainwright and Agnew. The meeting elected Senator Page chairman and Assemblyman Murphy, of Kings, secretary. Senator Page moved a resolution, which was seconded by Assemblyman Young, that work should begin for the repeal of the mortgage tax law and a satisfactory measure urged in its place. Assemblymen Murphy, Miller (of Nassau) and Agnew will be a committee to poll the Assembly on the repeal of the mortgage tax. Senator Page suggested that future action by the New York members should be unanimous.

At the last meeting of the Republican County Committee, about a week ago, a resolution was introduced in regard to the operation of the mortgage tax law, and a sub-committee was appointed to investigate what the facts were in regard to it, and to report back at the next meeting of the Republican County Committee. The following committee was appointed: Charles H. Strong, chairman; Charles F. Bostwick, William Byrnes, James J. Duffy, James McComb, Charles A. Berrian and Benjamin Oppenheimer. This committee will give a public hearing on the mortgage tax law on Tuesday, January 30, at the Fifth Avenue Hotel, in the parlor D R.

Senator Page has introduced a mortgage stamp tax bill. It provides for a tax of one-half of 1 per cent., collectible without additional expense to the State or localities. No unstamped mortgages can be used in evidence.

By Assemblyman Green—Providing that when majority stock of a corporation is purchased by another corporation any minority stockholder may, upon notice to the two corporations, apply to the Supreme Court for appointment of three persons to appraise value of his stock.

By Assemblyman Dowling—Authorizing New York to acquire land in Lincoln Cemetery for highway or park purposes, and to permit the cemetery to remove elsewhere.

By Senator Stevens—Amending the banking law so as to require trust companies to keep a 15 per cent. reserve against deposits, if the principal place of business is in a city having a population of 800,000 or more, or a 10 per cent. reserve elsewhere.

By Mr. Hackett, in the Assembly, a bill providing that all insurance companies shall pay into the State Treasury all moneys earned above 5 per cent. of their capital. The surplus money is to be expended for the charitable institutions of the State under the direction of the State Board of Charities. In case any policies lapse the policyholders shall receive half of what they have paid.

## To Revise the Building Code.

At this week's meeting of the Board of Aldermen the following resolutions were passed, with only one dissenting vote:

"Resolved, That, in pursuance of Section 407 of the Greater New York Charter, the Building Committee of this Board be and it hereby is directed to prepare and report to this Board a 'Building Code,' in amended and revised form, providing therein for all matters concerning, affecting or relating to the construction, alteration and removal of buildings or structures erected, or to be erected, in the city of New York; and it is further

"Resolved, That for the purpose of properly preparing said Building Code the said committee be and it hereby is authorized to engage the services of the following experts, each of whom shall be a resident of the city of New York, and shall have been engaged not less than five years in his respective calling, to wit: A builder, an ironworker, a mason, a carpenter, a plumber, an architect, a civil engineer, a sanitary engineer, a physician and a lawyer, which said experts shall be paid a reasonable compensation for the services to be rendered by them, the compensation to be fixed by this Board after the service has been completed."

Previously a communication from Mr. William J. Fryer, chairman of the Board of Examiners, was read, advising against forming a building code commission in the way proposed. He said a better composition would be "a superintendent of buildings from each of the boroughs, ex-officio; the chairman of the Board of Examiners; the Chief of the Fire Department, ex-officio; a member of the New York Board of Fire Underwriters; a representative of the Corporation Counsel, and six other persons who shall be architects, civil engineers, master builders or iron manufacturers, all of whom shall be experienced in the science and practice of buildings and have been engaged not less than ten years in business on their own account in the city of New York, and be residents and voters in the aforesaid city. The commission should be provided with a secretary, a stenographer and typewriter, expenses for printing, and suitable office facilities for carrying on its work and for the giving of hearings to trade associations and persons interested."

Cutting down expenses as a result of loss of his salary of \$100,000 a year as president of the New York Life Insurance Co., John A. McCall has disposed of his magnificent summer mansion in Long Branch for \$350,000. It is said the place had been built and furnished at an expense of \$600,000. The purchaser was Myron H. Oppenheim, a lawyer, of No. 135 Front st. for a client. Supreme Court Justice Edward E. McCall conducted the negotiations for his brother. Of the \$350,000 purchase price McCall will receive, it is said, only \$100,000, as the property was incumbered with mortgages amounting to \$250,000.

## The "Record and Guide" Bureau of Information

On the first day of January, 1906, the "Record and Guide" commenced to issue a special *Real Estate Information Service* to all Persons who may Subscribe for the same.

This Service has been established at the request of a Number of the Leading Real Estate Brokers and Financial Institutions in this City, who have heretofore been unable to obtain really Prompt, Accurate, and Special real estate information.

The Management of the "Record and Guide" have very carefully investigated the Existing Needs of the Public and the real estate service, which the "Record and Guide" has organized, has been devised with an especial view to Actual Requirements.

By means of a Subscription to the "Record and Guide" *Bureau of Information*, Brokers and Others may equip their offices with a Complete Service of Real Estate Information at a cost of less than *Three Dollars* (\$3.00) *a week*. For this amount, they will be supplied with the "Record and Guide Quarterly" (improved), the Names and Addresses of Property Owners, full use of the *Bureau of Information*, a weekly service for Index purposes of *Conveyances* with Names of Grantees and their Addresses, a weekly service concerning *Mortgages*, a weekly service of information contained in *Wills* so far as same relate to real estate, and *other matters of importance*.

The information supplied will be Full, Accurate, and Prompt. Arrangements have been made to avoid Unnecessary Delay of even an hour. The Service, moreover, has been rendered so Flexible that it is believed it will meet the Requirements of *all offices* and of *any system* that may now be in use.

The "Record and Guide" *service* has been so Devised that it necessitates a Minimum Amount of Space, a Minimum Amount of Filing, a Minimum Amount of Reference, and does away completely with any possibility of a Huge Accumulation of reference cards.

*Supply your office with a first-class Information Equipment. A postal card will bring a representative to see you.*

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, the mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only, and the second figures representing both lot and building. Letter P before 2d figures indicates that the property is assessed as in course of construction.

### MORTGAGES

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

January 19, 20, 22, 23, 24 and 25.

JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments. The judgments filed against corporations, etc., will be found at the end of the list.

## It is "good business" for a landlord to keep

his property up to the times by using modern devices. The Luxfer System for daylight illumination of buildings is one of the most obviously good and modern things which can be installed to make good property better. Send for our literature, or, better still, telephone for our man.

NOTHING has happened in the real estate market in the past week to alter in any degree the complexion of affairs. A noteworthy transaction is the purchase by the Lawyers Title Insurance & Trust Company of Nos. 160-164 Broadway. This purchase may very fairly be regarded as fixing the shift of the seat of the real estate brokerage business to the north of Liberty street. This move has been a very slow process, but the expansion of the financial interest further south has finally accomplished the inevitable. Moreover, this purchase by the Lawyers Title Insurance & Trust Company, in conjunction with the recently announced sale of property on the opposite side of lower Broadway, constitutes the first big unexpected incident of the new year. Hardly any one anticipated that the lightning would strike from that quarter of the real estate horizon. There has been quite a little leasing during the past week of property in the "thirties," east and west of Fifth avenue. Many properties have evidently been acquired with the intention of remodeling the buildings for trade purposes. Activity in tenement houses has been maintained, and in all other divisions of the market the situation is in the main unchanged.

THERE are signs that the weather is changing in regard to public opinion as to the wisdom of the Mortgage Tax Law. So far as New York City is concerned, judgment is, of course, where it has always been—dead opposed to the economic principles and the practical operation of the law. But "up state" there seems to be now some evidences of sanity. The larger cities are the seats of this awakening intelligence. Even in their small way they are beginning to feel the injustice of this extraordinary method of taxation. The country places, of course, are still "darkest Africa." They believe it is possible to shift the burden of taxation by fiat, and it is hard to see how these people can be converted directly. The only hope is by bringing sufficient pressure from the rest of the state upon their representatives. Apparently there is a chance that this may be accomplished.

IF the real estate men of this city are to succeed in repealing this measure, they must fight hard and they must fight persistently. The law is deeply entrenched in the midst of agriculture, and bucolic ignorance will require a lot of pounding before it surrenders. Probably the question will have to be compromised by substituting for the present law a recording tax, although difficulties arise when one begins to consider even a recording tax. A tax is a tax after all. It matters not by what name it is known. Any tax whatsoever placed upon mortgages is a tax upon real estate. It is, moreover, under the special circumstances that exist in New York City, a tax upon the purchase of real estate, and, therefore, a tax in restraint of trade. It is commonly said that the mortgage tax is a tax upon the borrower. So it is. But in New York City the borrower in a majority of cases is also the purchaser of real estate. The result is obvious—the purchaser is compelled to figure into the cost of his investment the amount of the mortgage tax. Now, if the purchaser of real estate is to be taxed in this manner, why should not the manufacturer of shoes, or the purchaser of shoes? We cannot see why real estate should be made the ass that carries all the burdens merely because it is the most approachable of all property.

THE statistics covering building operations in New York City last year received surprisingly little attention. Nevertheless, they were not only particularly noteworthy as representing a very large investment of capital, but they were also very significant when placed in comparison with similar statistics from other cities of the country. A few years ago it might have been imprudent, but it certainly was not impudent, for Chicago to challenge a comparison with New York City, even boast of a future of greater potentiality. But the building statistics last year showed how mercilessly New York City is entombing in brick and mortar these Western aspirations. Something over sixty millions of dollars' worth of building construction was recorded officially in Chicago. In the single Borough of Brooklyn these figures were exceeded by nearly ten millions. In Manhattan and the Bronx, the Chicago figures were multiplied by more than two. If we add to the New York figures the value of suburban building which properly belongs to the metropolis, we see that New York City last year was the seat of at least two hundred and fifty millions of dollars' worth of building construction. It was, moreover, the seat but not the locality of an even larger amount of construction. A great many of the finer residences scattered throughout the country, in addition to numerous commercial and industrial buildings, are designed, as every one knows, by New York architects, and constructed by New York builders, or by firms whose headquarters are in this city. It is hardly an exaggeration, therefore, to say that New York City has become a greater building center than all the other large cities of the country combined. Even if statistics do not bear out this statement to the final dollar and the last cent, its correctness is not likely to be disputed if we turn for a moment to consider not only the totals but the value of the figures themselves. Building in other places is a local and cheap affair compared with the class of work that is done in New York City. No doubt, costly buildings are erected in Chicago. There are a few such in Philadelphia, and occasionally something of the sort arises amid the Puritan peace of Boston. But the bulk of the work done in other towns is not comparable in kind or costliness with the work that is done in the metropolis. The fact is, the rest of the country is simply outclassed. Fifteen or twenty years ago, Chicago, for instance, could make a very brave comparison with the City-on-the-Hudson in the matter of tall buildings, big stores, and the rest, and even Boston was not entirely "out of it." The case is very different to-day. It is literally true that New York City could, from its own stock, supply all other cities with their big buildings and then have left over more than any one of them possesses.

THE resolution which was passed by the Board of Aldermen a week ago last Tuesday week directing the Building Committee of the Board to prepare and report to the Board a revised building code, and authorizing that Committee to engage the services of ten experts to aid the Committee in properly preparing said building code, is in the hands of the Mayor and awaits his approval or veto. The Mayor's attention has been directed to the formation of an alleged expert body—in part, consisting of a plumber, a sanitary engineer, a physician, and a lawyer—as proposed in the aldermanic resolution, to prepare a building code that neither includes plumbing regulations, nor sanitary regulations, nor health requirements, and as the inadequacy and unfitness of the proposed body has been shown, the result is not unlikely to be an executive disapproval. It does seem that the resolution was drafted by some one having but little knowledge of the ability and skill required in framing or revising the New York building code. Unusual talent and experience are required to secure the best results in such a work, but perhaps the best results are not wanted, and there may be some concealed purpose of forming a hodge-podge body of so-called experts that can be relied upon to carry out special instructions. Beside the plumber, the sanitary engineer, the physician and the lawyer, six other men are to be selected, a builder, an iron-worker, a mason, a carpenter, an architect and a civil engineer. These latter are all very well, for it is assumed that men in those callings who have been engaged for a number of years in business on their own account have acquired a knowledge of the science and practice of building, although the resolution does not demand that the members of the small callings shall have such knowledge. Additional qualifications for any architect, engineer or builder are required to make one an expert in drafting a building code that is to cover the entire range of technical subjects relating to buildings. The vast importance to this city of a proper building code imperatively calls for the best service that can be secured to undertake the proposed revision, and the appointing power should have a free hand in making a selection of men, and not

be confined to a narrow range, and particularly not compelled to select from trades or callings having no direct connection with the subjects treated in a building code. The City Charter provides for the appointment and employment of a commission of experts to amend and prepare a building code. The aldermanic resolution is for the appointment and employment of a body of so-called experts to aid the Building Committee of the Board to prepare an amended code. The Mayor would do well to veto this resolution, and thus clear the way for the appointment of a commission of qualified persons to revise the building code in the manner intended by the City Charter.

### Subway Deficiencies.

**A** MATTER which should seriously concern the engineering department of the Rapid Transit Commission is the method of operation provided for the new subway. There can be no doubt that the train schedule of the existing subway is in some respects a disappointment. It is not serving as well as it should the most important purpose for which the tunnel was constructed. What Manhattan needs above all is a quick and trustworthy express service between Harlem and the City Hall; and a passenger is supposed to be able to make this journey in the present subway in between fifteen and twenty minutes. During those hours of the day in which the traffic is not unusually heavy he can travel from Harlem to the City Hall within the stated time, for with a clear track the expresses are fully capable of developing the required speed. But during the rush hours such is not the case. The delays are constant, and are sometimes prolonged almost beyond endurance. Instead of traveling to the City Hall in less than twenty minutes, the residents of the upper West Side and Harlem find that it frequently takes them forty minutes, and many of them believe that they can average much better time on the Ninth avenue elevated expresses. A passenger traveling to and from his business is subjected to more delays on the subway in a week than he is on the elevated roads in a year, and before any decision is made as to the operating plans of the new subways an investigation should be made as to the cause of these delays and the best method of providing a remedy.

There is no reason to suppose that the operating department of the Interborough Company is responsible for this condition. Like all other transit corporations, the officials of that company look with equanimity upon the overcrowded condition of their cars during certain hours, and they fail to do as much as they can to relieve such overcrowding. But an inefficient service is an entirely different matter, because a service of this kind causes them to lose business; and it is a fair inference that the incessancy of the current delays is due to conditions imposed by the very character of the subway, over which they have no sufficient control. The Record and Guide cannot attempt to give a complete account of these conditions; but the way in which some delays take place are sufficiently obvious. The greater part of them occur before the first express station is reached at 96th street, and by the coalescence of the two streams of traffic and the shifting of passengers which takes place at that point. But this is not all. Something of the same kind occurs at every express station. Of course many passengers find it necessary to shift from expresses to locals, or from locals to expresses at these points; and this transfer of passengers from long eight-car trains takes very much more time than is required by an ordinary stop. When trains are running a couple of minutes or less apart, an unusual delay at any one station will throw the whole machinery out of gear, and keep thousands of passengers ineffectually fuming in the cars.

The one improvement which has been suggested hitherto is the lengthening of the local stations so that they will accommodate eight instead of five-car trains; but this improvement, while it is necessary and may in certain instances diminish the delays, is obviously insufficient as a complete remedy for the existing difficulty. Whether any complete remedy is possible except at an enormous expense we do not pretend to know; but the Rapid Transit Commission certainly ought to institute an exhaustive inquiry into the matter, for the purpose both of improving the existing service and of avoiding a similar inefficiency in the other subways. So far as we can see, these delays must increase in proportion as the traffic becomes heavier, and there is no reason to suppose that the relief afforded by the construction of new subways will be anything like a sufficient remedy. The enormous shifting of traffic which must take place at all express stations seems to be the essential cause of the delays, and it is hard to see how they can be avoided under any plan which necessitates this transfer of passengers when trains are running very near together.

If, however, the new subways are operated in connection with

the surface cars, would it not be possible to avoid the congestion caused by the transfer of passengers from express to local trains and the reverse? Is it not worth while considering whether a plan of operation somewhat as follows would not provide a service which would enable more people to travel more quickly than by any other means. Let us suppose a four-track subway constructed so that all four tracks could be used for eight-car expresses. These four tracks would, however, be divided into pairs, and each pair of tracks would have stations approximately one mile apart; but, of course, the stations on each pair of tracks would not be situated at the same points. The consequence is, that either on one pair of tracks or the other a passenger would be able to find a station every ten blocks, and so could be brought within a few blocks of his destination. Then if the Metropolitan-Interborough Company would grant transfers good between the subway and its longitudinal as well as its cross-town lines, a passenger could board and leave the cars very near his starting-point and his destination, while at the same time obtaining the advantage of an express service which would not stop much oftener than the expresses on the existing subway. The writer makes no claim to be a traffic expert, and it may be that the suggested plan would either be impracticable or would have defects which would outweigh its advantages; but it certainly seems to possess certain obvious merits and to be worth careful consideration.

### Convention of the Architectural League.

The Architectural League differs from the American Institute of Architects in that it is less distinctively merely a professional organization. Its membership includes not only the architectural clubs of the most important cities in the Union, but also the National Sculpture Society and the National Society of Mural Painters. It stands, consequently, for architecture in its relation to the allied arts, and it appeals to people who are interested in good architecture from any point of view. The membership of the several subsidiary associations includes many people who, while not being practicing architects, are playing an important part in the national movement in the direction of higher architectural standards; and these people contribute largely to the body of approving and energetic public opinion, which is essential to the architectural development of the United States. It follows that the work of the League is no less important than the work of the Institute, and that the two organizations are traveling to much the same goal by different roads.

The seventh annual convention of the League was called to order at 10 o'clock on Wednesday, January 31, at the building of the Fine Arts Society, No. 215 West 57th st. The morning was devoted to routine business, after which a luncheon and entertainment was given to the delegates by the National Sculpture Society. At the luncheon informal remarks were made by several different authorities, and it was followed by excursions to parts of the city where sculpture may be seen in its proper architectural setting. On Thursday, February 1, after the usual business session in the morning, the National Society of Mural Painters entertained the delegates at luncheon, and in the evening Prof. A. D. F. Hamlin delivered an address upon the relation of sculpture and painting to architecture from an historical standpoint. On Friday another business session was held, and the convention was closed by a dinner in the evening to celebrate the beginning of the annual exhibition of the Architectural League of New York.

The meeting emphasizes the fact that the League stands particularly for the relation of architecture to the allied arts.

The headquarters of the delegates were at the Hotel Astor, Broadway and 44th st, and the Hotel Spalding, No. 127 West 43d st. The visitors were welcomed by R. H. Hunt, President of the New York League. D. Everett Ward was elected chairman.

The executive board announced that the effort to secure scholarships in the architectural schools of the country had resulted in a gift of three from "the president and fellows of Harvard," each of which was the equivalent of a year's free tuition in Harvard. Two of these had been awarded after an open competition in design, and the students are now at Harvard. The chairman of the executive board said that because of the short notice the competitors had been comparatively few. He asked for a much larger competition next time. The third scholarship will be awarded to the student passing the highest regular entrance examination. The League had also secured pledges of enough funds to establish "The Architectural League of America Traveling Scholarship of a value of \$1,200."

Among the recommendations of the executive board were the following: "That we use our good offices to encourage in the minds of the younger members of the organization a high ideal of architecture, expression and professional practice. And, finally, that we shall exert in the greatest degree possible a strong influence in molding the public opinion to a better appreciation of art."

# Development of the Mortgage Business

By GEORGE A. HURD

(Vice-President, Mortgage Bond Company of New York\*)

THE conveyance of land to secure a debt is as old as history. Among the earliest records and tablets found by archeologists in Egypt, Assyria and Babylonia are mortgages as well as deeds to real estate, and we may take it as established that soon after property rights in-land were recognized at all the right to mortgage went with the right to own and to sell. So large a part of the world's wealth consists of real estate that the use of it as security for debt was a matter of the most vital importance in the commercial progress of the race, since it gave to land a partial convertibility and prevented the capital invested in real estate from being wholly fixed. For many centuries, and, in fact, nearly down to the beginning of the last century, mortgages were, however, restricted to transactions between individuals who were (or at least considered themselves to be) personally cognizant of the value of the particular property offered as security. This necessarily confined possible mortgage lenders to those residing near the property on which a mortgage was desired, and, as capital could not move freely from place to place where it was most needed, great differences in interest rates existed between different localities.

Among other disadvantages attending this condition of things may be mentioned the fact that the effort to find individual lenders made it unduly expensive to obtain loans, resulting in the economic waste of unnecessarily high commissions, and that this difficulty was increased by the necessity of finding the exact amount needed. Then, too, individuals were unwilling to make long-time loans on mortgages which were nearly or quite inconvertible in their hands, and this resulted in forcing borrowers to pay commissions for obtaining new loans at comparatively frequent intervals, and in exposing them to the risk at each maturity of being unable to replace the loan. Individuals also did not ordinarily wish to have their capital returned to them a little at a time, but wanted the full sum at the termination of the loan, thus preventing the use of amortization loans, or loans which are paid off by degrees, until at the termination of the loan the whole of the principal has been returned. This type of loan, which is almost universal on the Continent of Europe today, and is coming into more frequent use in this country, so greatly increases the safety of mortgage investments that the resulting reduction in interest rates will usually be sufficient to enable a borrower to pay off the loan in forty or fifty years with an annual payment for principal and interest no greater than the payment for interest alone would be without it. It may be added that loans for fifty or seventy-five years would be for too long a period to be safe, unless for a constantly decreasing amount. Perhaps the greatest single objection, however, to the old system, or lack of system, in conducting the mortgage business arose from the fact that most individual investors could not be mortgage experts, and as a result frequent and serious losses were made, which tended to increase the whole level of interest rates.

All of these objections have been found in this country until recently, and, indeed, still exist in great measure, as a comparatively small, though a growing, proportion of the mortgage business is done by mortgage companies devoted solely to that business. So serious were these objections that Frederick the Great, after the successful termination of the seven years' war, took steps to remedy them by approving, in 1770, the formation of the first association for conducting the mortgage business and lending to it 200,000 thalers at 2 per cent. interest as a capital with which to commence business. This association, "Die Schlesische Landschaft," was formed of the land-owning nobles of the Province of Silesia, and the pressing need of it can be appreciated when we recall that the great victories of Frederick had almost all been won in that province, that buildings had been burned, cattle and farm implements destroyed, and the demand for money was so urgent that even on the safest mortgage loans interest rates had risen to 10 per cent, with an additional commission of 2 to 3 per cent., instead of the  $\frac{1}{2}$  of 1 per cent. which had formerly been the current charge. . . .

Turning now to a consideration of the methods of loaning in Europe, the most striking fact is that there has never in the 135 years of their existence been a failure of a European mortgage company or association, except two in Germany, which loaned on second mortgages. Such long continued safety and success make it interesting to examine the safeguards established by law with a view to preventing losses on bad loans. The principal of these are four in number, and have to do with the character of the security accepted, the percentage of value to be loaned, the limitation on the volume of bond issues in proportion to capital, and the requirement of annual payments in

reduction of the principal of loans. While some variations are naturally found in different countries, the underlying basis is found on examination to be surprisingly uniform. Taking up first the character of security offered, we find that no company anywhere is allowed to loan on vacant land, or other unproductive property. In the laws of the Prussian Central Boden-Kredit Co., one of the largest of the German companies, it is expressed in this way: "The company shall make loans only on property yielding a permanent and sure income." No loans, also, are permitted on mines and quarries. To these prohibitions the Credit Foncier adds theatres, and the "Banco Hipotecario" of Mexico goes farther and excludes, in addition to theatres, "bull fighting grounds or other places of amusement." The Mortgage Bank of Norway prohibits loans on factories, as do many other companies, and, in addition, loans on "uninsured buildings or country houses without land," in this resembling the Bavarian Mortgage Bank of Munich, which prohibits loans "on country castles or on buildings which cannot be rented separately from the estates to which they belong. The Credit Foncier is allowed to loan on mills and factories only when valued at what they would bring if sold for a different purpose. A peculiar provision in connection with the "Berliner Pfandbrief Institut," whose loans are restricted to the city of Berlin, is that it can loan only "on buildings that have been in use for three years." Undivided interests in property are universally excluded as security. The early German associations included live stock in valuing farms, but it was found that applicants for loans frequently borrowed live stock from their neighbors at the time of applying, and also the devastation wrought by the Napoleonic wars left Germany denuded of cattle. Live stock is nowhere now considered a part of the security for farm loans.

The second safeguard I have mentioned is the limitation on the percentage of value to be loaned. If we disregard the advances of the Russian Government to its peasants, which amounted to 75 per cent. of the value of the land in Russia and 90 per cent. in Poland, we find that the only companies or associations ever allowed to loan more than 66 2-3 per cent. of the value of the property are the Hamburg association founded in 1782, which could loan up to 75 per cent., and the Deutsche Grundschuldbank of Berlin when loaning on city property except in Holland, where 75 per cent. is usual on city and 60 per cent. on buildings. In Germany generally the limit is 66 2-3 per cent. of the value, though the Prussian Central Boden Credit Company is limited to 50 per cent. of the value of buildings and 66 2-3 per cent. of the value of land, while on vineyards and forests the limit is 33 $\frac{1}{3}$  per cent. The Deutsche Grundschuldbank of Berlin is limited on farm loans to 60 per cent., and the Bavarian Mortgage Co. of Munich to 50 per cent. The Deutsche Hypotheken Bank of Meiningen takes special precautions against overvaluation by limiting its loans to 60 per cent. "of the value when sold under unfavorable circumstances." The limitation is sometimes expressed in terms of rentals, the Deutsche Hypothekenbank of Berlin, for instance, being limited to ten times the official assessed income in cities, and twenty-five times the assessed income on estates, and the Suddentsche Bodenkreditbank to twenty times the net income. Some few companies in Germany are, however, restricted to 50 per cent. of the value of the property, and others to 60 per cent. of the land value and 50 per cent. of the value of the buildings.

Turning to other countries, the Credit Foncier of France is limited to 50 per cent., except on forests and vineyards, where the limit is 33 $\frac{1}{3}$  per cent. In Italy the limit for mortgage companies, originally placed at 50 per cent., was raised in 1881 to 66 2-3 per cent., though the loans of associations are still kept under 50 per cent. In Russia the St. Petersburg Credit Association is limited to 50 per cent., and the same is true of the associations in Belgium, though the mortgage companies there loan up to 66 2-3 per cent. The largest mortgage bank in Austria is limited to 50 per cent. In Denmark the companies are limited to 60 per cent. on land and 50 per cent. on buildings, while the associations are limited to 50 per cent. on land and 40 per cent. on buildings. In Norway the limit is 60 per cent. on all farm loans and loans in Christiania and Bergen, while it is 40 per cent. to 50 per cent. in other towns. In Sweden the limit is generally 50 per cent., though the one mortgage company there has been raised to 60 per cent. In Argentine and Mexico the limit is also 50 per cent.

These percentages may be compared with the limitations imposed by law in this country for the mortgage investments of trustees and savings banks and generally adopted by custom. In New York the limit for trustees is 66 2-3 per cent. and for

\*From a lecture delivered before the Real Estate Class of the West Side Y. M. C. A., Manhattan.

savings banks 60 per cent., while except in a few other large cities 50 per cent. is a maximum, and in smaller cities and newly developed agricultural districts loans are not often made for more than 33½ per cent. to 40 per cent. of the value. It should be stated, however, that the delays incident to foreclosure are much greater here than in Europe, with correspondingly greater accumulations of delinquent interest, taxes, costs and other expenses, so that our loans are in fact for larger percentages than they appear to be. In some cases European companies have the right to take almost immediate possession after default, the Credit Foncier having to wait but eight days, and the "Banco Hipotecario" of Spain only two days.

The third limitation established has to do with the amount of bonds which may be issued with a given amount of capital. The surplus is in all cases treated as a separate and special fund, and the usual legal requirements are that a percentage of the earnings amounting to 10 per cent. or 20 per cent. be set aside annually until the surplus equals 20 per cent. or 25 per cent. of the capital of the company. The Credit Foncier of France and the Prussian Central Boden-Kredit Company are both limited in their issues to twenty times their capital stock, and this appears to be the generally recognized limit in Germany, though at first many companies were restricted more closely. The Bavarian Company of Munich, which was formerly restricted to 12½ times its capital, in 1885 had the limit raised to 15 times, and the Deutsche Hypothekbank of Meiningen similarly had its limit raised from 10 times to 15 and later to 20. Only a few companies are allowed to exceed this limit, but we find the Rheinische Hypothekbank with outstanding bonds equal to 22 times its capital, and the largest company in Austria is only limited to 30 times its capital. Among companies restricted to 10 times their capital stock are the Italian companies under the law of 1884, the Allmanna Hypothekskassen and Stockholms Indteknings Garanti Aktiebolag of Sweden, the Banco Hipotecario of Mexico, and the greater number of Dutch mortgage companies, though as the latter are restricted to 10 times the subscribed capital, only a fraction of which is paid in, we find the Hollandsche Hypothekbank and the S'Gravenhaagsche Hypothekbank with respectively 58 and 53 times their paid-up capital in outstanding bonds. Norway limits the issues of its mortgage company to eight times, and Denmark its companies to six times their capital. The English and Scotch companies which loan, as we have seen, only outside of Great Britain, follow a different plan and usually limit their bond issues to an amount only equal to their subscribed capital, or even to the unpaid portion of it. At first thought this would appear to be more conservative than the Continental method of allowing issues up to 20 times the capital, or thereabouts, but it may well be doubted whether the Continental method is not in fact the safer, since with a large volume of business profits are satisfactory from a small difference in interest rates, and the temptation is removed of taking risky loans in the attempt to earn profits through a wider margin of difference in rates on a small volume of business. Incidentally to this it may be mentioned that the Credit Foncier and Credit Foncier Canadien are limited by law to a difference in interest rates on their loans and their bonds of 6/10ths of 1 per cent., the Italian companies, and more recently the Italian National Bank, to 45/100ths, and the Austrian companies to 1 per cent., thus recognizing the danger of attempting to make large profits out of too wide a margin in interest rates.

The limitation of the territory in which loans may be made, and the general requirement of annual payments in reduction of the principal of loans, together with a rigid government inspection, furnish additional safeguards, and also the further requirement that any property taken under foreclosure must be promptly sold, thus preventing a company from speculating for a future rise in the value of the real estate and concealing its losses by carrying foreclosed real estate as an asset at its cost to the company, regardless of its real depreciation. Had any such principles governed mortgage loaning in the United States, our losses from bad loans would have been a mere fraction of what they have in fact been.

The great advantage of the system of issuing bonds which are secured by the mortgages, as has been pointed out, lies in the convertibility which it gives to mortgage investments. These bonds are quoted and dealt in on all the principal European Bourses, though Paris and Berlin are the great centres for mortgage bonds of all countries, with Amsterdam and Hamburg next in importance. The bonds are usually amortization bonds, having 50, 60 or 75 years to run, while one Swedish company issues perpetual bonds, similar in effect to the debenture stock issued by some English companies.

It would be tedious to give quotations of the issues of different companies and associations, but it may be said in a general way that with ordinary conditions in the European money markets the 4½ per cent. bonds sell considerably above par, and the 4 per cent. bonds slightly above par, while the 3½ per cent. and 3 per cent. bonds, except those of the strongest companies, are at a small discount, unless they are issued with a lottery feature, consisting of an annual drawing for prizes. These lottery bonds are prohibited in Germany, but are some-

times issued in France and Austria, and command a high premium regardless of the interest rate they may bear.

Allowing for the company's profit, borrowers in Europe usually pay from 3½ per cent. to 4½ per cent. for their loans, or somewhat less than 5 per cent. with the annual amortization payment included, provided they have good security to offer. The saving in interest to borrowers can be appreciated when we recall that rates in Germany were 10 per cent., in France 7 per cent. to 12 per cent., and in Italy from 8 per cent. to 12 per cent., just prior to the organization of the mortgage business in those countries. And in Spain to-day private lenders frequently obtain from 8 per cent. to 10 per cent., as compared with the 5 per cent. charged on loans of the Banco Hipotecario, with 1½ per cent. additional to cover expenses and amortization. In Russia interest rates have always been higher than in the other large countries of Europe, the prevailing rates even before the present disturbances there having been from 6 per cent. to 7½ per cent., while bonds have not been sold at a lower rate than 4½ per cent.

In times of war mortgage bonds have been found to be more stable in value than any other class of security. During the Franco-Prussian war the 4 per cent. bonds of the Credit Foncier sold at from 92 to 95, a higher figure than the quotation of any subsequent year until 1875, and the bonds of German companies showed a similar strength. In times of commercial panics it has been observed, too, both in Germany and Austria that these bonds actually rise in value, the explanation being that in the speculative period preceding a panic they are largely sold in favor of more speculative investments, while after a panic there is a desire to invest again in the safest securities. The lowest point ever reached in the quotations of German mortgage bonds was in 1812, when the harbors of the Baltic were closed during the Napoleonic wars. The bonds of various associations sold then for a time at prices ranging from 33½ per cent. to 69½ per cent., but ultimately all regained their value and were paid in full. During the troubles of 1848 in Germany, mortgage bonds ranged in price between 83 per cent. and 96 per cent., while government bonds fell to 69 per cent., the shares of the Bank of Prussia to 63 per cent., and railroad securities to prices ranging from 30 to 90 per cent.

I have already stated that it is probable that the small share of the mortgage business of the United States done by mortgage companies is due to the adoption of English customs at the time of the early settling of the country. By far the greater part of all mortgage loans here are made by individuals, and of the remainder the great bulk are made by institutions which are final investors, the savings banks holding over \$1,100,000,000 of mortgages and the life insurance companies about \$700,000,000. In New York City, however, a change has been going on gradually for the last twenty years, owing to the formation of the two large title companies. These companies, though formed for the purpose of insuring titles to real estate, invested their capital and surplus largely in mortgages, and found it advantageous to turn their capital over as often possible by selling the mortgages made and reinvesting in other mortgages on which fees and commissions were earned. They found, however, that many investors were unwilling to purchase mortgages unless payment of principal and interest was guaranteed, and later, about twelve years ago, in connection with each title company, a mortgage company was formed, to sell guaranteed mortgages to investors at a rate of one-half of 1 per cent. less than the rate borne by the mortgages. The growth of these two companies has been remarkable and they already have outstanding nearly \$150,000,000 in guaranteed mortgages on New York City property. Other smaller companies have since been formed to carry on the same business. The most recent development, however, in the mortgage business here has been the formation during the past year of a company connected with one of the two large title companies which I have mentioned, to do a business exclusively through the issuance of mortgage bonds after the European method. Since our laws do not provide the restrictions commonly in force in Europe, the mortgages securing its issues of bonds are deposited with a fiduciary institution as trustee, under a trust agreement, whose terms express those restrictions and are binding on the company, thus affording to its bondholders the same protection as is given by law in Europe. These mortgage bonds offer the only form through which mortgage investments can be placed in Europe, and this company is attracting foreign capital to this country for mortgage investment, as well as offering a new type of security to investors here.

Looking at the whole matter of handling the mortgage business through companies especially formed for that purpose from the economic point of view, we can see that the charge of the companies is small for the services rendered. For this charge of about one-half of 1 per cent the investor obtains safety for his principal and interest and promptness in receiving them, he avoids loss of interest between investments and can invest any amount he may wish at any time. No inspection of appraisal of the property is necessary, and the annoyance of looking after insurance policies, taxes and other matters is done away with. Finally, in its most developed

form, such a mortgage investment is immediately convertible. From the borrower's point of view there is a gain in having the business handled by mortgage companies, because of their practically unlimited resources and the promptness with which they can act on applications for loans, together with the liberal terms of partial or total prepayment which they can offer. From the companies' standpoint, by the avoidance of poor loans through skill and experience, owners of real estate are saved from the waste of badly planned or located buildings, and an economic saving of great value is effected.

I can only say in conclusion that the important function of an organized mortgage business is to render convertible and turn into liquid capital the great wealth stored in real estate.

### Hearing on the Mortgage Tax.

**T**HUNDERBOLTS of argument were hurled at the subcommittee of the Republican County Committee on Tuesday afternoon when the hearing on the Mortgage Tax law opened with Chairman Charles E. Strong presiding in a parlor of the Fifth Avenue Hotel. Thunder portends a storm. If the Mortgage Tax law is not speedily repealed, there will be a drenching for the party responsible. This is the omen from the unanimous expression of public opinion which the committee heard. No voice was raised in behalf of the law, but seemingly the whole body of citizens, rentpayers and taxpayers alike, through their accredited representatives, proclaimed against the tax.

Not a mass meeting, nor a very large assemblage, it was yet a strikingly impressive one, in that probably every considerable department of real estate interest in the county was represented therein, namely property owners' associations, boards of brokers, boards of trade and transportation, savings banks and title companies, building companies, and, comprehending all, the Allied Real Estate Interests. Forceful, clear and incisive were the remarks upon the question, each speaker fitting his words neatly into the general scheme, and the whole forming a mosaic of convincing and unanswerable proof that the Mortgage Tax law is unjust, unkind and un-American.

Distinguished for authority and definitive argument were the remarks of Mr. Lawson Purdy, who appeared for the Tax Reform Association of the State of New York; Mr. Charles E. Sprague, of the Union Dime Savings Bank, and of Mr. B. Aymar Sands, the president of the Allied Real Estate Interests; though spirited addresses were made by others, notably by De Borden Wilmot, of the Tax Committee of the West End Association, and representing also the Central Mortgage Exemption Committee of City of New York; Minturn Post Collins, representing various real estate and banking interests; Andrew Colvin, one of the framers of the repeal bill now in the Legislature, and Francis B. Taylor, who spoke for Queens; while crisp and incisive points, such as a merchant, broker or banker would make, were spoken by such representative gentlemen as Messrs. H. D. Dumont, of the Merchants' Association; James Talcott, of the Board of Trade and Transportation; William A. Olcott, of the Chamber of Commerce, and Francis E. Ward, of the Real Estate Board of Brokers.

From four to six the hearing continued, the remarks of Mr. Sands being at the close. Seldom has there been heard on any similar occasion an exposition of a subject more complete and conclusive, yet entirely extemporaneous and in part consisting of answers to questions by members of the committee and others. Mr. Purdy was also thus interrogated at the conclusion of his remarks, this evincing the earnestness and interest which characterized the meeting. Inasmuch as the hearing has been very fully reported in the daily press, it remains for the present notice only to select a few striking sentences uttered on the occasion:

Charles E. Sprague, president of the Union Dime Savings Bank:

"No amount of talk and argument can make a mortgage personal property. It is an interest in real estate and no specious twisting of the facts can make it anything else. You might as well tax a state of mind as a relation between borrower and lender. I don't think that a law like this is creditable to the party that I have voted with off and on—since I voted for the election of Lincoln. It would be well for the party to admit it. The measure has met with nothing but condemnation all over the State and why it should have been passed at all I do not know."

Frank De Muth, of the West Side Taxpayers' Association:

"It beats me," he said, "how anyone can find justification for a law that makes a man who owns his property outright pay one tax while the fellow next door who must allow half to remain on bond and mortgage must pay just double what the luckier fellow adjoining him pays. I wish that Gov. Higgins was here to see this array of property owners and taxpayers. I think it would convince him that the G. O. P. has made a gigantic blunder and had better retire gracefully while it has the chance."

Lawson Purdy:

"If the lesson of the annual mortgage tax is so taken to heart that all taxes on mortgages are repealed it will be worth more than it cost. Others will show that the annual tax has largely

increased interest in the city of New York since July 1. I propose to show that the liability to taxation increased interest in this State before that date. On account of our abominable usury law our records never show the true average rate of interest, because the record does not show the true rate when it exceeds 6 per cent. There is no usury law in Massachusetts and the record more nearly tells the truth. During the last six months the average interest rate on Boston mortgages was about 4.85 per cent., although the record shows that nearly 9 per cent of the money was loaned at rates in excess of 6 per cent. There was money loaned at every per cent. from 7 to 12, and some at 14, 15 and 18 per cent. The New York County record, although it conceals all interest in excess of 6 per cent., shows an average of 5.54 per cent.

B. Aymar Sands: "We have had during the past year a very buoyant and prosperous real estate market, and this condition, although held somewhat in check by the high rates of interest, still prevails. Real estate, on account of its inherent qualities and the difficulties attending its transfer, is very slowly affected by a change of conditions, and the general force of the market has, so far, operated to prevent any decline. . . . But unless the owners of mortgage property are able to raise their rents, or interest rates fall on account of causes which we cannot foresee, I am of the opinion that the values of real estate, in adjusting themselves to existing conditions, are likely to slowly fall. They now seem to be wavering."

The addresses will be put in the form of a memorial to the Legislature as an argument in favor of pending legislation for the repeal of the mortgage tax bill.

The general opinion expressed was that the passage of the bill was a blunder, and that the tax should either be repealed or a recording tax be substituted that would be a lighter burden. Most of the speakers said they did not believe that a full repeal could be brought about, and that the recording tax measure, in that case, would have their support.

### Exhibition of the Architectural League.

The Architectural League of New York will hold its annual exhibition of architecture, decorative painting and sculpture in the galleries of the American Fine Arts Society, 215 West 57th st, during the month of February.

These exhibitions have been held annually since 1886, and have gradually come to be of national importance, since here are represented many typical examples of the latest work of the more prominent architects, painters and sculptors throughout the United States. The exhibition will be open every day to the entire public, since it is one of the highest aims of the League to assist in the education of the public in matters pertaining to these three kindred arts. For those who may desire more ample opportunity for careful study of the exhibits two days of each week are set apart as pay days.

The opening of the exhibition with the annual dinner is the chief occasion of the year, when resident and non-resident members unite to honor special guests and to hear the discussion of topics of professional interest. This year the special guests are the delegates to the convention of the Architectural League of America, which is composed principally of the younger men in the profession of architecture who have organized societies in the larger cities upon similar lines and for a similar purpose to that of the New York body, and who, after three days of business sessions in the morning, sight-seeing in the afternoon and the hearing and discussion of papers in the evening, dined with their hosts on Friday, February 2, at 7 P. M.

The exhibition promises to be of great interest this year, not only to the artist (whether he—or she—be architect, painter or sculptor), but to any and every man or woman of intelligence, of taste or of refinement, whatever may be the income or scale of living. There are shown banks and railroad stations, hotel and apartment houses, churches and college buildings, city and country residences, small cottages and large institutions, monumental constructions, rural paintings and memorial windows, fountains and friezes, statues and spandrels—in short, there seem to be gathered here examples of almost all the objects which architect, painter or sculptor could be called upon to design to conform to the requirements of modern life.

There is, however, a special interest which attaches to the exhibition of this year. In 1904 the New York Chapter of the American Institute of Architects established a medal of honor to be awarded for distinguished merit in an executed work of architecture, but, as there were so few entries for this prize at the last exhibition, no award was made. It is expected that the drawings and photographs entered for this competition will lend additional eclat to this occasion.

The interest of the general public is farther stimulated by the series of three lectures which are given during the continuance of each annual exhibition. All of these entertainments have tended to encourage the growing and intelligent appreciation of the objects for which the League has been striving continually during the past twenty years, in which the public is cor-

Mortgage Tax Meeting.

REPRESENTATIVES FROM DIFFERENT SECTIONS OF THE STATE REPORT ON THE WORKING OF THE MORTGAGE TAX LAW IN THEIR LOCALITIES.—SENTIMENT UP-STATE RAPIDLY CHANGING INTO OPPOSITION TO THE LAW.

A meeting under the auspices of the Allied Real Estate Interests of the State of New York was held at the Real Estate Salesroom, No. 14 Vesey st, New York City, yesterday afternoon, with Henry W. Sprague, of Buffalo, first vice-president of the organization, presiding. There was a large attendance of representative citizens from various parts of the State. Congressman J. Breck Perkins, of Rochester, and Judge Watson T. Dunmore, of Utica, were present and addressed the meeting, representing the up-State sentiment. Among the speakers for this city were Hon. Wm. M. Ivins, Hon. William N. Cohen, Hon. Robert W. de Forest, Judge Ernest Hall, Mr. Lawrence Veiller and Mr. Robert E. Dowling. Mr. Lawrence Veiller spoke on behalf of the Allied Real Estate Interests and outlined the work being carried on by that organization.

Reports that are being received from interior sections of the State show that much stronger opposition to the bill exists there than had been anticipated. Branches of the Allied Real Estate Interests have been organized in Buffalo and Rochester, and another branch is now being organized in Syracuse. An important meeting on the mortgage tax was held in Rochester on Monday last, at which time resolutions were adopted calling for the substitution of a recording tax in place of the present law. From the smaller cities and towns reports have been received showing that the sentiment which was said to have existed last spring in favor of the Mortgage Tax law is rapidly changing, as a result of the increase in interest rates throughout the State; and a very general desire for the repeal or the amendment of that law is being expressed.

Hon. J. Breck, of Rochester, in his address at the Vesey st meeting yesterday afternoon, said: "I suppose I am desired to be here that it may not appear that interest in the repeal of

this law is not confined to the city of New York, but extends all over the State. We have not always the pleasure of agreeing with you in matters of public importance. Up in our section we had, and still have, little faith in sufficient returns for the enormous expense of the barge canal. We are progressive in Rochester. We believe that canals, except perhaps ship-canals, belong to the era of stage coaches. However, time will decide the controversy. Upon the matter which we have to consider to-day all are united. I can safely say there is not a bank or a loaning institution in Rochester which approves of the Mortgage Tax law. I don't believe there is a business man who approves of it, and I am perfectly sure that not a borrower who has had to pay a half per cent. additional by reason of it regards it with a lively affection.

"If this tax remains on the statute books, a larger proportion of the mortgages in the State will be subjected to its provisions. Each year a larger number of borrowers will have to pay one-half of one per cent. additional interest on their debt, by reason of this tax. Each year, therefore, it will become a greater burden on those who borrow, a greater check on the development and improvement of real estate. Every prophecy made in behalf of this measure has been disproved by the facts; every argument made against it has been justified by the subsequent course of events."

Hon. Ernest Hall, of New York, said: "If revenue must be raised, I am in favor of a small recording tax on mortgages, and perhaps also on conveyances, either in the form of a stamp or a cash payment at the time of recording. This would simplify the law and make collecting the tax easy and certain. The law should provide for the exemption of all present mortgages upon payment of tax, and might provide for the taxation of all bonds issued upon the security of general mortgages, so that they might be stamped 'Tax Exempt' upon payment of the single tax."

Hon. W. N. Cohen, of New York, said: "As a citizen, as a taxpayer and as a lawyer it is my firm conviction that Chapter 729 of the Laws of 1905 is unjust, inequitable, inadequate, unconstitutional and detrimental to the best interests of the State and of the city."

The Labor Situation.

Scarcely will the striking housesmiths present a solid front to their employers for many weeks longer. A formal surrender without terms is not to be expected, but a wholesale desertion from the unions by the individual members is a strong probability before the month is ended. The employers are daily securing new men, and their work has advanced in spite of the strike to a farther point than they could have expected in a winter season of ordinary severity. In a few urgent cases the higher wage demanded by the ironworkers has been granted, but no employer belonging to the association has yielded.

The non-receipt of a promised stipend from the International Union has caused dissatisfaction among the large proportion of men who have been disappointed in this respect, and the crushing power of poverty upon those who have been unable to obtain work at other occupations will eventually become apparent. Post & McCord have manned nine of their principal jobs adequately, and some other firms have as much as eighty per cent. of the number of men they need.

Legislative Notes.

If the Saxe bill, taxing personal property in this State owned by non-residents, which has been passed by the Senate, becomes a law, real estate interests will breathe a little easier.

Mr. Murphy, of Kings, has introduced a bill to compel real estate brokers in first and second-class cities to file with the Mayors of their cities a bond for \$5,000 each, and take out a license. The fee is \$250 in New York and Buffalo and \$175 in Rochester, Syracuse, Troy and Albany. Brooklyn cannot collect commissions unless licensed. An exposition of this subject appeared in the Record and Guide last week.

Personal Mention.

George W. Lithgow, of 41 King street, one of the old builders of the city, is dead. He was prominent in the General Society of Mechanics and Tradesmen, and for twelve years was on its library committee.

The Index to Volume LXXVI. of the Record and Guide, covering the period between July 1 and December 30, 1905, will be ready for delivery on Tuesday, February 6. Price \$1. This Index in its enlarged form is now recognized as indispensable to every one engaged or interested in real estate and building operations. It covers all transactions—deeds, mortgages, leases, auction sales, building plans filed, etc. Orders for the Index should be sent at once to the office of publication, 14 and 16 Vesey St.

# THE REALM OF BUILDING

## New Building Superintendent Installed.

Edward S. Murphy, Borough President Ahearn's new Superintendent of Buildings, was installed in office bright and early Monday morning with simple ceremonies. Isaac A. Hopper, the retiring Superintendent, with Assistant Superintendent Gordon, and Chief Inspector Bernard J. Gorman, led Mr. Murphy at once on his arrival to the department assembly room, where the whole force were gathered to greet the new department head. Mr. Hopper made a pleasant speech, in which he thanked the men for their co-operation during the two-year term, and then presented Mr. Murphy, who said:

office. It bore a little card on which was written: "Best wishes of mother." All day long friends came trooping in to shake the new Superintendent's hand, and wish him a serene and successful administration. Mr. Hopper joined in these felicitations.

## Building Operations.

### Six Flat Buildings for 163d St.

163D ST.—Rouse & Sloan, of No. 11 East 43d st, have plans under way for the erection of six high-class 5-sty flat buildings, 44.2x87.11, to be situated on the south side of 163d st, 100 ft. east of Broadway, at a cost of about \$300,000. There will be apartments for 21 families, with 4 families on a floor each. The New England Construction Co., 124 West 47th st, will be the owner.

### New Hospital on the West Side.

53D ST.—The Amity Baptist Church Society, 312 West 54th st, has commissioned Messrs. Rossiter & Wright, of No. 95 Liberty st, to prepare plans and specifications for a new 5-sty fireproof hospital and church building, 25x105x irregular, to be situated on the north side of 53d st and south side of 54th st, about 150 ft west of 8th av. No contract has yet been awarded for the work.

### Apartment House on Broadway.

BROADWAY.—The Central Realty Co., 7th av and 57th st (Wm. H. Barse, president; James M. Todd, secretary) will build a 10-sty elevator apartment house, on a plot with frontages of 126.10 ft on Broadway and 100 ft on 101st st, the northeast corner. There is a station of the subway at 103d st. The building will have the very latest improvements, and apartments will be arranged in suites for housekeeping purposes. Messrs. Mulliken & Moeller, of 7 West 38th st, have been the firm's architects in previous operations.

### New York Architects to Design Baltimore Building.

It is reported that the architects who will design the new home of the Colonial Trust Company in Baltimore have been practically selected, although they have not been notified. It is understood that the sketches submitted by McKim, Meade & White, of New York City, were the ones most favorably considered by the officers of the company, but no announcement regarding the names of the architects chosen has been made. The structure is to be situated on the south side of Saratoga st, west of Charles st, and will extend through to Clay st, Baltimore. The building will probably be two or three stories.

### More Improvements by Milliken Bros.

STATEN ISLAND.—Plans and specifications are now being designed by Messrs. Milliken Bros., Inc., of No. 11 Broadway, covering a slip and float bridge to be erected in addition to their plant on Staten Island, so that the largest railroad car carrying floats can be accommodated. The slip will be wider than a single float, in order to accommodate lighters. This will permit all roads to deliver material without unloading its freight direct. The work of grading and excavating for the new open-hearth steel plant and rolling mill is progressing rapidly. For full building particulars and descriptions, see issues Dec. 2, 1905, and Dec. 23, 1905.

### Chas. T. Wills to Build the Brunswick Building.

5TH AV.—The general contract for the new Brunswick office building, to be erected on the east block front in Fifth av, between 26th and 27th sts, by the Brunswick Site Co., of 30 Pine st, has just been awarded to Charles T. Wills, of 156 Fifth av, and the structural steel work to the American Bridge Co., of No. 42 Broadway. The structure will cover the entire plot, 197.6x130, about 31,106 square feet, and will cost approximately \$1,000,000. Mr. Robinson, of the Gorham Co., 5th av and 36th st, is vice-president of the company. There

## Announcement.

The officers of the Marine Engine and Machine Company, manufacturers of elevators, with offices at 126 Liberty street, this city, announce to the public at large that all statements to the contrary notwithstanding they are still in the field and in no wise connected with any other concern in the elevator business. The officers feel constrained to make this announcement, in view of the fact that rumors of the absorption of their company by the trust have been circulated, and in justice to themselves and their clients they would further state that all orders for elevators, either electric, hydraulic, or plunger, will receive the same prompt attention and delivery as has been the rule heretofore.

THE NEW SUPERINTENDENT OF BUILDINGS IN MANHATTAN—  
EDWARD S. MURPHY.

FLORAL GIFTS.

"Gentlemen, I am much obliged to Mr. Hopper for his kind words. I am very happy to meet you all this morning. I am going to try and be your friend and I want you to be mine."

Superintendent Murphy paid a formal visit to the different department divisions and then returned to his office and buckled down to work. The spacious room was banked on all sides with beautiful flowers sent by friends. There were any number of big "good luck" horse shoes and horns of plenty. But that which attracted the most notice was the pretty bunch of American beauty roses, bound together with ferns that lay on the desk top as Mr. Murphy took his seat of

will be 12 stories, five electric passenger elevators, steam heating system, marble and tile work, and exteriors of granite. Francis H. Kimball, 71 Broadway, and Harry E. Donnell, of No. 3 West 29th st, are the architects. Work will be begun at once. No other sub-contract has yet been awarded.

## Work to Start on New Bellevue Hospital.

Actual work was begun on Tuesday of this week by Contractors John H. Parker & Co., on excavations, tearing down the consumptive wards for the new Bellevue Hospital on 1st av, between 26th and 29th sts. The first section, to be known as the Southern Wing, will consist of two pavilions 7 stories high. Each will be 150 ft. long and 36 ft. wide, enclosing a court 64 ft wide on two sides. \$850,000 was recently appropriated by the Board of Estimate and Apportionment to start the work, and this amount is now available for the erection of the southern wing. The two new pavilions are to be connected by a 7-sty administration building. Roof gardens, open balconies, and sun rooms will be provided to accommodate all the patients. The improvement is estimated to cost nearly \$8,000,000. Messrs. McKim, Mead & White, of 160 Fifth av, are the architects.

## Contracts for Central's Post Office Building.

LEXINGTON AV.—The letting of the general contract was made this week to John Peirce, of No. 277 Broadway, for the erection of the New York Central post office and office building on Lexington av, Depew place and 43d to 45th sts, from the plans by Messrs. Reed & Stem, No. 5 East 42d st, and Warren & Wetmore, of 3 West 33d st. The contract for the steel framework has been awarded to the McClintic-Marshall Construction Co., of 13 Park row. At the office of Mr. Peirce it was stated that no other sub-contract has yet been issued. This is the first large contract of the group of permanent buildings so far awarded by the New York Central. The buildings include an entirely new Grand Central Station. The cost of these improvements will approximate \$20,000,000. The buildings will be set back from 42d st, a distance of about 40 ft, and back from Vanderbilt av a distance of about 70 ft, so as to afford a generous approach. The combined frontage will be 680 ft on Vanderbilt av, 625 ft on 45th st, 460 ft on Lexington av, 275 ft on 44th st, 260 ft on Depew place, and 300 ft on 42d st. The post office building will be 7 stories in height and measure 460x275 ft.

## Mystery in Pennsylvania Plans.

It has from the beginning been difficult in advance of official voluntary announcements to get particulars of the Pennsylvania Railroad's plans, silence having been imposed upon the usual sources of information. Evidence of this policy is seen in the plans filed at the Building Bureau, as those from which the public might have obtained definite pictures are so faint and obscure that the lines can scarcely be discerned. No photograph of any part of the exterior has been obtained, though several attempts have been made, because of the faintness and indistinctness of the drawings. The plans, as filed, comprise a set of sixty-eight drawings, some of unusual size. They represent the largest single piece of contract work in the history of the department. The facades are to be ornamental granite, of classic design, decorated with a long colonnade. The central part occupied by the main waiting room will be 155 ft high, with an arched dome, and the main section will be 65 ft. high. The main facade will be on the north side, facing 33d st, with a mammoth vestibuled entrance, with a great clock over the centre, flanked by sculptured figures. The apex of the roof over the waiting-room will be adorned by an allegorical figure seated. There will be an arcade and concourse on the Seventh av front, opening off the waiting-room. On the north and south sides of the edifice will be carriage courts and driveways, leading down to the tracks. The terminal is to have a spacious restaurant. The interior is to be adorned with columns and ornamental panels of granite.

## Apartment, Flats and Tenements.

LA FONTAINE AV.—M. Wieland and Joseph Ruff, 401 East 16th st, will build on the southwest corner of La Fontaine av and 181st st, Bronx, a 5-sty 20-family flat, 44.8x85.6, to cost \$30,000. Chas. M. Straub, 122 Bowery, is planning.

JACKSON AV.—Carl Sotscheck, 1044 Clay av, will build on the west side of Jackson av, 62.8 ft. north of Westchester av, Bronx, a 6-sty 16-family flat, 41x89.4, to cost \$38,000. Goldner & Goldberg, Westchester and Jackson avs, are preparing plans.

HOFFMAN ST.—Magdalena Marx, 224th st and White Plains rd., will erect three 3-sty frame 3-family dwellings, 16.8x63, on the east side of Hoffman st, 75 ft. north of 187th st, Bronx. Cost, \$19,500. Franz Wolfgang, 787 East 177th st, is architect.

181ST ST.—Adolph Hollander has just entered into a contract with Michael Fortunato, contractor, for the excavation of his square block bounded by 181st and 182d sts, Wadsworth av and Broadway. Improvement of the site with high-class apartment houses will follow.

152D ST.—The Garibaldi Realty & Construction Co. (S. Guidara, general manager), 167 14th av, Astoria, L. I., will soon erect one 6-sty apartment house, on plot 50x100, on the south side of 152d st, east of Morris av, Bronx, for 39 families, with stores, open plumbing, baths, hot water, plastic slate roof and other modern improvements. Cost, \$48,000. Louis C. Maurer, 22 East 21st st, is architect.

## Mercantile.

34TH ST.—R. Smith, of R. Smith & Co., ladies' outfitters, 46 West 14th st, will build at Nos. 13-15 West 34th st, on a plot 50x126 ft, an 11-sty mercantile building. Levitan & Fischer, 20 West 31st st, and F. A. Minuth, 289 4th av, have been Mr. Smith's architects in previous operations.

## Stables.

ATLANTIC AV.—H. F. Saxlebye, 5 Hanson place, Brooklyn, is preparing plans for a 4-sty fireproof stable, 95x155, for the Long Island Railroad Co, 128 Broadway, Manhattan, to be erected at Atlantic and Carlton avs, Brooklyn. No contract has been issued.

36TH ST.—No contract has yet been awarded for the new 6-sty stable, 25x93.9, which John F. Moser, 374 West 35th st, will build at 447 West 36th st, to cost \$15,000. Plans by L. A. Goldstone, 110 West 34th st, call for brick, slag roof, stone cornices, terra-cotta coping, etc.

## Alterations.

ELM ST.—Floyd H. Crane, of the New York, New Haven & Hartford Railroad Co., Grand Central Station, will remodel and renovate the 5-sty building at the southwest corner of Elm and Pearl sts, on plot 50x75. The work will be performed through the office of Chas. F. Noyes Co., No. 92 William st.

## Miscellaneous.

125TH ST.—The Motor Boat Club of America, of which E. R. Thomas, 71 Broadway, is interested, it is said will build a new club-house at 125th st and Hudson River.

At the next meeting of the Board of Estimate H. A. Metz, Comptroller, will present a proposition to erect a municipal building on the site of the old 69th Regiment Armory in Cooper square.

BROADWAY.—The old Colonial Club building, southwest corner of Broadway and 72d st, will be extensively remodelled with stores on the ground floor and offices above. Dennis & Preston, of No. 4 Warren st, can inform. No contract has yet been awarded.

## Estimates Receivable.

Bids are asked by Moses Herrman, President Park Board, until 3 p. m., Feb. 8, for constructing addition to Metropolitan Museum of Art, Central Park and Fifth av.

19TH ST.—Davis, McGrath & Shepard, 1 Madison av, have plans ready for figures for the 8-sty loft and store building, 40.11x50, to be erected at Nos. 139-141 West 19th st, to cost \$50,000. Frederick A. Kursheedt, 356 West Broadway, is the owner.

AMSTERDAM AV.—James Thorn, Amsterdam av and 186th st, owner, architect and builder, will let sub-contracts for the new amusement house, 300x271 ft in size, to be erected on the east side of Amsterdam av, 700 ft north of 190th st, to cost \$10,000.

TRINITY PL.—Plans are ready for bidders by C. G. Clark, 65 Broadway, for extensive improvements to the 3-sty stable and lofts Nos. 46-48 Trinity pl, for the estate of Elizabeth S. Hay, to cost about \$50,000. Two additional stories, 48.6x103 ft., will be added. The American Express Co., of 65 Broadway, is the lessee. No contract let.

LENOX AV.—Arnold W. Brunner, 33 Union sq, is taking bids until Feb. 8th for the new synagogue which Temple Israel of Harlem will erect at the northwest corner of Lenox av and 120th st, on plot 100x100 ft. The new edifice will be 2 stories and basement, with a facade of Indiana limestone; cost \$150,000. David P. Hays, 141 Broadway, is chairman Building Committee.

58TH ST.—Charles T. Mott, 35 West 31st st, has plans ready for the 10-sty addition, 25x93.3, to the Hotel Savoy, to be built on the lot at No. 5 East 58th st by the Brentagne Co., 767 5th av, of which S. Buttles is president. The front facade will be of brick and limestone to harmonize with the older part of the structure, with a concrete and tile roof. The cost is estimated at \$100,000. No contract has been issued.

This all concrete building, now nearing completion, was constructed during November and December last by the STANDARD Concrete-Steel Company, 100 Broadway, New York, for Messrs. Spear & Company, at Woodhaven Junction, L. I. Messrs. Jno. B. Snook's Sons, Architects.

There are 12,600 square feet on each floor of the main building, besides the separate office building and boiler house.

The STANDARD Concrete-Steel Company is the ONLY concern having permits from the New York City Building Department to use ANY of the STANDARD STEEL SECTIONS in reinforcing concrete. This permit was granted after the most extensive fire, water and load tests ever gone through by any concern in the world on constructions involving all kinds of reinforcement—round and square

bars, T-iron, and I-beams; the STANDARD has the advantage over any other concern in being permitted to use the kind of reinforcement best adapted to the conditions and most easily procured in the local markets.

The STANDARD has no "axe to grind" in pushing any particular patented steel sections; they can use deformed bars, plain bars or any standard rolled sections; work entrusted to them will not be held up for some particular make of steel.

If you want STANDARD WORK, practical engineers, with STANDARD SYSTEMS and energies devoted to pushing work, the STANDARD Concrete-Steel Company can serve you.

Be sure that "STANDARD" precedes "Concrete-Steel" in the title if you want STANDARD work.

#### Contracts Awarded.

**40TH ST.**—The contract for structural steel for the New York Club building to be erected at Nos. 18 to 22 West 40th st has been awarded to the Passaic Steel Co., of Paterson, N. J. Wells Bros., 160 Fifth av, are general contractors, and Henry J. Hardenbergh, of No. 1 West 34th st, architect.

The contract for paving and grading Lawrence av, Borough of Bronx, has been let to Alexander S. Traub, 215 West 125th st, for \$20,465. The contract for similar work in Findlay av was awarded to Mancini & Palladino, 226th st and White Plains av, at \$34,682.

Contract for constructing sewers in 192d st and other streets was awarded to W. J. Brennan, 759 East 173d st, at \$83,102. The contract for sewers in various streets in the Borough of Bronx was also awarded to W. J. Brennan, at \$25,699. The bids on both contracts were opened Jan. 23.

The Building Committee of the Department of Agriculture has awarded contract to Watson, Flagg Engineering Co., 27 Thames st, New York, for the installation of electric wiring and conduit system in two laboratory buildings for the Department of Agriculture, Washington, for \$19,775. Bids were opened Jan. 5.

**PARK ROW.**—H. H. Vought & Co., 112 West 42d st, has obtained the general contract for alterations and additions to the business building, Nos. 31-32 Park Row, for the Jay Gould Estate, 31 Nassau st, from plans by E. Raymond Bossange, 3 West 29th st. The estimated cost is \$30,000. No sub-contracts have been awarded.

#### Bids Opened.

Bids were opened by the Board of Education on Monday, Jan. 29, for the construction, etc., of addition to Public School 30, Borough of Brooklyn, Thomas McKeown, at \$176,843, lowest bidder; for installing fire alarm telegraph system in the Manual Training High School, Girls' High School, Boys' High School, and Public Schools 3, 21, 25, 26, 33, 35 (old buildings), 35 (new building), 41, 41 annex No. 1, 41 annex No. 2, 43, 44, 68, 70, 71, 74, 79, 122, 131 and 136, Brooklyn, Commercial Construction Co., at \$10,165, low bidder; for installing electric elevators in Manual Training High School, Brooklyn, Otis Elevator Co., at \$9,480, low bidder, all bids were rejected; for installing electric equipment in new Public School 65, Borough of Manhattan, W. M. Sheehan & Co., at \$18,350, low bidder. For gymnasium fittings for Public School 85 and Public School 103, Brooklyn, Narragansett Machine Co., at \$950 and \$1,290, low bidder.

## BUILDING NOTES

The Miller-Collins Co., contracting engineers, now at No. 1133 Broadway, will on Feb. 15 remove to No. 29 Broadway, where they will occupy a suite of five rooms on the seventh floor.

The firm of Salagona & Co., workers of mosaics in marble, enamel and terrazzo, with offices and plant at 306 West 13th st, has been dissolved by mutual consent. Mr. J. Stollberg retiring, Mr. Salagona will continue the business at the same address under the same firm name.

The Sprague Electric Co., of this city, is making a specialty of motor equipments for driving, ventilating and heating apparatus. Such outfits have been installed in the following: The First Day & Night Bank, 5th av and 44th st, the Knickerbocker Hotel, the Broad Exchange Building, the New Women's Hospital, and also the Hoboken Terminal of the D., L. & W. R. R.

The amount of business ahead in building lines in New York City is unusually large for this season of the year. While the housesmiths' strike has hampered operations to some extent, the very open weather has permitted of doing a much larger amount of work than could have been expected. The buildings in New York City for which plans have taken definite shape will require 50,000 to 60,000 tons of structural steel, while much more work is in earlier stages.

Throughout the country the amount of work ahead on buildings of eight to twelve stories is phenomenal. Foundation work has been pushed so rapidly owing to the mild winter that steel is being called for that it was expected would not be needed until March or April, and the mills are getting further behind, even with the additions to structural steel capacity, completed in recent months. Firms carrying stocks of shapes, from which much of the smaller demand has been supplied, are now running out, and are urging the mills for deliveries.

As brick-builders had expected a winter of severity, and had closed up their work for the most part, they have not been prepared to take full advantage of this most remarkable mild winter season, during which there have been but very few days when wall-building could not have been carried on. To this unpreparedness, and in some measure to the strike of iron-workers, is attributable the diminished forces in the construction field. For brick, lime and cement there is a steady requirement, though it is small in comparison with the summer trade.

**T**HIS illustrates the Power House of the Metropolitan Railway Company, at 96th Street and East River, New York City. It is considered, both from architectural and mechanical standpoints, one of the best examples of its class of building in this country. Among the several highly commendable features of this structure, the Ar-

chitectural Iron Work, including window frames and sashes, stairs, railings, etc., all manufactured and installed by the Hecla Iron Works, stand out boldly as master specimens of mechanical handiwork.

**The Hecla Iron Works are recognized as the first and foremost concern in the manufacture of Architectural Metal Work in the World. The plant is the largest and most complete, and the quality of its work is considered the standard, the world over.**

### Prospective Building.

The following is a list of building enterprises for Brooklyn that may be expected within the year 1906. For some, plans are now under way; for others, no architects have yet been selected; and in some cases the sites have not been secured. The first name is the owner's; the second, that of the architect; the third, the contractor's; the date is the date of announcement in the Record and Guide.

#### Perhaps Another Title Building.

**BROADWAY.**—The Guernsey Building, at 160 Broadway, has been bought from the Marquand estate by the Lawyers' Title Insurance and Trust Co. It is a 6-sty building, occupying a plot 58.11x135x irregular, with an L to 6 Maiden lane, 21x90, thus enclosing the Broadway-Maiden lane building. Douglas Robinson, Charles S. Brown & Co., who occupy offices on the main floor of the Guernsey Building, were negotiating last week for its purchase, and had actually secured an option upon it, which gave rise to a report that it had been sold. The Robinson firm, however, decided not to buy the building, and the Lawyers' company's managers immediately stepped in and secured it through their broker, John N. Golding. Mr. Golding announces that the company will erect a new building for its own occupancy next year. Its title business is now carried on at 37 Liberty st, and its trust business in the Chamber of Commerce Building.

The McVickar, Gaillard Realty Company has leased for a long term of years, for the Gerdes Brothers, the 6-sty building, known as 238-240 East 40th st, on a lot 39x100.

Charles F. Noyes Co. has leased for Morris Goldstein buildings 227-9 Water st, corner of Beekman, for a term of ten years to the Linen Thread Co. The aggregate rental is about \$50,000.

Hampton Lee, for a long time with the McVickar, Gaillard Realty Company, has left that firm and is associated with the main office of Pease & Elliman, where he has charge of the tenement department.

By the recent purchase from J. Arthur Fischer of the dwelling 262 West 40th st, the New York Cab Co. now owns a plot 122x98.9, upon which will be erected a new building for stable and garage purposes.

Charles F. Noyes Co. has leased the 5-sty building 271 Pearl st for William S. Livingston to the William Wilkens Co. Also the three buildings, 9-11 Hague and 104-8 Cliff st, to the Richardson & Campbell Co.

E. W. Burt & Co., a large shoe concern of Boston, Mass., has leased through M. & L. Hess for a long term the store and basement in the new 12-sty and basement fireproof building just completed at No. 29 West 34th st.

Heil & Stern have leased for estate of E. A. Hoffman, 20,000 ft in building 122-4 Fifth av, to Frankel Bros., for a term of years, at a total rental of \$50,000; and for Carrie M. Butler, 10,000 ft in 85 5th av, to S. W. Heiss & Co., for a term of years, at a total rental of \$40,000.

Ernest G. Stedman leased to Robert Smith, No. 15 West 34th st, a 4-sty building, on a lot 25x126, running back to an alley on the line of the 35th st lots. Mr. Stedman resides in the dwelling, which is the last private residence in the block. The term of the lease is 63 years.

Bids are to be opened on Feb. 15th, at the office of Comptroller Metz, for the coming issue of \$20,000,000 of four per cent. city gold bonds. \$17,500,000 is for various municipal improvements, \$2,000,000 for the new water supply, and \$500,000 for the completion of the New York Public Library.

Charles F. Noyes Co. has leased the second floor of the Rhinelander Building, at Rose and Duane sts, to the Hurst Electrototype Co. at aggregate rental of about \$50,000. Also six lofts in 18-20 Cliff st for Nelson G. Carman to the Gotham Can Co. Also lofts in 281-3 Water st for Evans, Almirall & Co. to Sherman & Co.

Pocher & Co. desire to report leasing the 5-sty building at 189 East 76th st for A. Palmer & M. L. Manheim for a term of years to Sellig & Elfin. Also, for the Tuxedo Realty & Improvement Co. the 6-sty building 977 3d av, adjoining the corner of 58th st, to William Hillmeyer, for a term of five years, at a gross rental of \$25,000.

Justice Gildersleeve, of the Supreme Court, has appointed Algernon S. Norton referee to sell the property at the southeast corner of 5th av and 107th st, 100.11x100 ft, in a suit brought by the Mutual Life Insurance Company of New York against Samuel Schwab and others to foreclose a mortgage of \$100,000 made on April 7, 1905.

Henry F. Miller, Esq., delivered his last lecture in the law course before the Real Estate Class of the West Side Y. M. C. A., on Thursday evening, January 25. It was founded on the same general matters which were taken up last year, when he gave a lecture on the same subject, which was reported in this paper. To give the lecture interest, from a practical standpoint, blanks were distributed and an actual contract drawn, accompanied by comment and discussion by the lecturer. The course was greatly appreciated and largely attended, while the reports in this paper were widely read.

One-half the water brought to the city is wasted. This is the opinion of reputable engineers who have looked into the matter, and few there are but personally know instances of almost wilful waste. So far as any one can see, nothing is being done to prevent it. Col. B. F. Church wrote fully upon this subject in 1902, and while urging that more water should be procured in ample time, begged the authorities to stop the waste, pointing out how it could be done and had been done elsewhere. Under these circumstances is it a wonder that taxpayers demur to the recent decision of the city government to appropriate 92 million dollars in a lump sum as a mere beginning of this colossal scheme?

Litigation over the appropriation by the New York Central of easements of light, air and access from property owners along Park av has been settled by the decision of the United States Supreme Court in four cases on Monday. The decision makes the obligation of the Central the same as was that of the Third Avenue Railroad Co. at the termination of a similar litigation. As a result the Central must pay property owners a sum estimated on its behalf at \$1,500,000, and by attorneys for the property owners at \$2,000,000. The damages were asked for by reason of the construction of elevated tracks to replace the depressed tracks from 106th st to the Harlem River. The work was authorized by an act of the Legislature of 1892 and was begun the following year.

#### Big Lower East Side Deal.

Leon S. Altmayer has sold for George F. Johnson to Simon C. Bernstein and Harry Rosenthal the 5 tenements on the east side of 2d av, between 1st and 2d sts, and known as 26 and 28 2d av. He has also sold for Mr. Johnson to the same buyers the three 5-sty tenements, known as 13-15-17 East 1st st, between the Bowery and 2d av. The 2d av properties have been in the hands of the Johnson family for about 100 years. The purchasers of these properties have very successfully altered many uptown buildings, and will extensively rebuild these eight. Mr. Altmayer recently sold for Mr. Johnson the block of 6 buildings known as "The Parkville Apartments," 823 to 833 Park av and 100 East 76th st; also the row of 6 buildings known as "The Montgomery Apartments," 230 to 240 East 86th st. The three deals involving the sale of 20 buildings was conducted by Mr. Altmayer on an all cash basis and over one million dollars of property has thus changed hands from one ownership in a very short time.

RECORD AND GUIDE,

No. 14 & 16 Vesey St., New York City.

## Flatbush and Its Subway.

(From the Brooklyn Edition.)

Flatbush has been long counting on the subway, and the promise of it has sent property values to a remarkable height. Not a house or lot has been sold there for years past but what the "subway" was mentioned as the final and unanswerable argument for any price which the builder or owner fancied he ought to receive for his property. Unofficial assurances that the subway would be completed to Flatbush after an interval as brief as "eighteen months" have helped to sell many a house in that region this winter.

For the good of the community and the real estate and building business centered there, it may be well to advise builders and owners against undue enthusiasm and overstatement. There is a time not far hence when Flatbush will have rivals—and very formidable rivals—in Queens, in New Jersey and in Westchester, and a time when the subway will not be the ne plus ultra of rapid transit, as it is at present. It is wise to keep the Pennsylvania Railroad's activities in mind; also the New York Central's and the New Haven's; also the Portchester and the Westchester electric trunk lines; and to speak softly and within bounds. Let it not have to be said presently that in Flatbush values have been forced to such a height that the actual consequence of the competition of the subway will be a reaction, and that instead of a profit a loss will be the return from current investments.

Rather by conservative and considerate statement and action should owners and agents seek to prolong and not to shorten the new interest which possesses the public mind in favor of Flatbush real estate, and let there be no misunderstanding as to when the subway extension will be completed. No contract has yet been awarded for the construction work, nor even a bid received; and Mr. Belmont has recently notified the Rapid Transit Commission that his company will not bid on the Flatbush

subway extension until more comprehensive and detailed plans are provided. This is tantamount to saying that the Interborough Company will not accept the plans suggested by Park Commissioner Kennedy, and practically accepted by the engineers of the Rapid Transit Commission, and means a further delay. Real estate interests in Flatbush should, we think, give full consideration to the educational conclusions to be drawn from this notification and conserve their opportunities, remembering that all the while their particular subway extension is not advancing three great and influential traction corporations are working unceasingly on opposition lines, which, perchance, may be finished not so many years after the Flatbush extension as has been thought—if the city must depend for its construction upon certain capitalists. What then, think you, will be the effect on Brooklyn, Flatbush and Bay Ridge of twenty-minute schedules from Broadway (Manhattan) to Newark and the Oranges, and from Herald Square to Jamaica and Hempstead? In considering the spring campaign, soon to open, it would seem, therefore, in view of the import of Mr. Belmont's announcement, that a word of caution from agents to owners and builders would not be misplaced; for a long continuance of the present era of good feeling may be ensured by moderation, and, conversely, cut short by excessive exactions.

—The John R. Sheehan Co., contractor in the Hall of Records, has secured an extension of time for completing the contract.

—The Board of Estimate has appropriated \$750,000 to provide for the construction of a subway terminal at the Manhattan end of the Williamsburgh Bridge.

—An appropriation of \$189,980 for acquiring title to property needed for the approaches to the Fordham Heights Bridge, Bronx side, has been passed by the Board of Estimate.

THE CITY OF NEW YORK, DEPARTMENT OF TAXES AND ASSESSMENTS, MAIN OFFICE, BOROUGH OF MANHATTAN, NO. 230 BROADWAY, STEWART BUILDING, JANUARY 8TH, 1906.

NOTICE IS HEREBY GIVEN as required by the Greater New York Charter, that the books called "The Annual Record of the Assessed Valuation of Real and Personal Estate of the Boroughs of Manhattan, The Bronx, Brooklyn, Queens and Richmond, comprising the City of New York," will be opened for examination and correction on the second Monday of January, and will remain open until the FIRST DAY OF APRIL, 1906.

During the time that the books are open to public inspection, application may be made by any person or corporation claiming to be aggrieved by the assessed valuation of real or personal estate to have the same corrected.

In The Borough of Manhattan, at the Main Office of the Department of Taxes and Assessments, No. 230 Broadway.

In The Borough of The Bronx, at the office of the Department, Municipal Building, One Hundred and Seventy-seventh Street and Third Avenue.

In The Borough of Brooklyn, at the office of the Department, Municipal Building.

In The Borough of Queens, at the office of the Department, Hackett Building, Jackson Avenue and Fifth Street, Long Island City.

In The Borough of Richmond, at the office of the Department, Masonic Building, Stapleton.

Corporations in all the Boroughs must make application only at the main office in the Borough of Manhattan.

Applications in relation to the assessed valuation of personal estate must be made by the person assessed at the office of the Department in the Borough where such person resides, and in the case of a non-resident carrying on business in The City of New York, at the office of the Department of the Borough where such place of business is located, between the hours of 10 A. M. and 2 P. M. except on Saturday, when all applications must be made between 10 A. M. and 12 noon.

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, the mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only, and the second figures representing both lot and building. Letter P before 2d figures indicates that the property is assessed as in course of construction.

January 26, 27, 29, 30, 31, and February 1.

The Private Branch Exchange System of supplying TELEPHONE SERVICE is particularly adapted to the requirements of LARGE HOTELS and APARTMENT HOUSES.

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

MORTGAGES

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.  
Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.  
The first date is the date the mortgage was drawn, the second

the date of filing; when both dates are the same, only one is given.  
Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.  
Mortgages against Bronx property will be found altogether at the foot of this list.

YOUR SYSTEM OF RECORDS?

BETTER USE OURS

It costs a dollar a mile to go to Chicago in a Special Train, but only a few cents a mile on the Empire State Express. The same is true of the RECORD AND GUIDE QUARTERLY. Each subscriber receives for Twenty Dollars a year a service that would cost him thousands of dollars.

A system of records is as necessary to a real estate broker as the "ticker" to a stock broker. Conceivably a man might get along without either, but he would suffer immensely both in person and estate.

By means of the RECORD AND GUIDE QUARTERLY, which occupies only a few square inches on a shelf or a desk, the real estate man is put in possession of a system of records in which he could find any particular transaction, be it conveyance, mortgage, auction sale or lease, as easily as he can find the name of one of his clients in the telephone book. It is permanent in form, ever ready and available. It does not go "out" like the office boy, or make mistakes like the stenographer.

The annual number of the RECORD AND GUIDE QUARTERLY contains ALL the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations.

These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments.

JUDGMENTS

In these lists of Judgments the names alpha-  
betically arranged and which are first on each  
line, are those of the judgment debtor. The let-  
ter (D) means judgment for deficiency. (\*)  
means not summoned. (f) signifies that the first  
name is fictitious, real name being unknown.  
Judgments entered during the week and satisfied  
before day of publication, do not appear in this  
column, but in list of Satisfied Judgments.  
The Judgments filed against corporations, etc.,  
will be found at the end of the list.

**SELL EVERY KIND OF OFFICE FURNITURE** but one—the cheap kind—and that does not mean that my prices are high. Cheap office furniture is the most expensive in the long run—my policy is a superior article at a reasonable price, and a visit to my showrooms, 275 Canal St., will convince you of this, I'm sure.

## A Store equipped with the Luxfer System

looks very much better than it would without the prisms, and besides, by using the Luxfer Prisms you can have daylight right straight through your building from front to back. Think of the satisfaction and saving over artificial light.

MUNICIPAL ownership is apparently making more progress on water than on land. The city has already acquired and is operating the Staten Island Ferry. It owns the Whitehall Street Terminal, and now the Sinking Fund Commission has agreed to acquire under condemnation proceedings the South Brooklyn Terminal. The city is to build new boats, and the new municipal ferry will be put in operation as quickly as possible. This extension of municipal ownership should receive the approval of everyone, even of those who are most strongly opposed to the paternal administration of the city's affairs. For many years there has been a great deal of talk about the advantages and disadvantages to be derived from the city's participation in what hitherto have been the functions of private enterprise. Any amount of talk, however, no matter how logical it may be, lacks much of the cogency of actual demonstration. No doubt there is a deal to be said on both sides as to the efficiency of municipal ownership in this community, for it does not follow necessarily that because municipal ownership is a proved success in Glasgow, or Oshkosh, or Kalamazoo, it will prove equally desirable here in Manhattan. There is only one way in which the problem can be really settled, and that is to try it. If the city can run two or three of our ferries to the real advantage and profit of the community, there would be a presumption in favor of the principle warranting its rapid extension into other spheres of action. It is, indeed, just as well that smaller matters shall be experimented with first. Even failure (should failure be the result) will be worth the cost of the demonstration. There is no blinking the fact that a very large number of our citizens, perhaps even the majority, are in favor of municipal ownership. This favor, no doubt, is based upon certain yet untested assumptions. Many persons, indeed, favor the new principle merely as a reaction against the very great abuses of private ownership. But we are all apparently settling down to the opinion that monopolies are inevitable, and the question is in the air—If monopolies are inevitable, should not the management of them be lodged in the hands of the city itself? But it is natural for those who are attracted by municipal ownership to overlook in the present theoretical stage of their opinions the unknown defects of municipal ownership, which can only be discovered by the actual operation of the principle. In other words, the education of experience is needed all around. The only way to experiment is to experiment. The ferries offer an admirable field for demonstration. From success or failure we shall learn much.

PROPOS of this subject, we trust that the larger matter of the City Light Plant will not be allowed to lag. We do not believe that the Mayor will consent to any unnecessary postponement of the enterprise. The city has already acquired for its light plants a large amount of real estate admirably situated and at a reasonable cost, and the mere purchase of this property with the clear intent of proceeding with construction has already secured for the city a considerable reduction in the bids of the electric lighting companies. Some people perhaps think the city should be satisfied with this achievement. It is

satisfactory so far as it goes, but who can say it goes far enough? Does it put the city permanently in the position it ought to occupy in making its contracts. It is not to be expected that the lighting companies have foregone to the fullest extent all their monopolistic advantages. They have yielded anything so grudgingly that it is almost incredible they have at last yielded all. This, however, is a temporary aspect of the matter. The reach of municipal ownership goes very much further than "clubbing" successfully recalcitrant corporations. If municipal ownership is merely a protective or punitive measure, it is far from being all that its advocates claim. At any rate, the city has already gone too far with its light plant project to recede. Public opinion, we judge, is very strongly against any retrocession.

THE interest rate upon corporate stock of the city of New York should certainly not be increased from 3½ to 4 per cent. until such an increase has been proved to be absolutely necessary. The Finance Department, under its former head, was entirely justified in using every expedient to avoid the issue of 4 per cent. bonds, and inasmuch as conditions at the present time are more favorable than they were a few months ago, it should be possible to avoid raising the rate of interest for the present. Whether such an increase will eventually be necessary, we cannot pretend to say. Very possibly it will. The prices which the city stock brings has steadily declined since 1900, because the city has been selling its obligations in quantities which were larger than the normal demand for such securities. The decline has been constant, and has not been essentially affected by the fluctuations of the money market. Moreover, similar conditions will prevail hereafter. For an indefinite period the city of New York will have to sell many millions of dollars' worth of stock each year. Nevertheless, the bonds of the largest and wealthiest city in the country are such an excellent investment when they yield 3½ per cent. interest that it is inconceivable that they will go much lower, and at any moment something may happen to check the decline, at least for a while. The change to a 4 per cent. security should not be made until all resources for avoiding it have been exhausted.

THE announcement has been made recently that a fifteen-story business building would be built on a lot which has been leased by Mr. Henry Corn on Fifth avenue immediately opposite the Waldorf-Astoria. The news is worthy of note because this will be the first commercial building to be carried up fifteen stories on any site within the limits of the retail part of Fifth avenue. In the part of Fifth avenue devoted to the wholesale trade, south of 23d street, almost all the loft buildings now being constructed are fifteen stories high, but hitherto such tall buildings have not been considered desirable in the retail district, in spite of the much higher valuation which is placed on land in the shopping section. Indeed, it is only during the past few years that commercial buildings as high as eleven or twelve stories have been constructed on this part of the avenue, the reason being that owners were doubtful as to their ability to rent space on the upper floors. Space on the upper floors of a five-story building were, indeed, easily rentable, because the tenants could display signs which were conspicuously visible to passers-by; but office space in a skyscraper had no such advantage. Nevertheless, the Fifth avenue corners finally became so very valuable that taller buildings were tried, and these buildings have been conspicuously successful. They are, moreover, occupied as offices and stores rather than as lofts, and their tenants doubtless feel that a location in an office building on the avenue is as advantageous as one upon a side street off the avenue. The consequence is that, little by little, Fifth avenue, like Broadway, will be lined with tall buildings. At present such buildings are the exception rather than the rule, and the majority of them are hotels and restaurants rather than business buildings; but an avenue on which it is profitable to erect fifteen-story skyscrapers is doomed. The success of one of these buildings immediately starts other owners into figuring out the profit which they might make by a similar operation, and hereafter several buildings of this kind will during each year be constructed on Fifth avenue between 27th and 48th streets.

THE attention of our readers is directed to the city advertisements which will appear hereafter regularly in the Record and Guide. These announcements have an especial value for real estate owners and contractors, and should be read carefully and regularly.

## The Revision of the Building Code.

THE first step in the proposed revision of the Building Code is to revise the revisers. The Mayor, we are sure, has too much common sense to regard a Plumber, a Sanitary Engineer, a Physician and a Lawyer as an "expert body" competent to draft an adequate set of regulations which shall deal almost exclusively with safe building construction. One can see, of course, the idea that was in the mind of those who proposed this variegated committee, but to test how plausible the idea is it should not be restricted. Why limit authority to a Plumber, a Sanitary Engineer, a Physician, and a Lawyer? Why not extend the suffrage? Is the Real Estate Owner less interested in building than our good friend the Plumber, or our learned friend, the Sanitary Engineer? If a suitable building law can be devised on the principle of a Donnybrook Fair, why not make admission general? The gates should be opened to everyone. The result could then be awaited by the judicious with some sense of excitement and with some anticipation of novelty.

There are many, however, and the Record and Guide is among the number, who do not think a proper Building Code can be formulated upon what we shall term the promiscuous system. An opinion exists, and it is entitled to a little consideration, that a man may be a successful General, a learned Chemist, an erudite Physician, and yet be a good deal of an ass when it comes to drawing up a set of building regulations for a community of three million souls. The General, Chemist or Physician would object to untrained interference if it were applied to their own special affairs. It is one of the strange fancies of the times, that in public affairs wisdom is common property. If the Grocer happens to be "out" of the article at any time, why—try the Butcher, or the Baker, or the Clothier for it.

On the other hand, we do not believe that the task of drafting a Building Code should be entrusted to special interests. Here again the matter is sure to go astray, but for a very different reason. In this case, one is likely to have enacted a set of regulations of a nature more closely approximating a legalized manufacturer's catalogue than a substantial building law. The maker of brick, or of a particular system of fireproofing has a very natural prepossession for his own products. The Building Code in the past has been a document particularly sensitive to the personal operation of special interests. The case of fireproof wood, so called, is an example to point. But fireproof wood is not the only protected industry that levies some toll upon the community by means of the Building Code. New York City, indeed, is, in the matter of building, surrounded by an immense number of illicit toll-houses. In Paris they have the octroi. In New York City in the building trades we have the same benevolent institution, and the Building Code and its administration has always been one of the most important of these unacknowledged Custom Houses. We do not mean to say that all the special benefits conferred by the Building Code are the result of illicit influence. Indeed, we are ready to admit that most of them were "recognized" for quite legitimate reasons; but they are there in the law, and they do most certainly act as a restraint to trade. They are an obstacle to every new invention, to every improvement upon old methods. They often tend to increase unduly the cost of building. Again, let us cite the case of fireproof wood. But there are others!

Perhaps this state of affairs is inseparable from a Building Code wherein the requirements are stated in specific terms—a code, moreover, the responsibility for the execution of which is entrusted to a certain department and to certain officials. The principle and method, both, seem to us to be open to some question. The purpose of a building law is to secure safe building. Safe building has not yet attained its final terms so that a law may arbitrarily dictate as to the thickness of a given wall, or the precise kind of material that shall be used in this or that position. In our Building Law this is partly attempted, for the rest, general principles or requirements are stipulated. Is it not time to ask the question—Should we not be better off if the entire law were confined to a statement of principles and general requirements, thus leaving architect and builder in very much the same position the engineer occupies in his work? The engineer is free, say, in the construction of a bridge, to choose the materials that suit his purpose best, and to adopt any method of construction that seems to him most satisfactory, so long as he in the end obtains in his structure positive safety. Moreover, may we not ask the question—Should the Building Department be held responsible for the actual safety of buildings? The Police Department is in no sense responsible for the crimes of the individual. The criminal laws exist to protect the community. The Police cannot prevent a man from beating his wife, a bank clerk from rob-

bing his employers, or even a U. S. Senator from "milking" an Insurance Company. The Police can, however, hold the individual to a strict account for his deeds. It is certainly possible to conceive of a very efficient Building Law drafted according to this police example. Such a law would state in general terms the requirements for safe building, leaving to architects and contractors the duty of meeting these requirements in concrete terms of construction. In other words, the law would set forth the necessary factors of safety, not merely the constructional factors, but also those other factors which would have to be expressed in other terms than those of engineering formulae. If a law were drafted upon this principle by a thoroughly disinterested and competent commission, the Building Code might cease to be the banking-house of special interests. Invention, improvement, and innovation would be given a freer field. New York City would be more of a general market for building material than it is, and we should not hear manufacturers, even New York City manufacturers, say, as we do hear them say to-day, "We cannot do anything at all with our goods in New York City. We sell chiefly in Boston, Chicago, Philadelphia, and other outside places."

## Up-State Feeling on the Mortgage Tax.

Two letters received by the Allied Real Estate Interests of the State of New York, 25 Broad st, one from Mayor Adam, of Buffalo, and one from Bishop Colton, of Buffalo, very clearly indicate the new feeling up the State on the mortgage tax law. Mayor Adam writes:

"I am emphatically opposed to the mortgage tax law. It never should have been enacted. Public sentiment here in our western section of the State is overwhelmingly in favor of the repeal of the law at the earliest possible moment of the present session of the Legislature.

"The law has not even accomplished the real purpose of its enactment—the raising of substantial revenue for the State—and what it has done has been at the expense of the borrower and not of the lender; and therein it not only has failed in its just operation, but has worked to the detriment of debtors already heavily burdened with their obligations.

"I believe that the present Legislature will repeal this measure, and that the advocates of repeal will receive fair treatment at Albany."

The Bishop of Buffalo writes:

"In regard to the matter of the tax on mortgages, I would be glad if you say for me to the gentlemen who are to consider the subject that I consider the tax very burdensome, and shall be glad if the law be repealed. Our struggling congregations must needs raise mortgages on their churches to help them establish them, and they have all they can do to meet the interest. With this half per cent. increase, the burden heretofore so heavy becomes unbearable. Everywhere I go through the diocese, which covers a sixth part of this State, I find the dissatisfaction of pastors and people with this tax, and the wish and hope are expressed for its repeal. I trust the gentlemen of the committee will prevail upon the Legislature to abolish the mortgage tax."

## Resolutions Against the Mortgage Tax.

The following resolutions were adopted at the meeting of the Allied Real Estate Interests of the State of New York, at the Real Estate Exchange, Friday afternoon, Feb. 1:

"Whereas, the Legislature of the State of New York in 1905 enacted what is commonly known as The Mortgage Tax Law, which went into effect on July 1, 1905; and

"Whereas, the supporters of that law held that it would prove of great benefit to the State by equitably adjusting inequalities of taxation, reducing the rate of interest on mortgage loans and largely increasing the revenue of the State; now, therefore, be it

"Resolved, That over six months' observation of the practical workings of the mortgage tax law has more than justified all the objections that were urged against it prior to its passage by the Legislature; that the burden of the tax has been uniformly borne by the borrower; that the borrower has had to pay in additional interest not merely the tax of  $\frac{1}{2}$  of 1 per cent., but still more as compensation to the lender for the additional risks assumed in making the loan; that the responsibility and care and risk attending the making and holding of mortgage loans have been so materially enhanced that lenders have been very reluctant to entertain applications under it; that there has been a very general effort to keep alive old and past due mortgages for the sole purpose of avoiding the risks involved in the new law; that the vexatious and troublesome features of the operation of the law already observed are small in comparison with those which will appear when the adjustment and payment of the second year's tax are made and the penalties for innocent mistakes in relation to the law are enforced.

"Resolved, That, while we adhere to the conviction that any tax on mortgages is wrong in theory and practice, we recognize that revenue from other than the sources heretofore recognized

as just and proper is necessary for the satisfactory operation of the government of the State, and that we therefore recommend to the Legislature that a law requiring a recording tax of  $\frac{1}{2}$  of 1 per cent. be passed in lieu of all other taxes on mortgages; that we believe, in view of the fact that such a tax on the mortgages recorded annually, which are estimated at \$750,000,000 for the boroughs of Manhattan, Bronx and Brooklyn, in the city

of New York, and \$250,000,000 for the remainder of the State, making a total of \$1,000,000,000, would produce an annual revenue of about \$5,000,000, and that that amount is as large as should be taken from the interests represented by the makers and holders of mortgages, in view of the heavy burdens already placed on those interested in real estate under our present system of taxation."

## New Fields for Investment

### Great Number of Families Desirous of Moving to Staten Island Unable to Find Houses

FOR more than three months the municipal ferry to Staten Island has been in operation, and the desire of a great many more families now residing in other boroughs to settle in Richmond when builders have provided houses for them is being impressively signified. Nothing need be written concerning the pleasant situation of the island, its inviting landscape, or its internal public arrangements and conveniences; everything under these heads is familiar preaching; the thing next in order is building construction. This, it is true, has been delayed in some sections by the absence of a topographical map, but that will soon be ready, and through the northern part, where more housing is urgently needed, street lines are already sufficiently settled. With the character of the island now assured, the topographical map is being completed to include wide streets and boulevards, some park streets, and everywhere a generous amount of shaded avenues.

If any one will take the trouble to make the trip from Manhattan on the new municipal ferry between the hours of 6 and 7.30 in the morning he will be surprised to find the great number of workmen who, living in Manhattan, are compelled to make this trip every night and morning in order to reach their work on Staten Island, simply because they are unable at the present time to find suitable homes there. Staten Island itself comprises a very large tract of land, measuring diagonally from St. George to Tottenville about 18 miles, and, being a rolling country, it represents almost every elevation up to about 400 feet above sea level, which is the highest point along our Atlantic Coast line south of Maine. It is well served by steam railroads and electric street car lines. It is also supplied in certain localities with water-works, electricity, gas and drainage. The streets are well paved, and the country roads are remarkable for their macadam finish. The whole island is well supplied with the best kind of public school buildings, libraries, clubs and churches; and while the population is growing at a rapid rate the area of the island is so great that there is abundant room for further development.

Central and southern Staten Island is made of many small localities, each as desirable as any of the others. Values and rents vary little between them. Each has its district of expensive homes and of moderate-priced homes. One particular location that would seem to demand the attention of builders, owing to the absence of a sufficient number of homes, is the north shore of the island, which has been delegated to commerce by reason of its being in New York harbor. Practically the whole shore front has been taken up by manufacturers, and the last large piece of land remaining on the water front on the north shore toward the west is now being improved. The largest single industry on the island at present is that of Milliken Brothers, Incorporated, who have had for about a year and a half a structural steel and bridge works, which is one of the largest of its kind in this country. They are now going still farther and are building a large open hearth steel plant and rolling mill. Their present plant employs six hundred men and their new one will add to this a thousand more. After the new portion is started, which will be next fall, they intend to move about one hundred and fifty of their draftsmen over from their New York office to their Staten Island plant.

The Burlee Dry Dock people, who were formerly at Port Richmond, Staten Island, have moved toward the west and occupy the shore front a short distance to the east of Milliken Brothers' plant. This company is making very extensive improvements and already has two large dry docks in operation and is building a large steel building, preparatory to the removal of the entire plant from Port Richmond to the new location. The works do a very large business in connection with ship building and repair work. The Proctor & Gamble concern, of Cincinnati, Ohio, which is famous for "Ivory Soap," has purchased the remaining property to the west of Milliken Brothers' and is now engaged in putting up a factory that will employ about six hundred hands, the greater number being boys and girls.

Not twenty-five per cent. of the present number of men employed by Milliken Brothers are able to live in close proximity to the works, and some live even as far away as Manhattan, Brooklyn and Elizabethport. The workmen now employed have

endeavored to get their own homes either by purchase or leasing, and every real estate agent in that section of Staten Island reports that he has a waiting list of from fifty to one hundred names, with no available houses; and every new house that is built is quickly snapped up.

In order to get some definite statistics Milliken Brothers have issued a circular among their men asking the following questions: "Do you wish to rent a house and lot for your exclusive use? Do you prefer to rent a flat? How far away from the works would you care to live, providing you were on the street car line? How much rent would you be willing to pay per month, providing you can get a suitable home? Would you prefer to join a building and loan association and so in the end own your own home?"

Eighty-five answers to these circulars show the following result: Three-quarters of the men wish to live in separate houses. Nearly all wish to join a building and loan association, in order to own their own homes eventually. In reference to distance from the shops, this varies all the way from one-quarter of a mile to four miles—most of the men one mile. In reference to the question of rent, they are willing to pay amounts ranging from ten dollars to thirty dollars, most of them being about fifteen dollars.

These results show that there is no question but that the men do not want to live in apartments, boarding houses or hotels, but prefer to have their own homes. It is possible to procure any amount of good building sites that are properly drained and supplied with city water, gas, electricity, and are easy of access to the electric street railways, at prices running from \$150 per lot up to \$300 per lot, and it is possible to build suitable houses for from fifteen hundred to two thousand dollars each. With the other necessary general improvements, the total cost of lot and building will therefore run from \$1,700 to \$2,500. Assuming from the reports furnished by Milliken Bros. that the men are capable of paying from fifteen to thirty per month for such dwellings, and allowing for repairs, taxes, depreciation and interest on mortgage, it should show a net return on the amount of money invested of fifteen per cent. per year, not to speak of the increased value of the real estate due to the permanent improvements. All of these men have steady employment and are capable of easily paying the rent stipulated; and many are able to buy houses and pay for them in instalments. A number, such as draftsmen and head men connected with the rolling mills, receiving handsome salaries, are well able to have the very best of homes and accommodations for their families.

A fine opening is apparent also for any parties who desire to erect and run a first-class hotel, which could be used as a lunch room, as well as a boarding place for the single men employed in these different manufacturing plants. The fact that these large plants are making permanent industries at the northwest end of the island indicates that in the immediate vicinity homes will eventually have to be built and hotel and boarding house accommodations arranged. The prospect for the improvement of Staten Island was never better than it is to-day, but depends largely on the enterprise that may be shown in the construction of dwelling-houses.

#### Cost of Construction.

To the Editor of the Record and Guide:

I made a bet with a builder of a flat house as to the cost of construction, and, after consulting the ledger, after completion, showing the exact cost of construction, the builder claims to add to the cost the amount he paid to the broker for selling the same house. Is that right? Your opinion in the next or following issue of the Record and Guide will be greatly appreciated.

Answer.—If your proposition was based only on cost of "construction," then, of course, broker's commission for selling cannot be charged in.

## Architectural Exhibition.

As this present exhibition of the Architectural League of New York is probably the best ever given under its auspices, and as the largest in the world devoted exclusively to architecture have for many years been given here, the visitor to the galleries has the assurance that this is an adequate and typical representation of the best contemporaneous American work. The arrangement of the exhibits this year, too, is better than ever before, because in the past classification has sometimes been carried to the extreme, and this year has been subordinated to general effect; for an architectural exhibition is not necessarily like a tradesman's shop, where all the tins must be on one shelf and the crockery on another. Color, sculpture and architecture we now find arranged and interspersed through the galleries in an artistic rather than a mechanical style, this giving a varied interest to every room. Moreover, this year's catalogue is very remarkable. Whoever has a copy has a reproduction of the exhibition almost. All the notable paintings and drawings now on the walls are photographed in its pages, so that, with the volume before him, one can really study the exhibition at his leisure by his own fireside. Mr. Donn Barber was its editor.

Among the many notabilities in architectural design there may be mentioned: The George Washington University, at Washington, by George B. Post; the Gorham and Tiffany buildings, McKim, Mead & White; Phipps' Houses, by Grosvenor Atterbury; the Kingston Avenue Hospital, in Brooklyn, by Messrs. C. W. Leavitt, Jr., W. W. Smith and Westervelt & Austin, associated architects; office building for the Bush Terminal building, by Kirby, Petit & Green; design for Steuben monument, Karl Bitter; decorative panels for the National Park Bank, Albert Herter; sketch for residence for Mrs. French, at New Rochelle, Louis R. Metcalfe, Jr.; Brooklyn Masonic Temple, Lord & Hewlett, Pell & Corbett, associated; photographs of School of Mines, Columbia University, Mr. Brunner; perspective view of the Delancey street approach to Manhattan Bridge, Palmer & Hornbostel; competition for Yale Library, Robertson & Potter; pond and formal garden on Barron estate, at Rye, Mr. Leavitt; residence of Murry Guggenheim, at Hollywood, Carrere & Hastings; Royal Gardens, Bermuda, Mr. Berg; sculptures for New York Custom House, Mr. French; decorations for Iowa State Capitol, Mr. Blashfield; photograph of ceiling in residence of Clyde Fitch, Everett Shinn; chimney piece for Gargoyle Club, C. S. Cobb, Ithaca; sketch Saratoga Club, Horace Greenley; painting, boathouse, for D. H. Smith, Coulter & Westhoff, Saranac Lake; residence of Dr. Jacobs, Newport, Mr. Pope; residence of W. L. Stowe, Roslyn, L. I., Mr. Pope; banking room, National Park Bank, Donn Barber; improvements to the City of Scranton, E. H. Davis; Memorial Continental Hall, Washington, E. P. Casey.

The full list of exhibitors is as follows: Herbert Adams, Vincenzo Alfano, Allen & Collins, Maitland Armstrong, Arnold & Locke, Grosvenor Atterbury, Otto H. Bacher, New York; Francis H. Bacon (Boston), Herbert M. Baer, Clement Baggett (West Hoboken), Barsden-Bragdon-Webb Co., V. H. Bailey, Baldwin & Pennington (Baltimore), Hugo Ballin, M. H. Bancroft, Donn Barber, C. J. ### Frederick T. Towne.

Frederick Tallmadge Towne, general superintendent of the Yale & Towne Manufacturing Co., and younger son of Henry R. Towne, the company's president, died at his home, in Stamford, Conn., Sunday morning, Feb. 4, of Bright's disease. Mr. Towne had just finished an address on Saturday afternoon to nearly 1,000 employees of the company—it being the occasion of a semi-annual distribution of \$1,200 offered yearly by the management for suggestions designed to be of mutual benefit—when he collapsed, barely regaining consciousness but once before he passed away, a few hours later.

Mr. Towne was born in Stamford March 5, 1872. After leaving college he entered the works in Stamford and regularly worked his way up through the various departments.

At the time he had fairly qualified himself for serious work in the Yale & Towne works, his father, Henry R. Towne, was still living in Stamford, and he became his father's assistant. Later, as he developed, and especially as his father took up the work of marketing the product, at the executive offices of the company in New York, he became, first, assistant general superintendent and finally general superintendent, holding the latter position for the past six or seven years. He filled the position admirably, with the sure grasp of administrative technical details and with exceptional ability to direct and command the best efforts of other men.

Mr. Towne was one of the earliest officers and a member of the Administrative Council of the National Founders' Association, first its vice-president and then president in 1902-3, always manifesting a deep interest and taking an active part in the affairs of that useful organization. He was keenly interested in all local affairs in Stamford and recently served as a member of the Board of Appropriation, the chief local governing body.

He was a vestryman in St. John's Church. With some others he was a promoter and worker in night schools for boys, and had been leader and chief organizer of all welfare work in the Yale & Towne plant, including the organization of night classes, in which there are about fifty students, who met in a room provided by the company and under the charge of competent instructors. There are also other courses of instruction for young men entering the service of the company and desiring to qualify either for mechanical or commercial positions in the business, these courses taking four years to complete. It was while

addressing the assembled workmen, as previously mentioned, that he was stricken, literally dying in harness. Almost his last words were intended to convey to employees that it was the company's desire, as it was his personally, for closer sympathy and mutual interest between employers and employees and the good will of all personally under him. It was a grand and fitting close to a useful and noble life. In the community where he was born, lived and died nearly every one in active life knew him personally and held him in high esteem. He is survived by a widow and two sons.

## THE REALM OF BUILDING

### Building Operations.

#### Five Flat Buildings for 170th St.

170TH ST.—Miller & Mofsenon, 1052 Macy pl, will soon erect at the southwest corner of 170th st and Amsterdam av a row of five 6-sty flat buildings (high class), 37.6x88, at a cost of about \$250,000. There will be apartments for twenty-one families, with four families on a floor each. Messrs. Bernstein & Bernstein, 24 East 23d st, are making the plans. No sub-contract has yet been made for the work.

#### Rothenberg & Co. Will Enlarge Williamsburgh Store Building.

Rothenberg & Co., of No. 34 West 14th st (dry goods), will in the near future remodel and extensively enlarge the department store building recently purchased by them of H. W. Schreiber & Co., at Broadway, Grove st and Central pl, Williamsburgh. The plot includes the present structure, with land measuring 175 ft. fronting on Broadway, by 250 ft. on the street. Architect Louis Korn, of No. 353 5th av, Manhattan, and Contractors T. J. Reilly & Co., 353 5th av, have performed contracts in previous operations. At the office of the firm it was announced that no plans or contracts had yet been issued.

#### High-Class Apartments for 139th St.

139TH ST.—Plans are reported to be under way for the construction of a group of seven 6-sty high-class apartment houses, measuring 42.8x86.4x50 ft. each, to be erected on the south side of 139th st, 125 ft. east of Lenox av, the cost of which will be not less than \$350,000. The buildings will have every conceivable modern convenience, of very handsome design. Limestone, terra cotta, light brick, slag roof, galvanized iron skylights and cornices, steam heat, electric lighting plant, tile, mosaic, marble wainscoting, open nickle plumbing, etc. Frederick H. Nadler, of No. 72 Allen st, is the owner, and Messrs. Stern & Morris, of 1133 Broadway, will be the architects. Sub-contracts have not yet been issued.

#### Ten Architects Competing for St. Thomas' Church.

5TH AV.—No plans have yet been accepted or the selection of an architect made for the new St. Thomas' Episcopal Church, to be erected at the northwest corner of 5th av and 53d st. Ten architects are now competing for the new structure, and it is said that designs will be ready for the judgment of the committee before many weeks. The main walls of the burned edifice still standing, it has been determined by test, are not of sufficient strength, and the new building will in consequence have to be new from the foundations. The exterior will be of brownstone, of high Gothic design, and the total cost will be half a million dollars. The Rev. Ernest M. Stires, rector of St. Thomas', is the head of the building committee.

#### Latest Reports of National Theatre Project.

CENTRAL PARK WEST.—The conveyance was made on Tuesday of this week of the site for the new National Theatre building, to be built on Central Park West, the whole block front between 62d and 63d sts and Broadway. The description of the transfer appears as follows: Central Park West, 62d and 63d sts, northwest corner of 62d st, runs west 225 by north 100 by east 25 by 100.5 to south side of 63d st, by east 200 ft. to Central Park West, and south 200.10 ft. to beginning. The title is transferred by the Unity Realty Corporation to Charles T. Barney, for the theatre company. Mr. Conried will be at the head of the project, and the theatre will be known as the "National Art Theatre." The site cost \$750,000. The Record and Guide is informed that no architect has yet been selected. The following well-known gentlemen are said to be interested: John Jacob Astor, Charles T. Barney, Edmund L. Baylies, Henry Morgenthau, August Belmont, Paul D. Cravath, William Osgood Field, George J. Gould, Eliot Gregory, James H. Hyde, Otto H. Kahn, James Henry Smith, James Stillman, Robert B. Van Cortlandt, Cornelius Vanderbilt and Henry Rogers Winthrop.

#### Plans for George Washington University.

The trustees of George Washington University have accepted the plans prepared by George B. Post & Son, the New York architects, for the new buildings of the university, which are to be erected at Washington, D. C. The perspective drawings submitted by the architects show an artistic example of a modern classical institution, made up to date by the application of modern ideas, and still retaining the traditional aspect of a home of learning. Much care has been exercised in the formulation of the plans for the splendid group of structures. The buildings, when completed, will have cost between \$1,500,000 and \$2,000,000, the exact amount depending entirely on the kind of material that may be used. The exterior of the memorial building will be largely of marble and the other buildings will be of light colored brick or terra cotta, trimmed with marble, so as to conform to the design and architectural thought of the memorial or main building. There are to be in all seven separate buildings in Van Ness Park. All of them will be connected by a covered cloister walk. In addition to the memorial building, which is to be erected by the George Washington Memorial Association, there will be a Hall of History containing the library, a Hall of Politics and Diplomacy, the Corcoran Hall of Philosophy, the Hall of Physics, the Hall of Chemistry, and the Alumni Hall.

#### Wall Street and Broadway to be Improved with an Eighteen-Story Structure.

WALL ST.—The corner of Wall st and Broadway—the southeast corner, immediately facing Trinity Church—which was recently covered by a 4-sty red brick store and office building, with frontages of 29.6 ft. on Broadway and 40 ft. on Wall st, irregular, and for which the United Mercantile & Trust Co. of St. Louis paid at the rate of \$4 a square inch, or \$700,000, last June, will be improved with a steel frame office structure. On Dec. 5 last this historic 4-sty building, one of lower Broadway's first office landmarks, was condemned by the Manhattan Bureau of Buildings as unsafe, and consequently it was lowered to a height of one story and roofed over. The half facing Broadway is occupied by the Wilson drug store, which has a lease until May 1, 1906. The Wall st half is occupied by the United States Cigar Stores Co. The architects for the new edifice will be the Messrs. Barnett, Haynes & Barnett, with offices in the Columbia Building, St. Louis, Mo. The general contractor will be the Westlake Construction Co., of St. Louis. The Record and Guide is informed that the structure will be a tower 18 stories high, but confirmation of the reported height is being asked from St. Louis, where owners, architects and contractor reside. Rearing an 18-story tower on so small a base would be an interesting operation.

#### Mr. Kimball Planning a Huge Skyscraper in Cortlandt Street.

CORTLANDT ST.—That another skyscraper office building will be erected in lower Broadway is now an assured fact. The City Investing Co.'s project, involving properties on the south side of Cortlandt st, between Broadway and Church st, and the purchase of the Coal and Iron Exchange Building, at the southeast corner of Cortlandt and Church sts, proves to be, as had been anticipated, only a part of a larger undertaking. The company has secured an eighty-year lease of the old Benedict Building, at Broadway and Cortlandt st. Between this and the Coal and Iron Exchange is the Smith Building, which, together with the Parmly Building, at Nos. 165 and 167 Broadway, has been owned by the company since last spring. Thus the company now controls the whole block front in Cortlandt st between Broadway and Church st, with frontages of 94 ft. on Broadway, 315 ft. on Cortlandt and 104 ft. on Church. It is said, however, that the new structure will not cover the site of the old Benedict Building, but is to be erected on the rest of the Cortlandt st block front, with a Broadway outlet at Nos. 165 and 167. It will, it is believed, equal in floor space any structure in the downtown district, as it will cover an area of 27,000 sq. ft., a little less than the Broad Exchange. Probably it will be from 23 to 25 stories in height. Francis H. Kimball, of No. 71 Broadway, is now preparing the plans. Of course, no contract has yet been issued.

#### Building Code Revision.

The Mayor having been advised by the Corporation Counsel's office that under the charter he had no authority to pass upon the resolutions ordering a revision of the Building Code, they have become a law, and will be carried into effect. The resolutions are as follows:

"Resolved, That, in pursuance of Section 407 of the Greater New York Charter, the Building Committee of this Board be and it hereby is directed to prepare and report to this Board a 'Building Code,' in amended and revised form, providing therein for all matters concerning, affecting or relating to the construction, alteration and removal of buildings or structures erected, or to be erected, in the city of New York; and it is further

"Resolved, That for the purpose of properly preparing said Building Code the said committee be and it hereby is authorized to engage the services of the following experts, each of whom shall be a resident of the city of New York, and shall have been engaged not less than five years in his respective calling, to wit.: A builder, an ironworker, a mason, a carpenter, a plumber, an architect, a civil engineer, a sanitary engineer, a physician and a lawyer, which said experts shall be paid a reasonable compensation for the services to be rendered by them, the compensation to be fixed by this Board after the service has been completed."

The ten experts have not yet been selected, nor have any further proceedings been taken.

#### Notice.

Messrs. White, Van Glahn & Co., 15, 16 and 17 Chatham Square, the oldest and best known Builders' Hardware House in New York City, announce that, while other dealers and manufacturers of Hardware have advanced their prices, they are (owing to the enormous stocks of goods purchased prior to these advances) still able to make contracts for Builders' Hardware at the old prices.

## BUILDING NOTES

The headquarters of the New York State Association of Retail Hardware Dealers for their annual convention at Binghamton, Feb. 20, 21 and 22, will be at the Hotel Bennett, the different sessions being held in the assembly room of the hotel.

In New York plans have been made for buildings that will require 200,000 tons of steel. Much the larger part of this will be placed for erection in the coming season unless there should be a serious interruption of such plans by conditions now unlooked for.

The staff of the Miller-Collins Co. will occupy their new and spacious offices on the river front of the Columbia Building, 29 Broadway, after Feb. 15. The improved facilities provided in these offices will promote great improvements in the company's methods of doing business, with a consequent benefit to its clients.

Bricklayers' Union No. 37, which has not yet signed the fireproofing agreement with the Mason Builders' Association, which the other unions have made, is threatened with expulsion by these unions if it does not sign by Feb. 15. In other words, the members of No. 37 will be branded as "scabs," and will not be eligible to employment by any employer in the builders' association.

The Glen Engineering Construction Co., 181 Broadway, has been incorporated under the laws of the State of New York, the directors being Messrs. Smith Alford, F. S. Dickerson, P. H. Downey, M. S. Paine and Frank Dickerson. This company is prepared to do all kinds of building, construction and engineering work, and has special facilities for the improvement of large estates.

The New York Mosaic & Marble Co. has instituted proceedings to foreclose a mechanic's lien for \$6,628.07 against property on the block bounded by 73d and 74th sts, Riverside Drive and West End av. Charles M. Schwab is the owner of the property. The lien was against William Baumgarten & Son, as contractors, on Jan. 26, for marble and bronze work used in fitting the interior of the building.

Reports from lumber shipping points all along the coast are to the effect that the mills are from 30 to 60 days behind orders, and at some points manufacturers are refusing to consider further inquiries. During the past six months practically the sole effort of local dealers has been in the direction of forcing deliveries along to enable them to keep up with the demand made upon them by local construction interests.

At a time when so much is being written and said about the engineering of light, it is interesting to note that Mr. A. A. Ernst, who has an office in the Broad Exchange Building, is the first to establish himself as a specialist in this line. The demands for the services of an expert in the use of light have steadily increased as the importance of the subject has become better understood. Mr. Ernst is particularly well fitted for successful work by his long and thorough study of the subject and his past work, which includes a number of important problems in the engineering of light.

A more important meeting to the roofers and sheet metal workers throughout the country has probably never been called than that which they are invited to attend at the Eutaw House, in Baltimore, Feb. 20, 21 and 22. The manufacturers of tin plate have practically all announced their intention of having a representative present to take part in the discussion on the quality of roofing plates. It is on this account that all roofers and sheet metal workers are not only invited, but urged to be present to take part in the discussion and the work of re-establishing tin plate in the popular favor as a roofing material.

## For and Against Licensing.

### THE MURPHY BILL HAS BOTH FRIENDS AND FOES OF HIGH STANDING.

Some opposition has developed among brokers and operators to the Murphy bill, which proposes to compel brokers to pay a license fee of \$250 and give a bond of \$5,000 for the protection of their clients. The brokers are anxious to eliminate the "shark" element and most of them believe the measure would accomplish that purpose, but, on the other hand, they argue that the proposed tax imposition is a reflection on their business and is unjust. Sentiment on the subject is divided, but some decisive action on the matter is likely to be taken by the Brooklyn Board of Brokers at its next meeting.

#### TEXT OF THE MEASURE.

ASSEMBLY BILL 452—Introduced by Mr. Murphy, of Brooklyn.  
—An Act to Regulate the Business of Real Estate Brokers in Cities of the First and Second Class.

Section 1 defines "real estate brokerage business" as buying, selling or leasing real estate for others; a "real estate broker" as a person who carries on the business of real estate brokerage either as a separate occupation or in connection with some other business; and "a real estate agency" as a real estate brokerage business conducted in or managed from an office or fixed place.

Section 2—License.—Hereafter no person shall either carry on the business of brokerage in real estate or conduct an agency therefor in the cities of the first and second class without first procuring a license therefor from the Mayor of the city in which such person intends to carry on said business or conduct said agency. It is hereby made a misdemeanor for any person to carry on the business of real estate brokerage or conduct an agency therefore, in any of said cities, without first obtaining such license. Said license shall be granted for one year upon the payment to said Mayor for the general treasury of the city of an annual fee of two hundred and fifty dollars, in cities of the first class, and one hundred and seventy-five dollars in cities of the second class, and shall be renewed annually thereafter upon the payment of like fees. Such license shall contain the name of the person to whom it is issued, the dates when the said license shall begin and expire, and an authorization to the person therein named to carry on the business of real estate brokerage or conduct a real estate agency within the city in which such license is issued. Such license shall be effective to protect the person specified therein and his salaried clerks and salaried solicitors, but not his sub-solicitors working wholly or partly upon a commission or other contingent fee. Such license shall not be granted earlier than ten days after an application therefor. Every application shall be accompanied by the affidavits of two persons who have known the applicant, or the chief officers thereof, if a corporation, for five years, stating that the said applicant is a person of good moral character and business integrity, or, if applicant is a corporation, that the officers of said corporation are of good moral character and business integrity. Upon any annual renewal of said license, to the same person, a like affidavit may be required or dispensed with in the Mayor's discretion. Due notice of said application shall be published as a corporation notice and an opportunity given by the Mayor for any person or persons to be heard in opposition to the granting of said license. The Mayor may delegate to his secretary the right to hear such objections if any are interposed, who shall report back to the Mayor his decision and recommendation.

Section 3—Bond.—The Mayor of said city shall require such person to file with his application for a license a bond in due form to the people of said city in the penal sum of five thousand dollars, with two sufficient sureties to be approved by the Mayor, or by one surety company authorized to serve on bonds taken in proceedings in a court of record, conditioned that the obligor will faithfully perform all contracts under which his services as a real estate broker are engaged and fulfill all other legal duties to his patrons, clients and customers arising from his relation with them in the real estate brokerage business; which bond shall run for three years or for such shorter period as the obligor may be continuously licensed as a real estate broker under the provisions of this act. Any person aggrieved by the misconduct of, or breach of contract by, such licensed person, may maintain his action therefor against the latter as principal defendant and may also join the sureties on said bond as defendants; and if judgment be recovered by plaintiff, it shall be in form against all the defendants and may be satisfied by execution, and any other legal or equitable remedy out of the property of said surety defendants after the return, wholly or partly unsatisfied of an execution, hereby authorized, against the principal defendant. A similar bond shall be required every three years from the same applicant then seeking a renewal of his license. If any person once licensed shall allow his license to lapse, for any period, a subsequent application by him shall be deemed an original application and must be accompanied by a new bond in form and substance as above described, to be approved as aforesaid.

Section 4—Revocation.—Upon its appearing by competent proof, in proceedings next hereinafter provided for, at any time, that any person has been defrauded by such licensed person, the said license shall be revoked by the Mayor forthwith. A hearing shall first be had thereon by and before the secretary to the Mayor or if such officer does not exist before the president of the board of

aldermen of the city in which such license was issued, on the complaint of the person or persons alleged to have been defrauded and on at least ten days' notice of hearing to the said licensed person, accompanied by a specification of charges. If the charges are found true the secretary to the Mayor, or if such office does not exist and the charges are heard by the president of the board of aldermen, the president of the board of aldermen, shall certify his decision to the Mayor, and such certificate shall be the latter's warrant for revoking said license. A person whose license has been once revoked, as aforesaid, shall not again be qualified to hold or obtain a license in the same city, nor to serve therein as a clerk, solicitor or employee of any other person licensed under this act in the business of real estate brokerage.

Section 5.—The moneys collected for license fees under this act shall be paid into the city treasury of the city where the same are collected.

Section 6.—It will be a complete defense to an action for the collection of a commission or fee for the buying, selling or leasing of real estate that the provisions of this act have not been complied with by the person maintaining said action or by his assignor.

Section 7.—Original applications for licenses may be presented to the various Mayors on or before August twenty-second, nineteen hundred and six, but in all other respects this act shall take effect September first, nineteen hundred and six.

#### SOME OPINIONS.

Mr. J. Clarence Davies said: "I have just returned from a trip to Mexico and Palm Beach of four weeks' duration, and my only information in relation to this bill is what I have seen in the papers. It at once struck me as being very desirable for the real estate brokers of established reputation and good financial standing, and would in a very large measure overcome the competition of incompetent, dishonest and irresponsible real estate brokers who so largely bring discredit upon the real estate business as a profession.

"I personally would be heartily in favor of such a bill being passed, but would like to see a higher license, greater restrictions and severer penalties. In fact, some provision made by which brokers without a license would have no legal right to collect commissions, and severe penalties which could be enforced for any misrepresentation or subterfuge in the transaction of a brokerage business.

"I have not as yet had an opportunity of seeing any of my colleagues and do not know their attitude regarding same. I think the law at first would be found difficult to enforce, but experience would show where the weakness lies, and then the bill could be so amended as to cover such points. To my mind, it would certainly place the real estate business on a more substantial basis and give the public more confidence in dealing with licensed brokers, and in that way alone raise the standing of the business to a higher level.

Mr. Cyrille Carreau says that, having always been in favor of real estate brokers being licensed and by law properly protected, he wishes to be counted among those who favor a proper law with license fee and other provisions for a fair protection of honest brokers in the real estate business.

Howard C. Pyle, of Brooklyn, said: "It would certainly have the desired effect of purifying the real estate business, and would seem to provide very well as a guarantee of good, clean business principles. The real estate business has for a long time been in need of certain restrictions to ward off improper methods, and we feel that the passage of such a bill is very necessary."

Fred M. Smith, of Brooklyn, said: "This bill, in the light of my experience among real estate brokers of a city of the first class, is not required nor desired, nor in any way necessary for a very large majority of said brokers; but is an effort on the part of a selfish few who have no sufficient ambition to meet the conditions of the business, but desire the assistance of the State to help them to do their business in a narrow-minded way. I represent a number of real estate brokers who entertain the opinion expressed above, but who may not take this means or any other to protest against it."

Fenwick B. Small said: "I fail to see how this bill will be of any benefit whatsoever to reliable brokers—there will be so many ways to get around it by those who do not pay for a license. The more brokers, the better the business; and this bill will have a tendency to cut down the number of brokers."

—As a matter of record, it is here noted that the trustees of Gramercy Park are John Hone, Stuyvesant Fish, James Henry Lane, James W. Pinchott and Henry W. Poor. Some time hence the reader may want to recall the names of the trustees, so he had better make a clipping and file it away. The trustees, objecting to an assessment of \$500,000 placed on the property in 1903, one for the same amount in 1904 and one of \$750,000 in 1905, Justice Dowling has decided in a legal proceeding brought by the Tax Commissioners that the property known as Gramercy Park, subject to the restrictions and easements, has no value, and cannot be taxed or sold for the purpose of collecting taxes. Samuel B. Ruggles and wife deeded the property in 1831 to trustees for a park, stipulating that it was to be for the use and benefit of the owners of residents on sixty lots of land surrounding.

#### American Fireproofing Enterprise in Canada.

The disposition of American manufacturers to invade foreign fields, whereby, by the investment of large amounts of money in the erection of vast plants, and by the employment of the latest mechanical devices, a good supply of intelligent labor and unlimited quantities of raw materials, a greatly increased business may be acquired, is well exemplified from a study of Montreal and the surrounding towns in Canada.

Undoubtedly the largest operation yet carried forward in Canada has been the establishing of the immense plant just completed by the Singer Manufacturing Company at St. Johns, Quebec, about twenty-seven miles from Montreal. That the Singer company has built for permanency is amply proven by a study of the character of buildings erected. Possibly in no other buildings in the world has greater care been exercised to secure absolutely fireproof buildings. Nowhere throughout any of the buildings, some of them over 700 ft. long, 60 ft. wide and four stories in height, can be found a piece of exposed steel. Every column, girder, beam, lintel and brace—in fact, every particle of steel—is absolutely encased in two or more inches of concrete. The walls of the buildings are of brick. All columns, girders and beams are of structural steel. All fireproofing for floors, roofs and columns is cinder concrete, reinforced with the Clinton welded fabric. Spans for floor and roof arches, 19 ft. 10 ins. and 16 ft. 8 ins.

After convincing tests, the engineers of the Singer Manufacturing Company demanded the use of cinder concrete for these great spans. The result has been eminently satisfactory, and the dead load of the floor and roof arches is, of course, very much less than would have been the case had stone concrete

been used. The general contract for the whole operation was awarded to James Stewart & Co., of New York and Pittsburg. The Stewart company enhanced its already capital record for completing operations of this class in the best manner and on time. The sub-contract for the fireproofing was awarded to the Clinton Fireproofing Co., of Canada, a company organized by the members of the well-known New York firm of Gollick & Smith, the whole operation being under the personal direction of Mr. Philip Sidney, engineer for the Singer Manufacturing Company.

Approaching closer to Montreal, one notices the familiar name of "Allis-Chalmers," which, operating as the Allis-Chalmers-Bullock Co., occupies an immense plant, and whose representatives are making themselves felt in the business of Canada. Next is seen the familiar name, "Sherwin Williams," familiar wherever paint is manufactured or sold. The Canada Car Co., controlled by American capital, also has erected great shops of permanent character, fireproof and durable. As an evidence that Canadians are fond of good things, Lowney, of chocolate fame, had Frank Gilbreth, of New York, rush up a great building to be devoted to the Lowney enterprise.

There is building in the harbor of Montreal at the present time the greatest chain of steel and concrete harbor sheds ever erected in America. Peter Lyll & Sons, of Montreal, are the contractors for these buildings. The area of the floors and roofs in which the Clinton fireproofing system is used in these buildings is 1,800,000 sq. ft.

Sir William MacDonald is having erected at St. Anns de Bellevue, twenty miles from Montreal, an immense group of brick, steel and concrete buildings, to constitute the largest agricultural college in Canada. The institution will be donated

to the Dominion by Sir William; and the William Grace Company, of Chicago and Montreal, is the general contractor. The Clinton Fireproofing Company of Canada is the sub-contractor, installing the Clinton fireproofing system for all floors and roofs; and is also the contractor for all fireproofing on the harbor sheds mentioned. Mr. Albert Oliver, of New York and Montreal, who has general charge of the Clinton fireproofing system, has been instrumental in having this system introduced in all the work mentioned.

While an immense amount of American Portland cement has been used in the past, it is probable that a less amount will be used in the future. This for the reason that Portland cement manufacturers in Canada are increasing tremendously the output of their plants, and new plants are springing up.

Canadian architects and engineers have an abiding faith in the fireproofing qualities of concrete. Little else is talked of as fireproofing, and the disposition is general to not only improve on their architectural styles, but to erect buildings of the very highest quality and durability. The Canadian architect and engineer evidently aims to pattern very much from what can be learned in New York and Boston, and the desire of his professional brother in the United States certainly seems to be that he shall succeed; but in succeeding that he shall be assisted by the enterprise and daring of the typical American professional and business man.

## Points on Appraising

By CHARLES GRIFFITH MOSES

WHILE it is true that it has become the custom to value certain classes of real estate by the square foot, and certain other classes by the front foot, on a basis of lots 100 ft. deep, the expert will find it quite expedient and very convenient, especially in the case of irregular shapes, to reduce his lot basis valuations to one of square feet. This makes it simpler in computing totals and making comparisons. If the expert has any knowledge of the building business, so much the better; lack of such technical knowledge does not prevent his being able to value intelligently buildings in connection with the land on which they are erected. Every real estate man of any experience whatsoever knows pretty accurately the cost of certain standards and types of buildings most commonly erected, and can tell after inspection of such a building very close to what it is worth, even if he has no idea of the cost of brick, iron, lumber or labor. The best proof of this lies in the fact that the average layman desiring to buy a house for occupancy investment or speculation, and wishing an appraisal of its value, goes to a real estate man and not to a builder for such valuation.

The expert must also have some knowledge of the existing building laws and must keep himself more or less in touch with the amendments to the same. The changes in the building laws, especially those relating to tenement houses, which have been so sweeping in the past few years that I expect to see before very long a change in the size of lot standards from 25 ft. in frontage, which has obtained in this city for a very long period, to one of greater width, say, 33 ft. or 37½, especially in neighborhoods given over to tenement house improvement. The cause of this is on account of the requirements of the Building and Tenement House departments being such that, in order to provide space enough for light and air, it is impracticable for economic reasons to build a tenement house on a 25-ft. lot.

Frequently in cross-examination an attorney will try to disconcert the witness and even cast slurs on his veracity. Usually this is done to rattle the witness or arouse his ire. Never loose your head while testifying, and, above all things, don't get angry. That is just what the cross-examiner wants, and when he gets a witness in that condition much good logical testimony may be ruined. If an answer of yours after it has been given does not seem to explain the true situation as well as you would have liked, and if you have been afforded no opportunity of qualifying or explaining it, you can usually straighten matters out on redirect examination by your own attorney; that is to say, the attorney for whom you are testifying. It has been my experience that the simpler and more concise you can make your direct testimony, the less liable it is to be shaken on cross-examination. Most condemnation lawyers understand this and will only ask the most necessary questions in the direct examination to present the bare facts of their case. Sometimes, however, a lawyer without much experience in this character of work will try to bring out too much on the direct, and then look out for trouble on the cross-examination. Be careful in answering the simplest questions. Try to see what the questioner is driving at and weigh your answer well before giving it. Often the question that seems most innocuous may open the door to some apparently harmless admissions, which may spoil otherwise good testimony.

### APPRAISING VACANT GROUND.

In appraising vacant ground great care must be taken to examine its physical aspects very carefully, and compare your own ideas of them with the damage map as closely as possible. Study and estimate the grades of abutting streets and avenues, and learn their exact degree of slope if anything out of the ordinary. Ascertain the condition of the surrounding streets regarding improvements and the status of assessments. If there is rock on the property, or the bottom is bad, find out, if you can't estimate it yourself, the cost of putting the land in shape for building. I have found it very convenient to value land as on grade or slightly below grade, and then make additions or deductions made necessary by the existing physical conditions, as the case may be. Be careful to consider all the possible phases of the situation from every different standpoint, so that you may be prepared to explain lucidly the effects and bearing of these varied conditions on your final estimate of value. Remember that nothing you have left unsaid while testifying is taken for granted, no matter how obvious it is, and if some feature beneficial to your side of the case is not brought out by the questions while under cross-examination, it is your duty to try to bring it out in a way which only experience can teach. Be careful in describing conditions to call things by their right names; and, above all, be accurate in this. Don't fail to differentiate between a street that is laid out on the map, one that is opened, one that is regulated and graded, and one that is paved and sewered. The most common error even among real estate men of more or less experience is to confound an open street with one that is not only open, but also regulated and graded. A street that is legally open, where all the legal steps are completed, even title to the same vested in the city, is not necessarily one over which access or travel is possible, as it is in the case of one that is regulated and graded and the physical opening completed.

Where the entire real estate of one or more individuals is taken in a proceeding, and nothing remains, the case is simpler than one in which only a part is taken, or where none of the land or improvements; but only some of the so-called inherent rights appertaining to the land, such as air, light and access, either as a whole or in part, are taken. In these cases there enters sometimes an element of consequential damage. In some instances, while only a part of the land may be acquired, so little remains, and, under certain conditions, it is of so little substantial value, that the damage may be considered as a total one, and is represented by the value of the whole parcel.

This is especially true in the case of substantially improved parcels, where the abutting premises have received their so-called final improvement. Where, however, a plot remains, after part has been taken, and such remainder has intrinsic value, then the approved method of appraisal is to value the whole piece in its entirety, then to value the part that remains, and the difference between these two sums represents the damage. Care must be taken in valuing the part that remains to give consideration to the element of consequential damage, as this is the place to make the proper deductions on its account.

Damage by the taking from property of its easements for light, air and access may be computed in the same way—that is to say, value the original plot as it is or was before these easements or any of them are taken; then value the property after it has been deprived of them, and the difference equals the sum of the damage. Here the element of consequential damage is usually the most important one, as, for instance, the erection of a viaduct or railroad or wall of some kind in the street in front of the premises in question may change the whole character of the neighborhood, and a plot which might have been suitable for a high-class hotel, we will say, becomes fit for nothing but a storage warehouse, or a factory, or a stable, or something of that nature. This theory also holds good in some cases by reason of the closing of a thoroughfare through which real estate in the immediate vicinity derived benefit by reason of access. Again, property is damaged by the partial destruction of access, such as the erection of pillars or piers in the street in front of it, and in consequence the owner of abutting property is entitled to just compensation for the loss of such of his rights and easements as he suffers. Changes in the physical conditions of existing streets sometimes cause damage, as in the cases of change of grade. Here, too, the last-mentioned method of appraisal holds good.

### Notice.

Messrs. White, Van Glahn & Co., 15, 16 and 17 Chatham Square, the oldest and best known Builders' Hardware House in New York City, announce that, while other dealers and manufacturers of Hardware have advanced their prices, they are (owing to the enormous stocks of goods purchased prior to these advances) still able to make contracts for Builders' Hardware at the old prices.

**CALL 3157 CORTLANDT**—if you want any information regarding real estate. Owners' names, addresses, etc., supplied to subscribers of Record and Guide Bureau of Real Estate Information.

The Index to Volume LXXVI. of the Record and Guide, covering the period between July 1 and December 30, 1905, will be ready for delivery on Tuesday, February 6. Price \$1. This Index in its enlarged form is now recognized as indispensable to every one engaged or interested in real estate and building operations. It covers all transactions—deeds, mortgages, leases, auction sales, building plans filed, etc. Orders for the Index should be sent at once to the office of publication, 14 and 16 Vesey St.

# DON'T GUESS

A Real Estate Information Service is as necessary in a Real Estate Broker's office as the ticker in the office of a Stock Broker.

A personally maintained Service is inefficient and inordinately Expensive compared with a Big Central Cooperative Service. The Biggest Service is the best, because the advantages of Cooperation are centered there on the biggest Scale.

The RECORD & GUIDE to-day supplies thousands of Brokers and others with information—has been doing so for a generation. Its own records cover the history of ALL transactions of every kind in New York for forty years, and in addition to these it has a COMPLETE PLANT that includes the previous period.

Obviously the RECORD & GUIDE possesses FULL information covering ALL particulars concerning real estate. Other systems are necessarily either partial or mere second-hand abstracts of the records which the RECORD & GUIDE has been gathering and publishing in the course of its forty years' history.

If you need Real Estate Information don't guess. Don't use personal Systems. Don't use partial Systems. Don't use temporary Systems that must be fragmentary and Second-hand. Don't use Systems built for the use of a Few, and that offer you scarcely any of the advantages of cooperation.

# USE

THE RECORD and GUIDE BUREAU OF REAL ESTATE INFORMATION. The oldest, the largest, the most permanent, the best equipped—a Service that can serve you TO-DAY and TOMORROW on a progressive plan.

#### Projected Buildings in Other Cities.

SING SING, N. Y.—The State Prison Improvement Commission appointed to investigate the conditions of Sing Sing and Auburn prisons, recommends that two new State prisons on new sites be erected to replace these structures. The Commission estimates the cost of the new Sing Sing prison, including a cell house of pressed brick, containing 1,408 cells, at \$1,826,824, or with a cell house with deafened steel cells at \$1,970,236, the cost of the site to be \$125,000 additional. The cost of a prison to take the place of the Auburn structure is estimated at approximately \$250,000 less than the Sing Sing prison. The construction of a central prison to take the place of both the Sing Sing and Auburn prisons is declared by the Commission to be inadvisable.

CHICAGO, ILL.—The Chicago Telephone Co. (Arthur D. Wheeler, president) is having plans prepared for a 16-sty building adjoining the present office and central exchange building on the Franklin st side. Plans for a warehouse of brick and stone construction, to cost \$125,000, have been completed by E. O. Mayo, 204 Dearborn st. Lawrence Heyworth, 42 East Madison st, it is reported, is interested in a club house which it is proposed erecting on the Lake Shore and 75th st, at a cost of about \$150,000.

BRIDGEPORT, Conn.—Casper Ranger, of Holyoke, Mass., it is stated, has secured the contract to erect a factory here for the Electric Cable Co., of New York, N. Y., the cost to be about \$50,000.

WILMINGTON, Del.—The members of the Y. M. C. A., it is stated, intend erecting a \$200,000 building at 10th and Orange sts.

JACKSONVILLE, Fla.—An 11-sty Masonic Temple is to be erected on Main st, at a cost of \$225,000.

COLUMBUS, O.—It is reported that plans are being prepared for a 6-sty business building, which is to be erected by Levi Smith at Chestnut and High sts, at an estimated cost of \$75,000.

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, the mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only, and the second figures

### MORTGAGES

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagee, the next that of the mortgagor. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

February 2, 3, 5, 6, 7 and 8.

## The Private Branch Exchange System of supplying TELEPHONE SERVICE is particularly adapted to the requirements of LARGE HOTELS and APARTMENT HOUSES.

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (\*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

HOW much interest are the architects, the builders, and the real estate men of this city taking in the proposed revision of the Building Code? Are we to have another case of post-mortem dissatisfaction? That is the usual course of affairs with us in all public matters. Measures are proposed, amendments are introduced, bills are passed and sanctioned, and people will not give to their consideration one-twentieth part of the time they devote to the reading of yellow journal stories. Legislation, however, affects their interests, and later on, when laws are in operation, the kickers begin to vociferate. Everybody is aroused to a belated opposition. Wisdom comes in after everyone has "quit and gone home." In the past, the building laws have received about as much cussing as any other law, but the grumbling has always been futile. It has always arisen after the event. If architects, builders and real estate men have anything to say about the Building Code, now is the time to get ready to say it. An adequate Building Code cannot be turned out in a day. The man on the street corner is not competent to give voice to the proper demands of the community, and of the many industries that are involved. The matter should receive very careful consideration. Organization is needed, and a competent steering committee, or something of the kind. Silence and indifference will not produce results. Lamentations by and by will be equally inefficient.

THOSE who form their opinions from the daily papers might fear that serious labor troubles again threaten the building trades of this city. As a matter of fact, these fears are groundless. There may be troubles, of course. There is hardly ever a time in the building trades when some "little war" is not in progress, and these little wars undoubtedly are always beset with the danger that they may provoke a bigger conflict. No doubt, moreover, there is more pugnacity per individual in the building trades than in almost any other industry, and in New York City there are, as we know, some unwholesome elements in the relationship that exists between employers and the employees. On the other hand, in the building trades, Employers and Unions are very well organized, and this development of organization, while it makes conflicts serious when they do arise, is at the same time an impediment to disturbances in regard to difficulties that are not fundamentally essential. The strikes of recent years certainly closed for a time, if they did not actually settle, a great many differences that exist as to essentials. The former belligerents may join issue on these same points by and by, but to-day the status quo possesses too many elements of stability to leave room for any dissension that is really explosive. In other words, the situation is sufficiently well adjusted to be workable; there is nothing in sight likely to throw things out of gear. There is certainly enough in the situation to make peace very much more profitable for both sides than war, and neither the Unions nor the Employers are likely to buy trouble unless it somehow promises a profit. The employers occupy a strong position, and the labor situation is sufficiently attractive for the Unions to leave it alone for a while. A serious strike undertaken by the men to-day would justify the libelous story told of a man who went to Washington Market to buy a calf's head, which he desired to take home with him. When the butcher produced the head

the purchaser inquired, "Is that a 'Union' head?" "No," replied the butcher, "but I can get one." He returned in a moment with the same calf's head, a fact which the customer detected immediately. "Certainly that's the same head," said the butcher; "but I have taken the brains out."

THE Elsberg Rapid Transit bill, after all, is not to get through without opposition. There are good reasons for this. At the time the Subway enterprise was undertaken, the prospect ahead was thickly sowed with problems, financial and otherwise. The experimental stage, however, is now completely left behind, and the construction of new lines or extensions of the present lines should properly be conducted much more rigidly in the interests of the community. There has arisen a difference of opinion as to the direction these interests now take. Hence the controversy over the Elsberg bill. The Elsberg bill is a measure of some antiquity. It was proposed when present conditions did not exist. It permitted the Rapid Transit Commission to separate construction-contracts from operation-contracts. In this way, it was thought power would be conferred upon the Rapid Transit Commission to compel satisfactory bids. Those who advocated the measure declared it was essentially a permissive bill, one urgently demanded by conditions then existing. This was well enough, but curiously to-day the Elsberg bill is advocated on the ground that it is "mandatory," and as a result, if passed, the Rapid Transit Commission would be compelled to completely separate contracts for construction from contracts for operation. The purpose of the bill is even avowed to be to force the city to build and equip a new subway at its own expense. The purpose of this, undoubtedly, is to bring about the municipal operation of new Rapid Transit routes. At any rate, that is likely to be the effect of the measure. Now, this may be a very desirable result. The operation of the present subway by private interests is in many respects unsatisfactory. One can easily imagine how a "service for profits," such as we have to-day, might, under municipal ownership, be developed to the point that it would be a "service for public convenience." A great many people believe the latter is the kind of service the Subway should render the community. Situated as New York City is, Rapid Transit is essentially a public utility. Transportation, indeed, is even more of a public necessity than the supply of electric light, or of any of those other services that it is at present proposed shall be brought within the scope of municipal enterprise. From the very beginning, New York City has sweated and fretted more under the private control of Rapid Transit than any other general service it receives at the hands of individual enterprise. The Subway to-day, while it affords great accommodation to our people, is not much, if at all, more liberally managed than the Elevated roads. Dividends have been paid at the sacrifice of the "utmost public convenience," and it is just this utmost public convenience that is the main matter involved in transportation in this city. Of course, it is entirely questionable whether municipal ownership will do any more for us than private enterprise. No doubt it could, because the conditions under which it would work would be freer, but would it? A great many facts indicate that any hope in this direction might prove to be delusive. But, at any rate, the question of the future municipalization of our subways should be put before the public with the utmost candor. The Elsberg bill is not candid. It does not assert its object—municipal ownership—with entire frankness. On the contrary, it introduces the principle surreptitiously, and the matter is too important to be sneaked in by indirection.

Salaries—Big and Little.

THE question of the salaries paid to government and corporate officials has of late been exciting a great deal of public discussion. It began, of course, with the revelations as to the rate of payment which had been made to the chief officials of the insurance companies, and it was continued by the discussions in Congress relative to the remuneration which the national government has been paying to a number of the most important employees engaged in the work of building the Panama Canal. But it cannot be said that the discussion has as yet had any very edifying result. Much of the condemnation bestowed upon the people who received and paid the high salaries was unjust, and on the other hand many of the arguments by which the high salaries have been justified can only be described as disingenuous. It is, consequently, worth while considering what the real justification is for the payment of high salaries to important public and corporate officials, and how far the practice can be legitimately carried.

The high salaries are, of course, generally defended upon the ground that their recipients really earn them. If the president of an insurance company whose assets amount to \$400,000,000 is not worth \$100,000 a year to the company, he ought not to occupy the position, and the same statement would be true of the presidents of large industrial and railroad corporations. The force of this defence is undeniable, and the only question is as to its adequacy. That the president of the Mutual Life Insurance Company might be worth \$150,000 a year to the policy-holders of the company can scarcely be denied; and so it is with the presidents, say, of the Pennsylvania Railroad Company and the United States Steel Corporation. The Pennsylvania Co., for instance, during the incumbency of President Cassatt, has embarked upon a scheme of improvements which will cost several hundred millions of dollars. If these improvements have been planned according to a sound understanding of the railroad's best opportunities for enlarged traffic, they will result eventually in an enormous increment of the value of the property of the stockholders. On the other hand, a mistake in this respect and at this critical point in the railroad's history would impair in the most serious way the company's future power of development. The man who is chiefly responsible for such a policy would, if he were competent, be worth much more than \$100,000 a year to the stockholders, whereas, if he were incompetent, he might easily lose for the stockholders the equivalent of \$50,000,000 in hard cash. The only question to be decided from this point of view is, whether or not he is really competent. The high salaries paid to the presidents of the insurance companies were all right in themselves, but they were wrong under the circumstances because their recipients did not manage the companies on sound and economical business principles.

The foregoing argument contains a good deal of truth, but it does not contain the whole truth. It has the disadvantage of proving too much. Undoubtedly the president of a big corporation is in a position to earn \$100,000 a year for and from the company. But this is a paltry estimate of his value. He is just as clearly in a position to earn many hundreds of thousands of dollars a year for and from the company. In fact, there is no way of estimating how much he should be paid, provided one considers merely what he may or may not earn. He might in one year by some successful stroke of policy put the equivalent of \$10,000,000 in the pockets of the policy-holders, while an error in judgment during the following year might be equally disastrous. May we not say, consequently, that in the light of these considerations, a man's salary must eventually be determined, not by what he can earn for the company, but what it is worth his while to accept. A large earning power is the condition of a high salary, but it does not determine what that salary ought to be. The actual amount of the salary is rather determined by the man's own opinion of what he ought to get, and this opinion is determined by what other men, occupying similar positions, obtain, and by the standard of living prevailing among his associates. Thus it was entirely natural that the former president of the Mutual Life Insurance Company, quite apart from the efficiency of his management of the company, should be condemned for drawing \$150,000 a year as long as a similar position in other companies were at least as competently filled at an expense of two-thirds of that sum. The standard of living among rich Americans is such that a salary of \$100,000 ought to prove tempting to the most efficient executives in the country, and when that sum is exceeded, the charge that the salary is extravagant can be justly made, even if, as a matter of fact, the official is actually worth more than \$100,000 a year to the company.

Similar considerations should determine the amount of the salaries paid to public officials. Such salaries should be large enough to enable competent men to live almost as well as they would live in case they occupied similarly important positions in private life, and there can be no doubt that, measured by such a rule, our public officials in executive positions are, for the most part, underpaid. The tendency of a democracy is to pay more than the prevailing rate of wages to clerks and laborers, and less than the prevailing rate to the heads of departments. The President, of course, is ridiculously underpaid with a salary of \$50,000 a year, not because he earns more, or because the office is less tempting with the smaller salary, but because he cannot properly maintain his social responsibilities as president on any such sum. So it is with the members of the Cabinet, and with the majority of the State Governors and the municipal mayors. Such positions should not carry with them salaries quite so large as similar positions in private life, because public office should be to a certain extent its own reward, and because the standard of living which calls for \$100,000 a year to satisfy it is an extravagant standard, which should not

be officially countenanced, except in the case of a man like the President, with altogether exceptional social responsibilities. The members of the Cabinet ought to receive \$25,000 a year, and so should the Mayor of the City of New York. President Roosevelt is absolutely right in paying liberal salaries to the executive heads of the Panama Canal improvement. The rates of remuneration he has established are sufficient without being extravagant, and if Congress balks at them, the protest will merely be another example of the mean, small and envious disposition which the representatives of the American democracy have so frequently shown under similar conditions.

## Memorandum on the Mortgage Tax Law.

To the Editor of the Record and Guide:

The greater number of criticisms of the Mortgage Tax Law of 1905 are based on the broad lines of the wisdom, constitutionality or effect on the building and mortgage situation of the act. Granting for the present all that friends of the measure claim for it, there still remain numerous inherent defects which no trial of the law in its present form, however long, can remedy.

Take for example a mortgage subject to the tax and which by its terms becomes due and payable, say on March 21, 1907, and which is to be paid off and satisfied of record on that date. This mortgage is taxed on July 1, 1906, for a period of one year, i. e., from July 1, 1906, to July 1, 1907, the law calling for an annual tax. If the mortgagee pays the tax between July 1, 1906, and November 1, 1906, he pays a full year's tax, without an interest penalty, and does not receive the return of a proportional part thereof when the mortgage is paid off and satisfied on March 21, 1907, its due date, as there is no provision in the act for the return of any portion of the annual tax when once paid. This situation is both unfair and unjust.

Section 297 of the act, however, provides that where the mortgage becomes due and is paid off and satisfied of record subsequent to November 1 and prior to the following June 30, the mortgagee may, if he has not previously paid the annual tax, which became a lien on the prior July 1, pay the proportional amount of the said tax due to said date of the paying off of the mortgage and of its satisfaction on the record, together with interest on said annual tax at the rate of one per centum per month from the prior November 1 (i. e., 12 per cent per annum).

This penalty and provision is neither equitable nor just, as the owner of a mortgage should not be put to the election of either paying for a longer period than he owns the mortgage or of paying a penalty.

Section 306 of the same act provides that mortgages, on which the annual tax shall not have been paid prior to the first Monday of January following the July 1 on which it accrues, may be seized and sold as thereafter provided. The question is thus presented of a conflict between the provisions of this section and of Section 297, in that when the annual tax is not paid prior to the first Monday of January, because of an intention of taking advantage of the provisions of Section 297, it leaves the mortgage cited liable to seizure and sale between the first Monday of January, 1907, and the following March 21, notwithstanding that on that latter date the proportional part of the accrued annual tax plus the interest penalty is to be tendered, as in Section 297 provided, and the mortgage itself paid off and satisfied of record. This is, to say the least, a clumsy condition of affairs.

Inquiry from the State Board of Tax Commissioners at Albany as to whether in their opinion such a mortgage, as above cited as an example, can be safeguarded from seizure and sale when the annual tax is not paid prior to the first Monday of January, is answered by reference to the provisions of the sections of the act above commented upon. It is impossible to conceive that any one owning a mortgage situated similarly to the example given can, after an intelligent study of the present law, be satisfied with it either as a permanent or compromise tax measure, or as a practical test of the working of a mortgage tax law.

Men engaged in building trades are dependent upon drawings made by architects and engineers. The ability to read readily these drawings and to take off correctly the quantities desired is of vast importance. The present class in plan-reading, estimating, draughting and building construction at the West Side Y. M. C. A. has 88 members. The class has several divisions, so that men can receive instruction in highly specialized parts. Staff of teachers, under the direction of Louis E. Jallade, architect: Charles E. Hume, general building, of Alfred Beinhauer, builder; W. Marshall, general building, with Marc Eiditz & Son; Eduard Raque, C. E., steel, with Post & McCord; Jacob M. ## For and Against the Murphy Bill.

**A**SSSEMBLYMAN MURPHY is taking steps to amend his bill to license real estate brokers so as to satisfy, if possible, some of the objections that have been made to it. Mr. Murphy assures the public that his purpose in introducing the bill was to place real estate brokers on a higher plane, and he has no desire to injure any man carrying on a legitimate trade. The impression seems to gain ground that the tax would not produce the desired reforms, though the fundamental principle of the bill has its advocates. It is contended by some that the tax would be in restraint of trade, and would expel a great many men useful in the business.

In a letter which Fred M. Smith, of Brooklyn, has written to Assemblyman Murphy, he declares that "such a bill is not needed by the community you represent or any community large or small in any city of the first or second class. This I know because of my large experience among real estate brokers and because of the very positive opinions I have heard expressed by the many brokers who have expressed themselves in my presence."

Henry A. McCarthy, of 2061 Fulton st, Brooklyn, on the other hand heartily endorses the Murphy bill and would gladly abide by its provisions. "It is what we want," he adds, "to guard against the so-called brokers who operate in this section and who cast a reflection upon the business. I consider it a strong protection for the honest broker doing a legitimate business."

Green Bros., of 1517 Newkirk av, Brooklyn, said: "Does it not appear to you in view of the fact that a fire insurance broker is permitted to conduct a brokerage business under a license for which he has been obliged to pay the New York Fire Insurance Exchange the nominal fee of \$5, and by so doing secures himself the privilege of doing business without being bonded, that it is out of all proportion to make a real estate broker's fee \$250?"

"Wherein lies the justification for this marked difference? The avowed intention of this act is to protect not only the legitimate real estate dealer, but also his guileless clients. Does anybody think for a moment that any real estate dealer, and particularly a "slick" one at whom this measure is aimed, could not pull his hand out of his pocket and find \$250 therein? We are heartily in accord as far as the question of bonding is concerned. This we consider in itself a most efficient safeguard, but a man convicted of fraud and thereby forfeiting his bond would not to our mind have received sufficient punishment to meet his crime.

"In framing this bill, would it not be better to enact such laws in conjunction therewith as would deter any person engaged in the real estate trade from doing or condoning anything of a questionable character? If a person were made stringently amenable to our judiciary, would it not conserve more fully the public interest?"

James Kyle & Sons, of 721 Lexington av, Manhattan, said: "We are in favor of it decidedly, as we think it would bring into the field a more responsible set of men, and eliminate a great many who are irresponsible. I don't think the proposed amount of the tax is too high; a small tax would not accomplish the purpose. The field is overrun with men who claim to be real estate brokers, but in reality give only their waste time to have it, having their regular pursuits in other lines."

Adrian G. Hegeman & Co., of 170 Broadway, Manhattan: "We are opposed to the bill. Anybody should have a right to make a living without being taxed to death."

David Porter, 189 Montague st, Brooklyn: "In my opinion it would purify the business and put it on a more substantial basis. There might be some objections to the amount of the fee as being too large, as I believe there are many decent and respectable men who are in the business in a small way and who perhaps could not afford to pay this amount. While I personally would like to see the fee \$250, I would have no objections if it were made a nominal fee, provided, however, that a bond was given for \$5,000, which I think will go to the root of the whole matter. Any respectable man can get a bond, although he might not be able to afford \$250; but a thief could not get a bond on any terms; this you will see would do more to purify the business than anything else, and would insure real estate owners and the public against the tricks and devices of many who call themselves real estate brokers, and whose only object seems to be to get the best of their customers in every way possible; and I am sorry to say that there are many such in this business."

John M. Thompson, of 198 Broadway, Manhattan: "I think it is a good measure—if it can be carried out."

George Julian Houtain, 161 Pierrepont st, Brooklyn: "I do not believe that the proposed law would give the protection intended. It stands to reason that those who are now brokers and who either have not the inclination or the money to pay for the license would immediately become operators; i. e., they will buy options and sell them, and the difference will by no means be a commission. Further than that, those who are not now gracing offices of their own will be flocking to the offices of those who are licensed, and conduct their business under the name of the recognized broker. The results therefore will not by any means be changed. Unless some legislation can be

affected to likewise protect the broker against any such outrages as these, the bill will fail miserably."

Fenwick B. Small, of Brooklyn: "I fail to see how this bill will be of any benefit whatsoever to the reliable brokers or to the real estate business; there will be so many ways to get around it by those that do not pay for a license. The more brokers the better the business, and this bill will have a tendency to cut down the number of brokers."

### MR. TYLER'S VIGOROUS REMARKS.

Frank H. Tyler, of 1183 Fulton st, said: "I am not in sympathy with the movement, as I consider the law wholly unnecessary."

"If, however, the sole purpose of the bill is to increase the income to provide a few officeholders with more salary, why of course that may be all right, for no class of men are more liberal with money than the real estate broker, notwithstanding the fact that he labors long and has more disappointments than he would have in any other line of business."

"Aside from this I would consider it a great hardship on many bright, energetic and capable young brokers who have to struggle the first few years in the business. I fail to see any good results which would be accomplished, except that it would greatly reduce the number of brokers in the business, and those who have been successful and can easily afford the fee would profit thereby. It would certainly not be equitable under such circumstances to crowd out the little fellows who could ill afford to pay the fee. As to putting brokers under bonds, that should be for the clients who employ the brokers to decide, and not for any legislature in Albany."

"All of the brokers in the business are ready at all times to provide bonds for the faithful performance of their duties to clients, and I do not consider that any legislation is necessary on that subject."

"If our enterprising legislator desires to make a name for himself which will be handed down to posterity, let him drop his license law and go to work at repealing the iniquitous Mortgage Tax Law and then follow up the question of tunnels and proper transit facilities for the Borough of Brooklyn. In my opinion we can all get along with considerably less legislation, for if any broker does not serve his clients' interest faithfully and comply with the existing laws, there is always redress for the client, and the Board of Brokers would see to it that he could not retain membership in their body."

Andrew Powell, of 156 Broadway, New York: "I favor the principle involved, but do not believe in a high license fee, nor in the bond provision."

James H. Wood, 138 Reid av, Brooklyn: "I find that I am running an office, paying clerk hire, and rent, and incidental expenses, such as advertising, maps, etc., and collecting various property for sale, for people with fictitious names to ascertain the information that cost me money to obtain, and yet we have no protection whatever. While it is not right to deprive any man of his liberty, there is no reason why a man that has spent his time and money to obtain and establish a business should sacrifice it without some protection from the government. I have been the means of selling much property in this section in transactions where I have not received one penny compensation, for the simple reason that they would obtain particulars and give me the trouble of showing and negotiating the sale, and then finally the matter would be dropped, and subsequently I would hear of another party purchasing the property."

"I have investigated several of these transactions and find that they are identically the same parties whom I was negotiating with, but not enough evidence to put the case through the courts, and therefore I am heartily in favor of having a bill introduced whereby an individual cannot submit for sale or offer for sale any properties unless he is licensed to do so. It would also be a protection to the community in general to have legitimate brokers established, which would create confidence in the way of collections of rents and care of property; and I trust that every broker will use his best endeavors to have the bill, or one similar, passed for the protection of those who are willing to devote their time and money in furthering the real estate business."

### New Real Estate Exchange.

The Kings and Queens County Real Estate Exchange Co. has been organized and will be located in the building at the corner of Hamburg and Myrtle avs. In speaking of the new enterprise, Otto Kempner, of Brooklyn, said:

"Within the last year or two a new city has practically grown up beyond Broadway, stretching to the line of Queens County. Dealers and speculators in real estate have multiplied so rapidly that a single exchange located downtown has become totally inadequate for the real estate business. Brokers have long complained of the inconvenience of the old exchange, and of the necessity of a new one. The new establishment is intended to be more than a mere auction salesroom. It is to be an open market for real estate men and a headquarters for trade information."

It is expected that the new exchange will be opened about March 1.

# BROKERS' COMMISSIONS

Rates Paid in Various Cities of the United States on the Sale of Real Estate

**T**HE brokers' rate of commission on the sale and exchange of real estate in the United States is a very indeterminate quantity, varying in a general way with location. The rate prevailing in the Eastern States is in general lower than that charged west of Chicago and south of Mason and Dixon's line. The explanation of this difference is very obvious. The stability of Eastern real estate, particularly in the large cities, and the keen competition resulting from the large number of brokers, have resulted in the lowest possible rate, with a margin of profit for the broker. In the comparatively new sections of the country the rate has not reached rock-bottom, while in boom and speculative communities, lack of competition and the smallness of the amounts involved keep the rate high. Exceptions to the above generalization, as in the case of New Orleans, are accounted for by the larger amounts involved in a single transaction in large cities.

Two and a half per cent. on the selling price represents the

average rate throughout the country, the high-water mark of ten per cent. prevailing in Aurora, Ill., and Houston, Tex., while New York City, Reading, Pa., and Worcester, Mass., are representatives of the minimum class with a rate of one per cent.

A law in Pennsylvania requires brokers to pay a license fee, but no instance of a statute governing the commission to be charged has come to our attention, the rate as a rule being a matter of custom, recognized by the Real Estate Exchange, Board of Brokers, or other body, as the case may be, and adhered to, except in cases of special agreement by a majority of the reputable brokers.

The subjoined table gives the rate of commission in cities of thirty-four States, the District of Columbia and Hawaii, covering practically the whole country, and the population of each city according to the last census. Our thanks are due the gentlemen who have assisted in the preparation of this table by furnishing information regarding their respective cities.

## Legislative Digest.

### AMENDMENTS TO TENEMENT HOUSE LAW.

Bill 315, introduced by Assemblyman Eagleton, would exempt from the tenement house law houses containing only three families. Assemblyman Cohalan introduced Bills 480 and 481. The first exempts from the action of the tenement house law houses of not more than three stories and occupied by not more than three families. The second confers on the Tenement House Commissioner discretionary power, so that he may modify the provisions of the law as long as its conditions are in the main fulfilled, and may remit a fine for violations of the law if he sees good reason for it.

Assembly Bill 480 is somewhat different from Assembly Bill 315. It adds to the present definition of a tenement house the following: "All buildings constructed or to be constructed not more than three stories in height above the cellar, and occupied or to be occupied by only three families—being one family on each floor and having private hall leading from the stair hall and only three interior rooms on each separate floor—Independent water closet and other modern improvements, and having an exterior court not less than 4 ft. wide to give light and ventilation to such rooms, shall not be classified as tenement houses."

Assembly Bill 481 adds to the tenement house act the following: "In matters pertaining to construction or alteration of tenement houses the Commissioner of the Tenement House

Department shall have the power, in cases where it is impracticable to follow the law or rules to the letter, to permit other modes or systems to be used, provided such modifications do not materially interfere with the intentions of the law and practically answer the same purpose. Remission of Penalties.—The Commissioner of Tenement House Department having jurisdiction, through the Corporation Counsel, is hereby authorized, in his discretion, good and sufficient cause being shown therefor, to remit any fine or fines, penalty or penalties, which any person or persons may have incurred, or may hereafter incur, under any of the provisions of this law; but no fine or penalty shall be remitted for any such violation until the violation shall have been removed. Said remission shall also operate as the remission of the costs obtained in such action."

The settlement house and relief organizations are opposing all of the foregoing measures, and especially the one giving discretionary power. They claim that discretionary power is not to be trusted. Previous to 1901 the Superintendent of Buildings possessed it, and the result was that 99 per cent. of the cases where it was exercised the law, with its reasonable requirements, was practically nullified.

The Board of Alderman on Wednesday rejected a resolution of the Board of Estimate appropriating \$10,000 in addition to the \$600,000 already appropriated for the purchase of land for municipal lighting plants. The land wanted now is on Staten Island.

# THE REALM OF BUILDING

## The Labor Situation.

An acute phase of pending disputes relates especially to the bricklaying trade. It will be remembered that on May 1, 1903, the Mason Builders' Association and the local unions of the International Bricklayers' Association signed a working agreement. The Mason Builders bound themselves not to sublet the fireproofing contract on any of their work. The unions agreed

not to work for any contractor—no matter whether a member of the Mason Builders' Association or not—who would not himself abide by all the terms of this compact. The International Union of Bricklayers at its annual convention in Trenton in January, 1904, adopted a constitutional provision prohibiting its members from exacting any such condition from builders. The New York unions, however, refused to abide by this provision and, upon its being again approved by the International Convention held in San Francisco in January, 1905, were expelled from the International Union. In December, 1905, however, the local unions, with the exception of No. 37, again signed the old agreement with the Mason Builders, and at the International Convention held in Minneapolis in January of this year, the constitutional provision above noted was repealed and the New York unions reinstated. Now the New York unions which had been expelled threaten No. 37 if they do not sign the agreement with the Mason Builders they will be branded as "scabs," with all the penalties which the stigma brings. It is understood that the order of expulsion will be promulgated to-day and go into effect on Monday.

It seems to be agreed that there will be no sympathetic strikes in support of the housesmiths. Five firms have made a compromise with the latter on the basis of \$4.80 a day, an increase of thirty cents. These firms are the George A. Fuller Co., Terry & Tench, Wells Brothers, the Thompson-Starrett Co. and Jobson & Hooker. With the exception of the Fuller Co., which is affiliated with the Allied Iron Association, all these firms are independent; and as for the Fuller Co., its action was taken with the approval of the association, given for emergency reasons. In consequence of this agreement, a great deal of iron work, here and in other cities, is again fully manned, and on the whole the situation in the structural steel line is much less critical than it was. It is significant that a committee of employers has received a committee of operatives having in view a settlement, toward which, it is believed (as indicated by the announcement that there will be no sympathetic strikes), considerable progress has been made.

## Building Operations.

### Contract for the Jno. Williams Foundry.

27TH ST.—Chas. T. Wills, 156 5th av, has obtained the contract to build the 6-sty factory addition, 100x100, for Jno. Williams, 556 West 27th st, at Nos. 536-540 West 27th st, from plans by Chas. H. Caldwell, 160 5th av.

### Six High-Class Flats for 108th St.

108TH ST.—Raphael Kurzkrok, of No. 491 Broadway, will soon erect on the north side of 108th st, 100 ft. west of 3d av, a row of six 6-sty flat buildings (high-class), 36.10x87.11, with apartments for sixteen families each, to cost about \$300,000. Chas M. Straub, of 122 Bowery, is preparing the plans. No sub-contracts has yet been made for the work.

### Provident Loan Society to Build.

GRAND ST.—The Provident Loan Society, Frank Tucker, vice-president, No. 105 East 22d st, will erect at the southeast corner of Grand and Clinton st, on a plot 25x75 ft. in size, a new business building of fireproof construction for its own use. At the office of the society on Thursday the Record and Guide was informed that no plans or architect had yet been selected or contracts let. It was also stated that building operations will not be begun for at least two months.

### Robert B. Morrison to Build Residence.

Robert B. Morrison, of the architectural firm of Dodge & Morrison, of 82 Wall st, New York, has bought a plot of ground on the east side of Garfield av, between Woodhaven and Fulton avs, Jersey City, containing about three and a half acres. On this he will erect a residence that will cost at least \$18,000. The plans are being drawn by himself, in the Elizabethan style of architecture, providing for three stories and basement, first story of stone and the second and third of frame and stucco. No awards have yet been made for the work.

### Bids for Bronx Court House.

George E. Poole, Capitol Building, Trenton, N. J., is taking figures on the 3-sty fireproof printing house, 25x75, for the Trenton Times, to be erected at 218 East State st, Trenton.

A building site it is said has been selected at Borough Hall Square, Brooklyn, for the erection of an office building for the Belmont subway syndicate. The new building will be 75x175 in size, and cost \$450,000.

E. A. Strong, secretary, trustee of the Free Public Library, Kearny, N. J., will receive plans and specifications until 8

**T**HIS illustrates the Power House of the Metropolitan Railway Company, at 96th Street and East River, New York City. It is considered, both from architectural and mechanical standpoints, one of the best examples of its class of building in this country. Among the several highly commendable features of this structure, the Ar-

chitectural Iron Work, including window frames and sashes, stairs, railings, etc., all manufactured and installed by the Hecla Iron Works, stands out boldly as a master specimen of mechanical handiwork.

Bailey, 1144 Fulton av, Brooklyn, \$799,899; James Molloy & Co., Bath Beach, L. I., N. Y., \$710,071.

## BUILDING NOTES

A new recreation pier, to be erected at the foot of East 49th st and the East River, Manhattan, was reported favorably by the Assembly Cities Committee at Albany on Feb. 13.

The work of taking down the structures at Nos. 165 and 167 Broadway, the Smith Building, at Nos. 15 and 17 Cortlandt st, and the old Coal and Iron Exchange Building at Cortlandt and Church sts, on the southeast corner, over which the New City Investing Building will be erected, will begin on May 1.

It is reported that the Mount Morris Bank Building, at the northwest corner of Park av and 125th st, has been sold to the New York Central Railroad. If this is correct, the railroad now owns both sides of Park av, from 125th to 126th st. M. Schwan, an officer of the bank, denies that the sale has been made, but admits that the railroad has been making offers.

Borough President Ahearn advises the city to abolish team tolls on the Brooklyn and Williamsburg bridges, and throw them open to trucks and vehicles. At a meeting of the Board of Aldermen on Wednesday he offered a resolution embodying this plan, which was referred to a committee. Last year the tolls received at the Brooklyn bridge amounted to \$74,115.

A new law of the American Institute of Architects provides that an "architectural draughtsman who is over thirty years of age, who shall have fulfilled all the other requirements of Associate Membership, may, in the discretion of the Board of Directors, be recommended for Associate Membership, and may be elected as provided in the case of candidates for Associate Membership."

The International Congress of Architects will meet in London July 16 to 21, 1906. Their sessions are triennial. The first three meetings were in Paris, the fourth in Brussels, the fifth in Paris, the sixth in Madrid. "Any architect in the United States in good standing may become a member of the Congress by paying his fee of \$5." Members desiring to attend will send in their names to the Secretary of the A. I. A., who, it is suggested, may arrange for them to go out on the same ship.

The tenth annual dinner of the Real Estate Board of Brokers will be held at the Waldorf-Astoria Saturday evening, Feb. 24, 1906, at 7 P. M. President David A. Clarkson, of the board, will preside and Mr. Francis E. Ward will act as toastmaster. Among the guests and speakers secured by Chairman Charles E. Schuyler are the following: Judge James Fitzgerald, of the Supreme Court; Corporation Counsel John J. Delany, President Bird S. Coler, of the Borough of Brooklyn; Hon. Martin W. Littleton, Congressman J. Van Vechten Olcott, Mr. Lawson Purdy and Mr. B. Aymar Sands, president of the Allied Real Estate Interests of the State of New York. Tickets for the dinner can be purchased at the Board Room, 156 Broadway.

The Ludowici Roofing Tile Co. and the Celadon Roofing Tile Co. have merged their interests. The merging corporation will be known as The Ludowici-Celadon Co., officers for which will be announced in the near future. This consolidation brings into one company the two largest roofing tile manufacturers in the country—leaders in their product and for many years fierce rivals. The united strength of the two organizations exceeds the resources of all other roofing tile concerns in the United States combined. The maintenance of four large factories—at Chicago Heights, Ill., New Lexington, O., Ludowici, Ga., and Alfred, N. Y.,—will prove of vast importance in the rapid distribution of material, and at the same time enable the Ludowici-Celadon Co. to meet architects' and engineers' specifications with any quantity of roofing tiles, of any shape, in any color, at any time.

The National Elevator Co., 400 West 23d st, has recently closed contracts for electric passenger elevators with the following firms: Leopold Kahn & Bro., 317 West 83d st; Slawson & Hobbs, 201 West 78th st; three for W. G. Piguero's new 18-sty building on Stone and Pearl sts; one for the Jersey City Hospital; one for the James Reiley Co., 161 W. 47th st; one for Joseph Davis, 503 West 121st st; two for the Oak Realty Co., to be installed in the annex of the Hargrave Hotel; one for Alex. L. Felt, 147 West 26th st; one for Charles R. McLaughlin, at Broadway and 142d st; one for Brill Bros., at 57 Reade st; two for Robert J. Mahoney, contractor for the Hudnut Realty Co., 113-117 East 29th st; three electric passenger elevators for the Interborough Building Co., Broadway, 140th and 141st sts; three large electric freight elevators for the Brunswick-Balke-Collender Co.'s factory, in Long Island City; two electric freight elevators for General Supply & Construction Co., contractors for Geo. C. Boldt's garage, corner 62d st and Broadway; one electric passenger elevator for Andrew J. Robinson Co., contractors for the American Express Co.'s building, 46-48 Trinity pl, and one direct connected freight elevator for the Western Electric Co., Washington and Bank sts, New York City.

### A Specific Case.

THE better class of flats which are being erected in the Bronx, costing from \$35,000 to \$40,000, as I am informed, contain from 20 to 22 apartments of five rooms each, or, say, one hundred rooms. These apartments rented at from \$4 to \$6 per room per month before the mortgage tax was put on, according to size and location; but the owners of these buildings are now asking from \$4.50 to \$6.50 per room per month, thus adding 50 cents to each room, or \$50 per month, or \$600 per year, to the rental of the building.

The builders borrow about \$35,000 on mortgage on their property, if it is well located, and are compelled to pay ½ of 1 per cent. interest for the loans, in addition to former rates of interest, or \$175 per year; whereas the poor tenants are compelled to pay to the landlord \$600 additional per year. This is the exact result which followed the imposition during the war of a tax upon the street railroad companies of ¼ of 1 cent upon each passenger carried. The railroad companies immediately raised their fares from 5 to 6 cents, and thus the passenger was compelled not only to pay the tax, but 20 per cent. more fare, and the railroad companies made the large additional profit.

It may be claimed that the reason for raising the rents in the Bronx is the increased value of land and cost of building, but there are two answers to that suggestion. The great rise in values of real estate took place long before July 1, 1905, and the cost of building was about the same as now, and, in addition, there have been hundreds, if not thousands, of buildings erected, so that the supply is quite up to, if not beyond, the demand.

Again the question arises, Has the rate of interest increased by reason of the tax, and, if so, who pays the tax? I can speak from absolute knowledge and experience upon this subject. There have not been as many applicants for loans in the Bronx since July, 1905, as previously. I have only made quite a number, ranging in amount from \$3,500 to \$18,500. Every one of them has been made at 5½ per cent., where I have not previously in ten years made one at more than 5 per cent. Many of my clients are non-residents of the State, and were not previously subject to taxation on personal property; but they all insist upon having 5 per cent. clear, and therefore they pay the tax, but add it to the rate of interest in every case.

ERNEST HALL.

## Mr. Schwab's Great House Nearly Finished.

Interest in Mr. Schwab's million-dollar mansion is renewed owing to its near completion. In a few weeks the owner expects to take possession. Work was much delayed in its early stages by strikes and lockouts. Ground was broken in July, 1902. For the site Mr. Schwab paid \$865,000. Maurice Hebert, of the Astor Court Building, is the architect.

The disposition and planning of rooms of the first and second stories were made according to Mr. Schwab's ideas, so as to produce a very comfortable and artistic home. For the interior, as well as for the exterior, the architect went to masters of past generations for his compositions, and Mr. and Mrs. Schwab selected the period or style for each room, according to their artistic inclinations.

The main hall, staircase and reception hall are Francis I., the keynote for this composition being from the interior of the Chateau of Blois. The main hall is 2½ stories high and is surrounded by a circular gallery and arcade, which leads to all the principal rooms of the second floor and to the chapel, which

## A Suggestive Plan for Legislation to Prevent Rebates and Discriminations in Interstate Commerce.

On the 22d of March last the Committee on Railway Transportation of the New York Board of Trade and Transportation approved the principle embodied in a suggestive bill drawn by Frank S. Gardner, the Secretary of the Board, which was designed to prevent rebates and discriminations in interstate commerce. The central principle has been generally approved, but its application has been criticised. Some of the criticisms have been deemed to be valid and the author of the bill, assisted by Henry E. Tremain in the capacity of counsel, has endeavored to effectually remove all just cause for objection. If the fact of a rebate or discrimination is established to the satisfaction of the Interstate Commerce Commission, the net rate so made by the carrier becomes immediately the published tariff rate open to all shippers alike. If, within sixty days, the carrier appeals from the finding of the Commission the new rate then being in effect so continues to the termination of the appeal and for one year unless the Court, influenced by manifest errors of law or fact, issues a preliminary injunction. But in view of the clear

Maurice Hebert, Architect.

contains a large organ and decorated glass windows, which can be seen from the entrance hall.

The library, which is Henri II., is taken from Fontainebleau, and the historical mantel of the celebrated gallery Henri II. is adapted to its composition. The parlor is Louis XVI. and taken from the Petit Trianon, with introduction of tapestry panels designed by Boucher. The dining room is Louis XIV. and will be decorated with Gobelin tapestries composed from antique tapestries of the time of Louis XIV., representing the four seasons and "Abundance." A large conservatory has been arranged to form part of the dining room. The art gallery, which occupies the northeast wing, will be one of the most beautiful rooms of the house, with Louis XIV. decorations. The smoking room is Flemish, the breakfast room Louis XIII. and the billiard room Henri IV. The rooms of the second floor are to be finely executed in Louis XVI. style, while the rooms of the third floor are to be in style Regence. Some of the most important decorative and artistic work will be executed in France, Spain and Italy by the best artists.

### Notice.

Messrs. White, Van Glahn & Co., 15, 16 and 17 Chatham Square, the oldest and best known Builders' Hardware House in New York City, announce that, while other dealers and manufacturers of Hardware have advanced their prices, they are (owing to the enormous stocks of goods purchased prior to these advances) still able to make contracts for Builders' Hardware at the old prices.

intent of the act the issue of such injunctions would be of rare occurrence, though possible to protect the carrier from manifest injustice and hardship as the result of palpable error or wrong doing by the Commission.

In the latter event provision is made for summary proceedings for eliminating, in the discretion of the Court, formal pleadings, and in case the necessity arises for taking new evidence the Court may, in its discretion, refer the taking of such new evidence to the Commission and for consideration and opinion thereon. If an injunction prevents the imposition of the rebated rate until the decision of the appeal all shippers injured in the interim are reserved the right of damages which may be recovered from the offending road. The criticism that the innocent and the guilty are punished alike has been met fully in the third section by giving to all competing roads injured by a reduced rate, illegally made, the right of damages against the road or corporation by whose act the rate was reduced. This feature will enable all competing roads whose rates have been reduced to collect damages from the cutting road.

The issue of municipal bonds awarded by Controller Metz this week will yield an average of 3.65 per cent. to the purchasers, as against 3.4905 on the last sale of bonds, Nov. 27; and for the first time in twenty-five years the city sold on a 4 per cent basis. The bulk of the issue, nearly \$13,000,000, goes to a syndicate composed of J. & W. Seligman & Co., the National City Bank, the First National Bank, N. W. Halsey & Co. and Lee, Higginson & Co. The total amount is \$20,000,000, redeemable Nov. 1, 1955.

# DON'T GUESS

A Real Estate Information Service is as necessary in a Real Estate Broker's office as the ticker in the office of a Stock Broker.

A personally maintained Service is inefficient and inordinately Expensive compared with a Big Central Cooperative Service. The Biggest Service is the best, because the advantages of Cooperation are centered there on the biggest Scale.

The RECORD & GUIDE to-day supplies thousands of Brokers and others with information—has been doing so for a generation. Its own records cover the history of ALL transactions of every kind in New York for forty years, and in addition to these it has a COMPLETE PLANT that includes the previous period.

Obviously the RECORD & GUIDE possesses FULL information covering ALL particulars concerning real estate. Other systems are necessarily either partial or mere second-hand abstracts of the records which the RECORD & GUIDE has been gathering and publishing in the course of its forty years' history.

If you need Real Estate Information don't guess. Don't use personal Systems. Don't use partial Systems. Don't use temporary Systems that must be fragmentary and Second-hand. Don't use Systems built for the use of a Few, and that offer you scarcely any of the advantages of cooperation.

# USE

THE RECORD and GUIDE BUREAU OF REAL ESTATE INFORMATION. The oldest, the largest, the most permanent, the best equipped—a Service that can serve you TO-DAY and TO-MORROW on a progressive plan.

### REAL ESTATE NOTES

Louis V. O'Donohue, real estate and insurance broker, has changed his offices from 3 West 42d st to 25 West 42d st.

A recent count for twenty-four hours on the Williamsburg Bridge showed 55,327 passengers coming to New York, 55,859 going to Brooklyn.

At a meeting of the Board of Governors held Feb. 13, 1906, Mr. William E. Davies, of the firm of Maclay & Davies, 67 Wall st, was elected a member of the Real Estate Board of Brokers.

Sachs & Co. were the brokers in the sale of the two lots on the east side of Amsterdam av, adjoining the corner of 87th and 88th sts, sold to the Rosenzweig Realty & Operating Co. for Mrs. A. B. Crane.

The City Mortgage Co. has loaned to the Automobile Club of America \$350,000 on the property situated on the north side of 54th st, 81.3 ft. east of 8th av, 131.3 ft. front by 100.5 ft. deep, where the club is to erect a 6-sty club house and garage.

The Hudson Realty Co. has elected officers, as follows: Maximilian Morgenthau, president; Henry S. Herrman, vice-president; Samuel E. Jacobs, treasurer, and James Frank, secretary. Samuel J. Bloomingdale was elected a director of the company, to fill a vacancy in the board.

Dr. A. T. Sanden, of 144 West 77th st, New York City, has purchased through H. Lee Walker, of Goshen, the Fred B. Seely farm, near Goshen, Orange County, and will take possession March 1. The farm contains 208 acres and is locally known as one of the choicest acreages in that productive section.

Joseph P. Day, the well-known real estate auctioneer and appraiser, is now occupying his new and handsome offices in the National Bank of Commerce Building, 31 Nassau st, Suite 700 to 704, to which he removed last Thursday. Mr. Day's successful semi-monthly sales of realty at the Exchange have become popular with the speculative public, and much to the pleasure

of the parties in interest. The sales include parcels under foreclosure, partition and voluntary.

Woodbury Langdon has sold his property, about 175 lots, on Riverside Drive (Boulevard Lafayette), extending from 177th st (Depot lane) to 181st st, and reaching back from the drive to a line midway between (proposed) Buena Vista and Haven avs. The property has a frontage of 1,220 ft. on Riverside Drive opposite Fort Washington Park, and has a large dwelling house, with stable and other buildings. Mr. Langdon bought the place in 1899. It is bounded on the east by the O'Connor property, now owned by the Fort Washington syndicate. Mr. Langdon's asking price was nearly \$500,000.

### Growth of Queens Realty.

Syndicates representing many millions of dollars have been formed for the purpose of purchasing real estate in every section of Queens. Hundreds of acres are in course of subdivision, and many plots which have been laid out are being retailed to investors and homeseekers. The five-cent fare to the city line, coupled with the new Belmont tunnel and the Blackwell's Island Bridge—which will bring the most eastern point of Queens Borough within twenty minutes of the plaza in Manhattan—has had a wonderful effect in the development of new settlements, which are growing as if by magic.

One of the most important factors in the upbuilding of these places is the high rents obtaining in Manhattan, which, according to figures issued by the School Commissioners, reveal a depopulation in Manhattan of over 30,000 souls, which have drifted to the suburbs. The enormous amount of business being transacted has occasioned the establishment of branch offices in Long Island City by the large title companies of Manhattan.

The Brooklyn Rapid Transit Co. is now taking estimates on the general contract for two sub-power stations, one to be located at Beech st, Richmond Hill, L. I., and the other at Av J, Canarsie, L. I.

### Lease of a New Building on Fifth Avenue.

William Knabe & Co. have leased for a long term of years from "Raimon," of Paris and New York, the 11-story building, now nearing completion, at the southeast corner of 5th av and 39th st, of which a picture appears herewith. Messrs. Knabe

& Co. will occupy the ground floor and basement for their piano warerooms. The lease was negotiated by S. Seward Gould, of Ogden & Clarkson, and that firm has been appointed agent for the management of the building, which will be called the Knabe Building. The Thompson-Starrett Co. was the general contractor, and C. P. H. Gilbert the architect. Horace A. Hutchins, of the Standard Oil Co., is the owner.

### Interborough Rapid Transit Company Test of Subway Engines.

An interesting official fifteen-hour test of one of the nine twin vertical-horizontal Reynolds Corliss engines, cylinders 42 ins. and 86 ins. by 60 ins., in operation at the 59th street station of the Interborough Rapid Transit Company, New York City, was recently concluded. The tests were conducted by the Interborough Rapid Transit Company and representatives of the Allis-Chalmers Company as a final determination of the fulfill-

ment of the builder's guarantee formally provided for in the original contracts.

How well the tests of engine No. 8, which was selected as representing all the engines installed, fulfilled the claims made for it, may be readily ascertained from the following data giving a synopsis of the completed tests. As per agreement, on account of the impossibility of keeping a constant load, the power was determined by the readings of tested integrating Wattmeters. These readings were reduced to I.H.P. by running the generator as a synchronous motor, adding the electrical input to the switchboard readings when developing power to obtain the power exerted by the engine.

The result of the test so made, under conditions approximating the contract requirement of 7,500 HP., 75 R.P.M., 175 lbs. steam pressure and 26-in. vacuum, was a consumption of 11.96 lbs. of dry saturated steam per I.H.P. hour, or well within our guarantee of 12.25 lbs. The steam consumption per KW. hour at the switchboard was 17.34 lbs.; Duration, 15 hours; load, 5,079.2 KW.; friction and generator losses, 417.3 KW.=559.41 HP.; total load, 5,496.5 KW.; I.H.P., 7365.3 HP.; R. P. M., 75.02; steam pressure, 175.18 lbs.; R. H. receiver, 19.1 lbs.; L. H., 19.27 lbs.; vacuum, 26.02 lbs. (actual); temperature injection water, 42.36 degs.; temperature R. H. discharge, 74.05 degs.; temperature L. H. discharge, 77.38 degs.; barometer, 30.50 lbs.; water per hour, 89,906 lbs.; drips per hour, 512 lbs.; leakage per hour (boiler), 1,470 lbs.; boiler level correction, 60 lbs.; net water per hour, 87,864 lbs.; quality of steam, 100.28%; dry steam per hour, 88,110 lbs.; dry steam per KW.H., 17.34 lbs.; dry steam per I.H.P., 11.96 lbs.

The tests were under the supervision of Frank N. Waterman, who acted as referee. The following represented their several companies: Interborough Rapid Transit Company, H. G. Scott, superintendent motive power; J. Van Vleck, mechanical engineer; H. W. Butler, principal assistant engineer; Thomas Allsop, mechanical engineer, 59th street power station; C. W.

## Record and Guide Quarterly

The annual number of the Record and Guide Quarterly contains all the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations. These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments; also by a list of realty corporations created during the past two years, with officers and the enterprises in which they are engaged. The whole makes a volume of reference which no real estate man can afford to be without. It should be on every desk and in every library. Its cost is as nothing compared to its value as a time-saver. This important work can be obtained, with three quarterly numbers, for the comparatively small sum of \$20. It is published by the Record and Guide, at Nos. 14 and 16 Vesey St., where interested parties may see it and have its uses explained to them. If you cannot call, drop a postal card to the Publisher, or call him up on telephone, 3157 Cortlandt.

## CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, the mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A \$20,000—\$30,000 indicates the assessed value of the property, the first figures being for the lot only, and the second figures representing both lot and building. Letter P before 2d figures indicates that the property is assessed as in course of construction.

February 9, 10, 13, 14 and 15.

## MORTGAGES

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

February 9, 10, 13, 14 and 15.

A Complete Real Estate Information Service

THE RECORD AND GUIDE is completing arrangements for a *Complete Real Estate Information Service*, which will cover every item of real estate news required for real estate transactions of any kind. The requirements of Brokers, Auctioneers, Owners, and others have been very carefully investigated, and the leading members of the real estate profession are unanimous in their opinion as to the need that exists for a really complete, prompt and accurate service.

The RECORD AND GUIDE will be glad to receive suggestions as to requirements from any of its readers. The purpose of the contemplated service is entirely professional, and is aimed to assist the working of Brokers' offices, perfect existing methods and reduce operating expenses.

If the information required affects real estate, the RECORD AND GUIDE hereafter by its new service will supply it.

Further details of plan and scope will be announced shortly.

JUDGMENTS

In these lists of Judgments the names alpha-  
betically arranged and which are first on each  
line, are those of the judgment debtor. The let-  
ter (D) means judgment for deficiency. (\*)  
means not summoned. (f) signifies that the first  
name is fictitious, real name being unknown.  
Judgments entered during the week and satisfied  
before day of publication, do not appear in this  
column, but in list of Satisfied Judgments.  
The Judgments fled against corporations, etc.,  
will be found at the end of the list.

THE Mortgage Tax Law, which took effect July 1, 1905, has proved to be one of the most unsatisfactory measures that has been on the statute book in recent years. It has been already pointed out by the Register of New York County that for several weeks prior to the first of July new mortgages in enormous number were made and recorded, a large part representing contemplated transactions, which were thus anticipated for the purpose apparently of evading payment of the mortgage tax. Other transactions which followed were on the principle of avoiding payment of the tax until it could be repealed. No doubt remains as to the sentiment in New York City, the Metropolis being unqualifiedly in favor of repealing the annual tax, and up-State sentiment is almost identical with that which prevails here. Protestation is strongest in the cities where building operations are most active, as the tax has been perceived to be a hindrance to such operations, by raising the interest rate and so increasing the carrying charges. Building construction has, in many instances, been suspended or entirely abandoned, on account of the law. A similar condition prevails in rural localities where the antagonism to the tax is greater than last year. It was contended by the opponents of the law before it passed that it would have the effect of raising interest rates. Many farmers throughout the State refused to believe that this would be the case, and relied upon the opinion of the state executive that so much new money would be attracted to the market that interest rates would not rise. The fact that interest rates have risen has resulted in a decided change of sentiment in the rural districts, and in such counties as Cattaraugus, Chautauqua, Fulton, Herkimer, Steuben, Orleans, Montgomery, Genesee, Lewis, Chenango, Yates and Seneca, all of which are agricultural regions, and where aggressive action has developed for the repeal of the tax. Moreover, a number of the new assemblymen elected last spring to take the place of legislators who voted for the bill are quoted as opposed to the measure, and as being desirous of its modification, if not repeal.

ELSEWHERE in this issue we publish a letter from Mr. Isaac A. Hopper, the former head of the Building Department. Our correspondent approves of certain ideas which have been expressed in these columns in regard to the revision of the Building Code. Evidently he thinks, as does the Record and Guide, that a Building Code can be made upon a principle other than the one that has operated in the past. The old method dictates to the architect and the builder more or less precisely how a building shall be erected. It is a sort of legal specification which everybody is required to follow. It commands, in substance, that so many bricks shall be put here, so many there, such and such material shall be used in this position, such and such others in that. It is a motherly sort of law. It treats architects and builders as though they were a little deficient in their thinking apparatus and decidedly wrong in their morals. Perhaps the real beauty of the whole scheme is that it affords endless opportunities for graft. It acts as an impediment to invention and improvement. Let us suppose a new building material is introduced, say, to-morrow. Suppose

it is a great improvement over anything that is at present in use. Can the architect and the builder adopt it freely? Nothing of the sort. The new material is not yet recognized by the law. The first thing that has to be done is to obtain the legal approval of the Building Department. Will this be granted? Possibly! Possibly not! Now, mind you, the Building Department, as is the case with other city departments, is not a bit more immoral or less intelligent than the rest of us. Government everywhere is an institution of averages, and people who throw stones at their officials are really casting reflections upon themselves. No doubt commissions inquiring into the conduct of our city government from time to time have not revealed any very edifying spectacles; but were the pictures any more smudgy than those disclosed by, say, the Insurance investigation? It will be difficult to affirm this. No doubt some people have a fine capacity for distinctions, but the ordinary man finds it hard to see wherein the commercial code of our most conservative financiers differs from the official code of, say, our police captains. This being the case, it is easy enough to guess the exact kind of impediments that are likely to stand in the way of the introduction of new building materials or improvement in building matters so long as we have a law that dictates to the architect and builder more or less exactly what he may use and exactly what he must do, leaving it, however, to official discretion to modify and amend. We believe it is worth considering whether the Building Code cannot be constructed upon a different principle. Can we not have a Building Code composed entirely or largely of general requirements? Then, as Mr. Hopper says, "Let the architect and builder prove their fitness, and give them a free hand, and hold them responsible. It is not more building laws or restrictions that we want, but rather a fair field and full competency of those in charge." Mr. Hopper is certainly a competent witness. He is a builder of large experience, and—has been at the head of the Building Department.

THE Chinese wall that has gradually been built around the building trades of New York City is now to be attacked in the courts. The National Fireproofing Company has commenced suit against the Mason Builders' Association and others in order to discover whether the wall is a legal structure. Some people consider a trade enclosure of the kind a very proper edifice. If this be really the case, and we can only get this new trade-device talked about loudly enough, the entire country will be put in possession of advantages upon which New York City has so far enjoyed a sort of patent. Boston will then "get together" and shut out any builder or building material firm that hails from New York City, Chicago will prohibit Boston, and Philadelphia will anathematize both. "Restraint of trade" will become a recognized principle for making money in every locality in the land, and we doubt not everybody will be made very much happier thereby.

It has been said, "We are all Socialists" to-day. It may also be said that "we are all members of some sort of a trust." Indeed, it is getting to be the case that the institutions which are denounced as "trusts" are not the only trusts or even the most thorough trusts. There are the unnamed trusts. For instance, the building trades are literally honeycombed with trusts—little and big. But they wear such a demure innocent look in public that no one would think they could even spell the word "Trust." Nevertheless, the Unions and the Employers alike are working the "Trust principle" for all they are worth. Each is putting upon the other all pressure possible in order to create a tyrannical counter over which the public must trade, paying whatever price is demanded for goods required. It will, indeed, be a strange bit of irony if by-and-by it comes to pass that a concern like the Standard Oil Company will stand forth as a model among trusts for frankness and generosity. Certainly to-day that company is scarcely less open and obvious in its conduct than many another institution that is in reality working double tides upon the exclusive line of action. Some people think the trusts are permanent institutions. Certainly, the trust may well be a logical extension of the aggregating process which began in business many years before the trust was heard of, and produced at first the partnership, then the corporation. It may be that in the long run the entire world will be divided into two classes—the "trusted" and the "busted." But while the process is being carried out, why cant about it? The labor unions are big trusts. Their methods and their morals are not one whit cleaner or better than the morals of any other big trust. The builders of this city constitute a species of trust, every finger of their hands, so to speak, being linked with some trade or industry for "protective" purposes. Even the National Fireproofing Company itself is essentially a trust.

Surely there is a sad lack of humor when individuals of the same persuasion begin to call one another names, and then go to Court, appealing to Justice, for the very rights they are struggling to deny to others. Some people will probably feel it is best to laugh at the situation. Others will experience a sense of sickness. In reality, it is to laugh!

### Mortgage Tax Revision.

IT seems to us that half a loaf might be better than no bread, if the hoped for repeal should not be feasible. It is, of course, understood that all persons interested in realty are opposed to any tax in principle which not only lays a double burden on one thing, and in addition lays that burden on the same person in fact, the owner. It must be a dull eye which has not already perceived that either by increase of rate in mortgage interest, or expenses provided for in the arrangement for obtaining the loan, that the tax is fully covered, and its payment laid upon the borrower and owner of the land. But, on the other hand, blood has been tasted, and it will be hard to get the tiger (or the elephant, rather) to let go, and again, when a party is asked to recede from even an untenable position, it likes to save its face—even a Chinese party, which is pre-eminent as an example of continuous backing-down, and whose national emblem might well be the figure of a bear in the position of "un-climbing" a tree.

So to us it would seem that those interested in the hoped-for repeal, and in whose charge its accomplishment rests, might well have a compromise such as the very practicable one suggested by the resolution of the Allied Real Estate Interests, set forth in the Record and Guide of Feb. 10th last, to compromise on a recording tax of some amount laid once and for all on the inception of the mortgage loan and paid on its record. Let us first consider what it would effect. In the resolution is embodied the statement that \$750,000,000 of mortgages are recorded annually in the Boroughs of Manhattan, Brooklyn and the Bronx, and some \$250,000,000 throughout the rest of the State, making a total of \$1,000,000,000 on which a recording tax of one-half of one per cent. laid once for all would produce a revenue of about \$5,000,000, and this net, without any wasteful machinery or expenses of any kind whatsoever involved in its collection.

Again, the life of a mortgage, particularly in New York City, from where must ever be derived the bulk of the revenue from this tax, is seldom in the average above three years, or five at the most. For real estate changes hands rapidly there, and there is rarely a sale without readjustment of mortgage conditions. Thus, even assuming at the highest a recording tax of even one per cent., half of it is now included and charged in the expenses of every loan arranged, and the succeeding years provided for in the almost universal increase over former loaning rates of  $4\frac{1}{2}\%$  to  $5\%$ , and of  $5\%$  loans to  $5\frac{1}{2}\%$ , so the borrower would be no worse off, and the State would receive in the net probably more on a one per cent. recording tax laid once and for all and with no deductions for "gods of the machinery" than is now possible.

The advantages to Realty as a whole, even at this high rate of "commutation of sentence," are obvious; mortgages once recorded and tax paid, become the most desirable form of investment possible; money which it had been hoped would flow into this channel under the provisions of the present law, as offering advantages over the greater dangers of an almost prohibitive tax suspended over all heads as an axe by a hair, under the general Personalty Tax, and which has not, by reason of the cumbrous system employed, and the danger so baldly stated of complete confiscation and sale in the event of arrearage, would henceforth be tempted with an absolutely tax-free investment.

To illustrate the state of mind of the average mortgage holder, under the former Personalty Tax and the new Mortgage Tax Law: A widow, with family (it is and always will be the non-combatant and helpless who suffer), with a few small mortgages held as a source of income, running at  $5\%$ , was taxed under the Personalty Law, and her five per cent. of income cut to about two and three-quarters—virtually one-half her income contributed to Government support, and she with no business or other means of livelihood! When the new law came, and we thought she would now be able to shift these loans to a half of one per cent. tax instead of two and a quarter, and be a great gainer, there rose up the spectre of FEAR. Yes, that woman, and how many are like her, would not institute the proceedings for the necessary change, lest, as she had been told, she might, if anything went wrong in paying the tax, lose the mortgages altogether by confiscation and sale for the tax.

And this bogey alone would even keep the present law un-

popular! A mortgage that it is not safe for a woman to hold lest it be sold and lost to her unwittingly by tax forfeiture, and which requires a title company to watch and protect it annually, is not going to become a popular investment. Now would seem to be the opportunity for good and all to get a fair adjustment of this troublous question of mortgage tax settled. And if it be possible to so adjust it, so that by avoidance of cumbrous departments and incidental salary rolls, the State can be given "all there is in it," while the investor both in mortgage and land can feel that he has henceforth, after initial payment, a tax-free investment, a great step forward will have been taken for Real Estate.

### The Simplest and Safest Way.

#### MR. HOPPER'S VIEWS UPON REVISING THE BUILDING CODE.

To the Editor of the Record and Guide:

My Dear Sir: I have just read with much interest your article of the 10th inst. on "The Revision of the Building Code." Your reasoning is in the right direction, and should receive very serious consideration by all interested in real estate and building. As matters now stand, the charter provides the way for the appointment of the commission, which is left free to recommend what it thinks best. Let us hope and try to show them the simplest and safest way to treat the subject.

The suggestion in your article meets my views exactly. Let the architect and builder prove their fitness, then give them a free hand and hold them responsible. It is not more building laws or restrictions that we want, but rather a fair field and full competency of those in charge. Yours truly,

Orlando, Fla., Feb. 20, 1906. ISAAC A. HOPPER.

### For and Against the Murphy Bill.

To the Editor of the Record and Guide:

The purpose and scope of the Murphy bill to license real estate brokers is wholly out of keeping with the business conducted. If a bond is necessary, it should be ample to cover any possible contingency, and in some instances \$5,000,000 would not suffice. As a rule, the broker is not the custodian of the funds of the contracting parties. The buyer holds on to his greasy wad until the instant of passing title, at which time the vendor receives the money out of hand. If a broker retains any portion of rents collected, he is guilty of larceny (Penal Code, Section 528), and the punishment provided is swift and sure. The license fee of \$250 per individual would do much toward enriching the city treasury, but brokers are assessed on realty and personalty at the same rate as other people, and should not be mulcted on other counts. The measure would benefit the established brokers, but would freeze out many quite as worthy but impecunious beginners. Legislation may not be invoked to abridge the opportunities of the poor, and any such enactment would be in conflict with Article XIV., Section 1, of the Federal Constitution, which provides that "no State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

If this objection does not appeal with sufficient force, take Section 6 of the Murphy bill, viz.: "It will be a complete defense to an action for the collection of a commission or fee for the buying, selling or leasing of real estate that the provisions of this act have not been complied with by the person maintaining said action or by his assignor," and contrast it with that part of Article 1, Section 10, of the Federal Constitution, which provides that "no State shall pass any law impairing the obligation of contracts." Pawnbrokers and auctioneers are required to take out licenses and give bond; but, in return, are granted privileges extraordinary. The pawnbroker is permitted to charge interest at the rate of 3 per cent. per month, and he holds the goods until charges are paid, and the auctioneer is a bailee, with personal property delivered into his possession, to sell and receive payment therefor. All payments to an auctioneer are considered payments to the principal, and he has a lien on the goods or proceeds until his charges are paid. Auctioneers who sell only farm property are not required to give bond.

In various States efforts have been made to license and bond—or restrain—merchants and brokers doing business on a commission basis, but the enactments (except in instances where brokers handle dutiable goods) have been declared unconstitutional, or, like the Litchard bill, presented in our own Legislature several years since, have failed to pass. When the Legislature passes an act ostensibly for the public safety, but which is inappropriate for the purpose, and which interferes with the rights of citizens, it is within the province of the courts to determine this fact and to declare the act violative of the constitutional guaranties of those rights. The Appellate Division, Second Department, recently exercised this function in nullifying the "written authority" act, and may soon have another opportunity to render similar public service.

## Three-Family Houses.

### REPRESENTATIVES OF BUILDING AND REAL ESTATE INTERESTS APPEAL FOR MODIFICATION OF TENEMENT HOUSE LAW.

To the Editor of the Record and Guide:

The several organizations of property owners, architects, builders and real estate men interested in land of the outlying boroughs of this city have resolved to do everything in their power to amend the Tenement House Act, for the purpose of relieving three-story and three-family houses from the operation of tenement house law. A representative committee, consisting of Charles Baxter, architect; Thomas Graham, architect, and Philipp Freudenmacher, builder, went to Albany this week to request the Legislature to pass a suitable bill to accomplish this purpose.

The present law makes it almost prohibitory to improve land with small dwellings of this class. With the increased value of land and improvements, two-family dwellings (which are exempt from operations of tenement law) are not a paying investment. With the relief asked, hundreds of three-family houses would be built, and these would give profitable returns. The law, as it now stands, imposes nearly the same exactions on three-family three-story dwellings as for a tenement house containing thirty families; and we contend that every reasonable encouragement should be given owners and builders to erect this class of improvement, in view of the fact that it will give desirable residences to that large proportion of respectable tenants who do not wish to live in tenement houses.

Respectfully yours,

THOMAS GRAHAM, Architect, representing Real Estate Owners and Builders' Association, 2269 Washington av.

CHARLES BUEK, Architect, President Real Estate Owners and Builders' Association, representing the association in the Board of Examiners of the Department of Buildings for the five boroughs, No. 500 5th av.

## Legislative Digest.

Assembly Bill 405 proposes to require fire insurance companies to pay the full amount of insurance upon property when such property is totally destroyed by fire. When a general officer of one of the largest fire insurance companies was asked by the Record and Guide his opinion of the measure he answered to this effect:

"This bill, at first reading, would impress those not interested in our business as being a reasonable condition, but when one considers what it really means it will be found to be very greatly against public interest.

"It is quite easy to get out insurance on property for an amount in excess of its real value, either through a policy in a single company or by securing insurance in several companies; and if, when the property burns, accidentally or otherwise, the insurance companies are called upon to pay the face of the policies, regardless of the actual value of the property, such dangerous speculation needs no comment.

"Great danger and injustice might be imposed upon property which may be exposed by or contiguous to a risk insured for more than its value. Furthermore, it often occurs that at the time insurance is placed upon property the amount is in proper proportion to the value, but through deterioration, removal of goods or other changes the value can easily be made much less than the amount of insurance. This bill, if it should become a law, would be very instrumental in easily defrauding honestly managed fire insurance companies."

Property owners and builders in the suburbs are reported as generally in favor of the bill to relieve 3-sty and 3-family houses from the provisions of the tenement house act, and it is said that, with the relief sought for, a great many such dwellings would be erected, as there would be no difficulty in renting them on good terms to high-class tenants. An architect remarked that every reasonable encouragement should be given owners and builders to erect this class of improvement, in preference to the 5 and 6-sty tenements built to accommodate 20 to 30 families each. On the other hand, as indicated in this paper last week, the settlement and welfare organizations are strenuously opposing the measure.

In view of the well known policy of the Governor and the Legislature not to extend the life of dormant charters for public service corporations, it can be assumed that the New York and New Jersey Bridge Company will pass out of existence on the first of January, 1907, after an existence of seventeen years. Constituent elements in the old company included, besides a

number of up-State politicians, such as Assemblyman George W. Greene, of Orange County, several persistent and experienced "bridge builders," not in a technical way, but from the promoters' side of the business. From every available headland along the Hudson between Kingston and Hoboken, a bridge company has been "projected" in times past, but only one bridge out of the whole number is visible to mortal eye. Poughkeepsie's viaduct, built on faith and private subscriptions, for a long time had no railroad connections; the trunk lines ignored it until it was on the bargain counter. The "Storm King Bridge," the Rhinebeck and Kingston Bridge, the Fort Montgomery Bridge, and others, were all "paper" enterprises of the long ago; fierce and prolonged was the rivalry between them, but Poughkeepsie was the only town which died game—literally dead broke—spending her last cent for what has yet profited her nothing. The New York and New Jersey possesses little except a charter and a long list of distinguished directors, but a project more certain of fulfillment is that which the Senate of New Jersey passed upon favorably this week in the form of a resolution for the appointment of a joint commission from New York and New Jersey to inquire into the advisability of building bridges over the Hudson River from Hoboken and Jersey City to New York. A companion bill has been introduced in the New York Senate.

The Assembly has passed Mr. Stanley's bill compelling the New York Central Railroad to depress its tracks on 11th av. Senator Saxe's similar bill was on the third reading calendar in the Senate, but was not reached. He will endeavor to have Assemblymen Stanley's bill substituted for his and have it passed by the Senate next week.

Senator Saxe's bill, taxing the personal property of non-residents when situated in this State, passed the Assembly. The bill has been amended so that it does not affect the accounts of foreign bankers deposited with New York City banks, as it was claimed the original bill did. The Senate will have to act upon the bill again, as it was amended in the Assembly.

Senator Keenan's bill, fixing a two-cent passenger rate on the 34th st Long Island ferry, was reported favorably in the Senate.

## Water Meters.

### AN ORDINANCE INCREASING THE POWERS OF THE COMMISSIONER OF WATER SUPPLY, GAS AND ELECTRICITY RESPECTING WATER METERS.

A hearing was given by the Aldermanic Committee on Water Supply, Gas and Electricity on Wednesday on the Meyers resolution to authorize the Commissioner of Water Supply, Gas and Electricity to place water meters in apartment houses, tenements, flat houses and dwellings. Representatives of a number of property owners' associations appeared in opposition to the measure, and it was the general sentiment among their spokesmen that the so-called "waste" of water was due mainly to leakage, for which the Water Department was blamable; and it was hinted that the meter proposition was only a scheme to provide more places for departmental employees.

Among the speakers in opposition were President Conkling, of the Realty League; President Conrad and Vice-President Beck, of the United Real Estate Owners' Association; Frank Moss and Captain John P. Leo, of the Builders' League, who claimed that if the tenement house law regarding waste were properly enforced there would be no lack of water; and Mr. Cohen, of the Harlem Property Owners' Association.

Some of the speakers were severe against the Water Department, and Alderman Doull, who retorted, received part of the criticism.

Another hearing will be given next week, when the subject will be further ventilated. The resolution in full follows:

"Be it ordained by the Board of Aldermen of the City of New York as follows: The Commissioner of Water Supply, Gas and Electricity of the City of New York, in pursuance of Section 475 of the amended Greater New York Charter, is authorized in his discretion to cause water meters to be placed in all apartment houses, tenements, flat houses and private dwellings in the said City of New York, so that all water furnished thereat may be measured and known by said commissioner, and for the purpose of ascertaining a ratable portion of the cost of supply and distribution which consumers of water should pay for the water therein received and used."

The tenth annual dinner of the Real Estate Board of Brokers will be held at the Waldorf-Astoria this (Saturday) evening at 7 o'clock. President David A. Clarkson, of the board, will preside, and Francis E. Ward will act as toastmaster. Among the guests and speakers, as announced by Chairman Charles E. Schuyler, are the following: Justice James Fitzgerald, of the Supreme Court; Corporation Counsel John J. Delany, President Bird S. Coler, of Brooklyn; Martin W. Littleton, Congressman J. Van Vechten Olcott, Lawson Purdy, secretary of the New York Tax Reform Association, and John A. Weekes, Jr., representing the Allied Real Estate Interests. Tickets for the dinner may be secured at the board room, 156 Broadway.

# Field Day at Albany, March 1st

## When the Mortgage Tax Law Hearing Is Given— Feeling in Various Centers of the State

**P**ROBABLY the field day on the Mortgage Tax matter before the Senate and Assembly committees on Taxation and Retrenchment in the Senate chamber at Albany will call together a larger body of representative citizens than any hearing in years, as every part of the State is expressing very much more than a passive interest in the uprising against the tax. Indeed, all persons opposed to the statute should prepare to go to Albany; but if they cannot go they should write to their own Senators and Assemblymen, and especially to Hon. Arthur C. Wade, Assembly chamber, and Hon. Merton E. Lewis, Senate chamber, Albany, stating their opposition to the present law and urging a recording tax instead, if there is to be any tax.

Further testimony of how the mortgage tax works—its practical effects—as noted by prominent residents in various cities has come to hand from interviews and letters, which, in view of the approaching hearing, is timely for publication, not that anything is needed to convince the people of this great city further than they have been convinced by personal experience and observation. It is the general experience that investors have declined to loan money on mortgage because of the present tax. The Northwestern Mutual Life Insurance Company, of Milwaukee, will loan no money in this State for this same reason. That the law raises the interest rate to borrowers is beyond question; that money has been withdrawn from investment in mortgages is equally true. Everywhere it is perceived that the operation of this law works unnecessary hardship upon those whom it was not intended to reach and who are already paying the ordinary taxes of State and county on their real estate. A recording tax of one-half of one per cent. would meet with no objection and remove a burden from those who can ill afford to bear it and who are carrying their full portion of taxation.

### A BUFFALO BANKER'S PROTEST.

**ERIE COUNTY SAVINGS BANK, BUFFALO.**—Since July 1, 1905, our bank has taken 41 new mortgages. If business were in its normal condition, we ought to have put out that number in one month. Since July 1, 1905, our bank has been obliged to add one-half of one per cent. increase to the rate of interest on mortgage loans. I think you must admit that up to this time this bill has not produced the revenue expected. I am of the opinion that what ought to have been passed at the last session of the Legislature is a small recording tax, and that mortgages ought to be exempt from a tax of any kind.

R. S. DONALDSON, Secretary.

**BUFFALO.**—The effect of the present law is just what we all predicted it would be here in Erie county, and that is that the borrower has to pay the piper, as is always the case. It has also taken considerable money out of the loaning market, made real estate harder to sell, and, in general, is looked upon as only another one of the Republican party's schemes to tax the cities to help out the rural districts. I am and have been a Republican for years, but cannot see my way clear to vote my party ticket in the future, unless a radical change takes place within the party on the mortgage tax question.

W. J. J. KUNZIE.

**SYRACUSE.**—I was opposed to this law when proposed, and have seen no reason to change my mind. It has doubtless been somewhat beneficial to the holders of mortgages at the time the law was passed and who have been able to decrease their assessment somewhat under the provisions of this law. I think, however, it has been a discouragement to the investment of new money in mortgages.

WILLIAM NOTTINGHAM.

### THE PRESS EVERYWHERE CONDEMNNS.

**SYRACUSE.**—Among the hundreds of business and professional men interviewed by me upon the subject of mortgage tax since the new law became operative, I believe I have found at least 90 per cent. against the law, while not one article favorable to the law has come under my observation as yet in any of our newspapers in central New York.

JOHN W. TRUESDELL.

**ROCHESTER, ALLIANCE BANK.**—I am opposed to the Mortgage Tax Law for the reason that it is double taxation. It has the effect of restricting the loaning of money by banks on bonds and mortgages.

ALBERT O. FENN.

**AMSTERDAM.**—Mr. H. L. Reed, a leading real estate dealer and builder at Amsterdam, says: "I have built many houses and would have constructed five or six more this summer if it had not been for the tax on mortgages. I have some \$40,000 in mortgages to sell, and it has been almost impossible to sell investments of this kind in this city and vicinity. It was never so before the mortgage taxation measure was passed. There is

no earthly reason why building loan companies should be exempt and other mortgages pay a tax. If it is right for one to pay, it is certainly proper for the other."

**WATERTOWN.**—W. J. Shephard said: "I am opposed to the Mortgage Tax Law. I believe it is wrong in principle, as it is double taxation."

**GENEVA.**—I am opposed to the present tax law, for the reason in practice it doesn't conform to the theory of the Legislature—that the taxes would be paid by the mortgagees. It results in additional burden to mortgagors and relieves the owners of the mortgages from the payment of any tax whatsoever.

JOHN G. FARWELL.

### THE LAW IS TROUBLESOME.

**ONEIDA COUNTY SAVINGS BANK, ROME.**—Prior to July 1, 1905, we made all loans from \$300 to \$5,000 at 5 per cent., but since have made all loans at 5½ per cent., feeling obliged to do so in order that our earnings should be sufficient to continue to pay 3½ per cent. to our depositors and have a little surplus for protection, having only accumulated about \$30,000 of surplus in the past ten years on nearly \$2,000,000 deposits; so it cannot be charged that we are piling large surplus with the rate of interest charged. The borrower with us is a person owning a farm or building, or buying a moderate-priced house, and as long as there is any kind of tax on mortgages the borrower will be obliged to pay it in interest or some other way, and this present law is troublesome. Individuals do not like to loan money on mortgages, as the records show on all files in the State the past six months, preferring to buy bonds that will return 4 per cent. or 4½ per cent. Several to my knowledge have purchased Japanese bonds the last few weeks and refusing to take mortgage at 5½ per cent. even.

JOHN R. EDWARDS, President.

**PORT JERVIS.**—There is seldom a week passes by that I do not see this iniquitous law working greater burdens upon the poor borrower, who before it became a law was invariably taxed every cent his property was worth, although his equity therein may be nil.

FRANK LYBOLT.

**TROY.**—The law discriminates, unjustly we believe, in favor of existing mortgages. We are not theorists; we speak with thirty years' experience in borrowing money for customers. Finally, we consider the whole law an abomination.

KNOX & MEAD.

**HERKIMER.**—This scheme of taxation, instead of relieving the borrower by making money cheaper, has, in fact, placed an additional burden upon him.

E. B. MITCHELL.

### WORKS AGAINST THE PLAIN PEOPLE.

**ONEIDA.**—Before this law went into effect we could find any amount of money at 5 per cent. on real estate mortgages, and made numerous sales on that account; but since the law went into effect we are unable to find money for intending purchasers for less than 6 per cent., and the increase has caused a great many sales to fall through. We think the law works against most people who desire to own their home. We are informed by different parties that if the law is repealed they would again be willing to make loans at 5 per cent. It is our candid opinion that if the law is repealed it will be for the benefit of a great majority.

MUNZ BROS.

**NIAGARA FALLS TRUST COMPANY.**—Most everyone in this community is opposed to the Mortgage Tax Law, thinking the same is ill-advised legislation. So far as I am able to judge, its practical workings are not in accordance with the expectations of those who believed in the justice of the bill. It may be productive of some revenues, but I believe at the expense of the borrower.

FRANK A. DUDLEY, President.

**LIBERTY.**—I am opposed to the Mortgage Tax Law, because I do not believe in indirect taxation. So far as I can see, this law does not do what its sponsors claimed for it. The borrower pays the tax every time in an increased rate of interest.

H. J. SARLES.

The Pennsylvania Railroad has made what may be regarded as official announcement that within a short time work will be begun upon a series of extensive improvements to its system around Baltimore. These alterations will include the building of a new depot on the site of Union Station, which will be more commodious and of modern design; the construction of a freight cut-off around the city, and other needed changes. The freight cut-off will have to cross the Patapsco River if the South Baltimore route is chosen, and this will mean the construction of either a bridge over the Patapsco or of a tunnel under the river bed.

## Building Operations.

### Ten-Story Business Building for William St.

WILLIAM ST.—Plans are being prepared by Bannister & Schell, 69 Wall st, for a 10-sty business building, to be erected on a plot 50x60 ft, at Nos. 165 to 167 William st. Irving Lovejoy, of 55 Liberty st, is owner. No contract has yet been made for the work.

### Chas. T. Wills Gets Contract for Smith, Gray & Co.'s Building.

BROADWAY.—The general contract for the erection of the new store and office building, 12 stories, 75x150 ft. in size, for E. T. Gerry, 261 Broadway, at the northwest corner of Broadway and Warren st, for which Smith, Gray & Co., of 1245 Broadway, are lessees, has just been awarded to Chas. T. Wills, of No. 156 5th av. James B. Baker, of 156 5th av, is the architect. (See issue Feb. 17, 1906.)

### New Athletic Club Building for the Bronx.

MARY ST.—The Franklin Athletic Club, of Westchester, has commissioned Architect McDonough, of Commonwealth av, Van Nest, to prepare plans and specifications for a new 3-sty club building, to be erected on Mary st, in the Bronx, to cost about \$15,000. There will be many noteworthy features of equipment, including baths, bowling alleys, meeting and dining rooms, and assembly hall, etc. No contract has yet been given out.

### New Building for the New York County National Bank.

8TH AV, 14TH ST.—The New York County National Bank, 8th av and 14th st, will begin at once the erection of a new bank, loft and office building, on their present site at the southwest corner of 8th av and 14th st, on a plot of about 50x100 ft. The new structure will be fireproof, 8 stories in height, of handsome design, and will be occupied on the first and second stories by the banking firm. The upper floors will be rented out for lofts and offices. De Lemos & Cordes, 130 Fulton st, have been commissioned to make the plans, and Philip Herrman's Son, of 407 West 14th st, will have the general contract.

### The New Singer Building will Cost \$1,500,000 and Contain a Tower.

BROADWAY.—Plans are now ready for contractors for the new addition to the Singer Manufacturing Company's building at the northwest corner of Broadway and Liberty st, which is estimated to cost \$1,500,000. A tower 40 stories in height will be built over the old building, and the new 14-sty addition, which will be erected at the side and rear, covering 74.10½x115.1 and 52.10½x102 ft. New electric elevators and stairways will also be installed. Ernest Flagg, of 35 Wall st, is the architect. No contracts have yet been awarded for the work. (See also issue Jan. 13, 1906.) The project was first announced in these columns Dec. 28, 1901. The officers of the company are: Douglass Alexander, president; Edwin H. Bennett, vice-president; and T. E. Hardenbergh, secretary.

### Hotel Astor Improvements.

TIMES SQUARE.—That it has been necessary to devise means for enlarging the accommodations of the Hotel Astor, in Times sq, built less than two years ago, is indeed a very interesting and remarkable project, and more so that this improvement is to be undertaken almost simultaneously with the opening of the new Knickerbocker Hotel, at the southeast corner of Broadway and 42d st. It is possible that the present structure will be enlarged to nearly twice its present size. The hotel now covers a plot in the westerly block in Times sq, between 44th and 45th sts, of 200x160 ft. To this it is proposed to add 100 ft. in both streets, increasing the plot to 200x260 ft. William Waldorf Astor is the owner. The addition will harmonize with the present style of architecture. Its cost, it is estimated, will be between \$1,500,000 and \$2,000,000. The present building cost to erect, exclusive

of the value of the ground, nearly \$5,000,000, so that the enlarged hotel will represent an investment of between \$6,500,000 and \$7,000,000. Messrs Clinton & Russell, 32 Nassau st, were architects for the present building. It was stated at their office this week that no plans have yet been decided upon for the new improvement.

## Townsend, Steinel & Haskell to Plan Structure for Tabernacle Site.

BROADWAY, 34TH ST.—Messrs. Townsend, Steinel & Haskell, of Nos. 29-33 East 19th st, have been commissioned to prepare plans for the new store and office structure which W. R. H. Martin, owner of the "Hotel Martinique," and of Rogers, Peet & Co., will erect on the old Tabernacle site at the northeast corner of Broadway and 34th st, on a plot fronting 98.9 ft on Broadway, 150 ft on 34th st, and three abutting plots on the south side of 35th st, occupying a frontage of 53 ft. The number of stories and building materials to be used cannot be given in this issue, although it can be stated that it will be a high structure. The first, second and third stories will be occupied by Rogers, Peet & Co., and the upper floors as offices. No contracts have yet been made. It is understood that work on the structure will be begun this spring. No authoritative announcement as to the price paid for the property was made, but it is said that the figure was in the neighborhood of \$2,500,000—making the sale one of the largest single transactions in the city's history. When the Broadway Tabernacle decided to sell its property and erect its new edifice at Broadway and 56th st, it received \$1,300,000 for the site, which it had bought in 1857 for \$78,000.

## Plans for the New Seamen's Institute.

COENTIES SLIP.—At the northeast corner of Coenties Slip and South st, fronting Jeannette Park, the Seamen's Church Institute, of the port of New York, will build, at a cost of \$550,000, an institution building which, it is said, will be the largest sailors' home in the world. In London is a Seamen's Palace, now the largest, that cost some \$400,000, and accommodates 150 sailors. The price paid for the building site is said to be \$200,000, and the building, it is figured, will cost in the neighborhood of \$350,000. It will be of fireproof construction, eight or ten stories in height, and will provide for at least 300 sailors. In charge of raising subscriptions and building are Edmund L. Baylies, lawyer, of No. 54 Wall st; O. E. Schmidt, Captain A. T. Mahon, J. A. Johnson, Henry L. Morris, and Wilhelmus Mynderse. Bishop Potter is at the head of the Board of Management. Mr. Baylies informs the Record and Guide that no plans have yet been selected. About four of New York's leading architects will be asked to submit plans. Building operations will not be commenced before April 1st, 1907, and the structure completed by April, 1908. There will be room for games, newspapers, a large meeting hall, a clubroom, apartments for captains and officers, a restaurant, gymnasium and library.

## Apartments, Flats and Tenements.

JENNINGS ST.—Arthur J. Barry, 3418 3d av, will build at the southeast corner of Jennings st and Wilkins pl a 5-sty apartment house for 25 families.

50TH ST.—Patticrazis Grassi, 244 Mott st, will erect at 234-236 East 50th st a 6-sty 25-family flat, 41.8x87.5, to cost \$40,000. Schwartz & Gross, 35 West 21st st, are planning.

6TH ST.—The Katzero Realty Co., 204 Henry st, will build at 713-717 East 6th st a 6-sty \$55,000 flat, 58.5½x78.2½, for 39 families. Bernstein & Bernstein, 24 East 23d st, are planning.

129TH ST.—Richard R. Davis, 247 West 125th st, is making plans for a 6-sty 18-family flat, 24.4x86.11, for K. Van Valin, 30 St. John pl, Brooklyn, to be erected at 58 East 129th st, to cost \$22,400.

88TH ST.—On the south side of 88th st, 127 ft. east of 3d av, Isaac Fox, southwest corner of Vesey and Washington sts, will build a 6-sty 22-family flat, 33x87.8, to cost \$35,000. Chas. M. Straub, 122 Bowery, is architect.

ST. NICHOLAS AV.—Nichall & Merksamer, 1330 5th av, will build on the west side of St. Nicholas av, 51.9 1-6 ft. north of 156th st, a 6-sty 25-family flat, 51.10x73x59.3, to cost \$55,000. Geo. Fred Pelham, 503 5th av, is architect.

94TH ST.—Bernstein & Bernstein, 24 East 23d st, are planning for three 6-sty flats, 37.6x87 and 50x52.2½, for Navasky & Billowitz, 53 East 110th st, to be erected at the northwest corner of 94th st and 1st av, to cost \$138,000.

65TH ST.—The Mildred Realty Co., 103 East 125th st, will erect on the south side of 65th st, 337.6 ft. west of 1st av, a 6-sty 28-family flat, 37.6x87.5, to cost \$40,000. Bernstein & Bernstein, 24 East 23d st, are preparing plans.

147TH ST.—On the south side of 147th st, 350 ft. west of Amsterdam av, David Karp and M. Heller, 9 West 117th st, will build four 5-sty 21-family flats, 50x87.11 each, to cost \$260,000. John Hauser, 360 West 125th st, is preparing plans.

BROADWAY.—Neville & Bagge, 217 West 125th st, have prepared plans for a 6-sty high-class apartment house, 99.11x87, for P. McMorrow, 360 West 125th st, to be situated on the northeast corner of Broadway and 150th st, to cost \$200,000.

The Zipkes Construction Co. has been incorporated for the purpose of engaging in building operations in the Boroughs of Manhattan and the Bronx. They have purchased a plot on the northwest corner of Washington av and St. Paul's place, 65x100, where they will erect a high-class apartment house, to cost \$80,000. The office of the company is at 147 4th av. Maximilian Zipkes is president; Henry Zipkes, treasurer; and Frederick J. Stein, secretary. Mr. Zipkes is preparing the plans.

## Mercantile.

5TH AV.—Thomas W. Lamb, 224 5th av, is the architect for the new 10 or 12-sty store and office building, which Frank Bros. (shoes), 224 5th av, will build on a plot 25x98.9 at No. 17 West 34th st. The firm will occupy the first and second stories, and the upper floors will be rented as offices. Work of construction will not be commenced for three years yet. No contracts

## Miscellaneous.

The Corn Exchange Bank, 13 William st, Manhattan, will erect a new bank building in Flushing, Long Island. No plans or architect have been selected. No contract let.

Abram Swan, Trenton, N. J., is taking bids on the general contract for a 1-sty automobile factory, 100x300, to be erected at Trenton, N. J. The cost is estimated at \$90,000.

PARK ROW.—It is learned that plans are in progress for extensive additions and alterations to the Pulitzer Building, No. 63 Park Row, but particulars are as yet withheld.

Louis Meystre & Son, Savings Bank Bldg., Hoboken, N. J., are taking figures on the general contract for a 4-sty addition, 40x100, to the factory of Keuffel & Esser Co., at Grand and 3d sts, Hoboken.

BROADWAY.—Plans are being prepared by W. E. Lehman, 738 Broad st, Newark, N. J., for extensive alterations and repairs to the old Astor House, at Broadway and Vesey st, Manhattan. No contract awarded.

## Estimates Receivable.

78TH ST.—Hunt & Hunt and H. B. Price, 28 East 21st st, are taking figures on the general contract for extensive alterations to the residence of P. H. Minus, at 117 East 78th st.

Bids are asked by Louis F. Haffen, president Borough Bronx, until 11 a. m., March 1, for widening bridge over New York & Harlem Railroad Co.'s tracks at 177th st, Borough of Bronx.

EAST RIVER.—The officers of the Fulton Market Fishmongers' Association are taking estimates on their proposed new building, to be situated between Piers 17 and 18, East River.

Clarke & MacMullen, 20 Broad st, are taking bids on electric wiring, switchboards and boilers for the Colored Orphan Asylum, to be erected in the Bronx. Robertson & Potter, 160 5th av, are architects.

51ST ST.—The contract for electrical work for the \$300,000 residence for E. Rollins Morse, at 7 East 51st st, has been awarded to Fred. Pearce, 18 Rose st. Ogden Codman, Jr., 571 5th av, is architect.

101ST ST.—Joel Marks, 198 Broadway, states that alterations are to be made in property No. 72 West 101st st, and that plans and specifications can be seen at his office. Bids are asked from contractors.

10TH AV.—The Brooklyn Heights Railroad Co. is taking figures on a brick, stone and steel fireproof car barns and office building, to be erected at 10th av and 20th st, Brooklyn. Plans are by the company's engineers.

SUFFOLK ST.—Frank Straub, 10 East 14th st, has plans ready for \$12,000 worth of alterations to Nos. 65-67 Suffolk st, of which David Michelson, of Coytesville, New Jersey, is the owner; 6-sty rear extension, 36.4x10, add two stories, stairs, etc. No contract let.

PARK AV.—Chas. B. Meyers, 1 Union sq, is taking figures on revised plans, calling for a 2-sty fireproof printing house, 200x300, of reinforced concrete construction, to be situated at the southeast corner of Park av and 166th st, Bronx, for Wm. Steiner, Sons & Co., of 116 East 14th st.

Messrs. Westervelt & Austin, 7 Wall st, New York, are now taking estimates on a 2-sty brick and steel fireproof restaurant building, 400x100 ft. to be situated on the boardwalk at Atlantic City, N. J., at an estimated cost of \$60,000. Childsworth Co., of 285 Broadway, New York, will be the owners.

5TH AV.—Herts & Tallant, 32 East 28th st, have plans ready for \$40,000 worth of alterations to the two 5-sty store and lofts buildings, Nos. 418-420 5th av, for E. M. Gattie, on premises, on which no contract has yet been awarded. Six-sty front and rear extensions, 16x18, new walls, partitions, etc.

37TH ST.—No contract has yet been awarded for the 5-sty storage building, 75x30, which A. P. Ordway, 148 West 122d st,

will erect at Nos. 341 to 345 West 37th st, to cost \$20,000. Louis Oberlein, 19 Whitehall st, is architect. One old building will be demolished. The exterior will be of brick in cement, slag roof, Roebling system reinforced concrete floors, etc.

#### Contracts Awarded.

73D ST.—Walter Reid, 156 5th av, has received the contract to build the 5-sty residence at 24 East 73d st for A. M. Stein. H. M. Baer, 15 Cortlandt st, is architect.

GRAND ST.—Jacob Sommers, 302 Delancey st, has secured the contract to build the 6-sty flat building, No. 568 Grand st, for Morris Fisher, from plans by C. A. Millner, 3025 3d av.

49TH ST.—J. C. McGuire, 26 Cortlandt st, has obtained the general contract to build the 5-sty marble residence at 58 West 49th st for J. D. Wing, from plans by Lawler & Haase, 69 Wall st.

WEBSTER AV.—The contract for erecting the express depot for American Express Co., 65 Broadway, at Webster av and Southern Boulevard, has been awarded to H. Getty, of 359 West 26th st.

46TH ST.—The contract for erecting stable for Schwarzschild & Sulzberger at 314-320 East 46th st was awarded to G. H. Varney, 156 5th av. The building will be six stories, reinforced concrete, 100x100. Cost, \$100,000.

11TH ST.—The North Eastern Construction Co., Fuller Building, has the contract for extensive improvements to the 4-sty store and loft building, No. 737 East 11th st, for the Quintard Iron Works Co., of 742 East 12th st.

FULTON ST.—Jas. C. Hoes Sons, 58 Gansevoort st, has obtained the contract for alterations to the 5-sty store and loft building, 119 Fulton st, for the estate of M. Bird, 49 Nassau st, from plans by Schweitzer & Diemer, 45 Leonard st.

64TH ST.—Sloane & Moller, 316 East 65th st, have obtained the contract for extensive improvements to the 3-sty factory building, No. 321 East 64th st, for L. W. Broadman, care H. S. Ely & Co., 4 Liberty st, from plans by Henry Placek, 316 East 65th st.

The largest order of structural steel booked for a foreign purchaser in several months is that just secured by the American Bridge Co., which has captured the contract for the construction of several bridges and minor spans to be built for Japanese railroad interests in Corea. This work involves 15,000 tons of fabricated material.

The contract for the 7,000 tons of steel required in the construction of the Astor Apartment Hotel, at Broadway, West End av, 78th and 79th sts, in this city, has been let, as well as a smaller contract for the Brunswick Hotel. The contract for the Rheinlander Building in this city, requiring 750 tons, has likewise been awarded.

LEXINGTON AV.—Butler Bros. Construction Co., 1170 Broadway, have obtained the contract for new floors, area, piers, walls, to the 7-sty office and waiting room building, for the New York Central & Hudson R. R. Co., situated at Lexington av, Depew place, 43d and 44th sts, from plans by the Grand Central Station architects, 314 Madison av.

65TH ST.—Messrs. W. W. Bosworth and Carleton Greene, associated, of No. 143 East 33d st, have awarded to Fountain & Choate, 114 East 23d st, the general contract for building a 5-sty extension, 20x7.9. New chimneys, walls, elevators, stairs, partitions, etc., at Nos. 40-42 East 65th st, for J. M. Hartshorne, 515 Madison av, and Mrs. E. Hartshorne Wood, of 40 East 35th st. The work will cost \$70,000.

#### Bids Opened.

The contract for 4,896 sq. yds. asphalt pavement on Oxford av, Jersey City, has been awarded to Uvalde Asphalt Paving Co., 16 Broadway, New York, at 84 per cent. of the standard of cost.

Bids were opened by the Board of Education on Monday, Feb. 19th, for installing electric equipment in Public School 89, Brooklyn; Griffin & Co., at \$6,649, low bidder. For general construction of addition and alterations in Public School 32, Manhattan; Peter J. Ryan, at \$19,506, low bidder. For installing heating and ventilating apparatus in Public School 71, Manhattan; William J. Olvany, at \$5,224, low bidder. For erecting iron gates and railings at Public School 150, Manhattan; Wlady Konop, at \$785, low bidder.

## BUILDING NOTES

Be sure you are right, but not too sure that everybody else is wrong.

There are now working under open shop conditions about 1,300 housesmiths in the employ of the Allied Iron Association's members, and this number is expected to be considerably increased next week.

Mr. A. Willkomm, the Pacific coast representative of Toch Brothers, makers of the R. I. W. Damp-Resisting Paint, is on a visit to the city. Mr. Willkomm has offices in the Parrott Building, San Francisco, Cal.

Plans have been completed for the temporary bridge to be used during the reconstruction of the Madison av bridge.

Leases for the property required for the temporary bridge are ready for execution, and the contract for the work will be let within a few weeks.

The Board of Water Supply, Gas and Electricity, New York, has let the first contract looking toward the establishment of the \$161,000,000 water supply for New York. The contract is for boring under the Hudson River, about six miles north of Poughkeepsie, and was obtained by the American Diamond Rock Drill Co., New York.

Several well-known gentlemen have been added to the Board of Founders of the New Theatre, to be built on Central Park West, 62d and 63d sts. They are J. Pierpont Morgan, William K. Vanderbilt, H. McKay Twombly, Henry Walters and W. De Lancey Kountze. Charles T. Barney was elected president at the meeting at which these men were added, which was held at the residence of James Henry Smith. Work on the plans for the new building will now be pushed. No architect has been selected yet, it being the idea to have competitive plans submitted by American architects. (See issue of Feb. 10, 1906.)

Supervising Architect James Knox Taylor, of Washington, was before the house committee on public buildings and grounds, on Thursday of this week, relative to the increase over estimated cost of completing the interior of the New York Custom House, in lower Broadway, Manhattan. Mr. Taylor said that the original plan had contemplated a more elaborate finishing of the interior than could be provided with the appropriation now available, by reason of the fact that a sum greater than was at first anticipated was expended in improving the exterior of the structure. A bill introduced by Representative Olcott calls for an additional appropriation of \$1,000,000 to complete the building, but Mr. Taylor said that the work could be done for \$450,000, and he submitted a detailed statement by Architect Gilbert setting forth the cost of the contemplated improvement to make the interior not only artistic, but more durable. With the present appropriation, Mr. Taylor said, it would be necessary to install electric elevators instead of hydraulic elevators, and to finish the walls in plaster instead of marble, and that with the additional appropriation the cost of the custom house per cubic foot would be materially less than the cost of such structures as the Tilden-Astor Library, and notably cheaper than the comparative cost of the best hotel buildings and private residences in New York. He did not urge the appropriation, but said that he simply made the statement to show that with the amount now available, the interior of the building could not be finished in a manner corresponding to the exterior. The improvements suggested, he said, were in accordance with the original design. It is probable that the necessary appropriation will be added to the omnibus public building bill when it is reported.

### Fireproofing War.

STATEMENT OF FACTS UPON WHICH NATIONAL FIRE-PROOFING COMPANY CHARGES MASON BUILDERS' ASSOCIATION WITH CONSPIRACY.

**A**N order, returnable on Friday afternoon, Feb. 23, was issued on Tuesday in the United States Circuit Court, upon the application of the National Fireproofing Co., and against the Mason Builders' Association, to show cause why an injunction should not issue to restrain the association from "conspiring" with seventeen bricklayers' and masons' unions to injure the business of complainant.

The National Fireproofing Company manufactures hollow tile fireproofing, and generally, outside of New York, makes two bids on work—one for the material itself, another for the material set in the building. In some cases builders find it to be cheaper to have the company set its own material. Under this agreement between the mason builders and the unions of New York the National Fireproofing Company is prevented from setting the hollow tile blocks which it manufactures, for the reason that the bricklayers' unions claim that the setting of these blocks, being purely mason work, belongs to their trade; also that mason contractors have the natural right to buy and install fireproofing blocks the same as they do common brick, and that they intend to uphold them in that right, but with no objections to the National Fireproofing Company or any one else taking general building contracts and going into the general mason business, if so disposed.

Claiming the privilege of setting its own material in buildings, in this city, the National Fireproofing Company charges, in the case which it is bringing in the United States Circuit Court, the existence of a conspiracy in restraint of trade, in violation of the Sherman Act of 1890. Two hearings have already been held and a third is to take place February 27th. At a hearing on Tuesday, Feb. 6, the facts in regard to one specific case were brought out. This was in relation to a building for the Title Guarantee and Trust Co., at 176 Broadway, New York City, a building which is being erected by the Thompson-Starrett Co. After bids had been submitted, the Thompson-Starrett Co. let the contract to the National Fireproofing Company to install the fireproofing. After two floors had been set, a walking delegate called upon the bricklayers at work on the structure to strike—for the reason that the general contractors had sublet the fireproofing.

**T**HIS illustrates the Power House of the Metropolitan Railway Company, at 96th Street and East River, New York City. It is considered, both from architectural and mechanical standpoints, one of the best examples of its class of building in this country. Among the several highly commendable features of this structure, the Ar-

chitectural Iron Work, including window frames and sashes, stairs, railings, etc., all manufactured and installed by the Hecla Iron Works, stands out boldly as a master specimen of mechanical handiwork.

**The Hecla Iron Works are recognized as the first and foremost concern in the manufacture of Architectural Metal Work in the World. The plant is the largest and most complete, and the quality of its work is considered the standard, the world over.**

North 10th, 11th and 12th Sts., from Wythe Ave. to Berry St., Brooklyn, N. Y.

This brings to a head a long standing dispute. The National Fireproofing Company alleges that by reason of the conspiracy existing between the Mason Builders' Association and the bricklayers, it is excluded from its "constitutional privilege" of doing business within the City of New York; it feels itself a victim of the alleged "Chinese Wall" erected around the city of New York, which has been responsible for so many corrupt practices in the building trade. At the present time, strikes are on against ten large jobs of the National Fireproofing Co. in this city. By reason of the fact that one of the bricklayers' unions is not at present a party to the agreement with the employers, the company is able to continue its work of installing its fireproofing on the City College of New York, on Cathedral Heights. It is maintained, however, that this union, No. 37, will very shortly be forced to sign the agreement, and that thereafter the fireproofing company will be deprived of its only active job. One of the purposes of the injunction is to restrain local No. 37 from signing this agreement. No. 37 embraces in its membership about 1,800 of the 7,000 or 8,000 bricklayers in the city. The special agreement to which the National Fireproofing Company takes exception, and which it alleges constitutes a conspiracy against it, was first entered into in this city in 1904. There were two important clauses in this agreement, as follows: "Clause V. Members of the Mason Builders' Association must include in their contract for a building all cutting of masonry, interior brick work, paving of brick floors, the brick work of the damp-proof system, and all fireproofing—floor arches, slabs, partitions, flooring and roof blocks—and they shall not lump or sublet the installation if the labor in connection therewith is bricklayers' work as recognized by the trade, the men employed upon the construction of the walls to be given the preference." The other

important clause is as follows: "Clause X. No member of the bricklayers' union shall work for anyone not complying with all rules and regulations herein agreed to."

In its affidavits supporting its bill of complaint, the fireproofing company alleges that its dispute is not with the labor unions so much as with the Mason Builders' Association. It is set forth that there are two forms of fireproofing; one known as the concrete system, the other known as the tile system, which latter is manufactured by the National Fireproofing Co., and which is installed in many high buildings throughout the country.

Paragraph ninth of this bill of complaint says:

"Your orator further shows that the natural and necessary effect of said agreement is and was to enable the mason builders of said city to dictate and prescribe the terms and conditions upon which your orator should carry on its business in said city of New York, and is to all intents and purposes an unlawful combination between the bricklayers of said city on the one part and the mason builders, general contractors and capitalists on the other; and your orator states that it was and is at all times ready and willing to employ bricklayers composing said unions at the regular price or wage received by them from the members of the Mason Builders' Association, and your orator further alleges that the natural and necessary effect of said agreement was and is to allow and permit the members of the Mason Builders' Association to obtain for themselves by means of such agreement with the bricklayers of the city of New York and Long Island the sole and exclusive business and monopoly of installation of fireproofing in buildings erected and to be erected in said city, and especially that manufactured by your orator."

In support of the bill is an affidavit by Henry M. Keasbey, vice-president of the National Fireproofing Co., in which he

says: "By reason of the (trade) contract set forth in the bill of complaint herein, both the new and the old contract containing substantially the same clauses, the National Fireproofing Company is to all intents and purposes prevented from installing its own fireproofing. The National Fireproofing Company, by reason of this contract, is not only prevented from installing its own fireproofing, but is, to a large extent, prevented from selling the same in the city of New York. Buildings are put up by general contractors who are termed 'mason builders.' The general contractor, by virtue of this contract, has the absolute power to prevent a contract for the installation of fireproofing from being sublet to the National Fireproofing Company, for, inasmuch as the contract gives the general contractor, by virtue of the control over the bricklayers' unions, the sole right to install the tile fireproofing, it is absolutely within the arbitrary power of the mason builders or general contractors, to fix the price of installation of tile fireproofing in buildings in the course of erection. The mason builders can and do fix arbitrary prices for installation of fireproofing manufactured by the National Fireproofing Company, and will not let us install it ourselves. By virtue of the arbitrary prices so fixed by the mason builders or general contractors, owners in innumerable instances, contract for concrete fireproofing where they would otherwise allow us to put in tile fireproofing, were it not for the arbitrary price of installation fixed by the mason builders. I know this to be a fact."

The agreement above set forth between the bricklayers and the Mason Builders' Association was repudiated by the Bricklayers' International Union, which met in Trenton, in January, 1904, and again by the International Convention at San Francisco in January, 1905. This caused a split among the bricklayers' unions in New York City, the net result of which was that the Fireproofing Company was able to take a number of contracts for installing its materials. The agreement expired Jan. 1, 1906, but has recently been renewed, and the International Convention of Bricklayers, held at Indianapolis in January of this year, repealed its old law forbidding such agreements by its unions, and now every union in New York City, except No. 37, is a party to what the fireproofing company alleges was the old conspiracy.

Increased Rate of Interest.

Annexed are two interesting tables showing the increased rate of interest per mortgage and per dollar, respectively, for the week ending February 2, 1906, on all mortgages recorded in the boroughs of Manhattan, the Bronx and Brooklyn, in consequence of the Mortgage Tax law. It will be seen that the increase per dollar is much more than the increase per mortgage.

MANHATTAN, BRONX AND BROOKLYN.

Average mortgage rate per dollar for week January 26 to February 1, 1906, as compared with week January 27-February 2, 1905:

Mortgages bearing interest at	1906.	1905.
6 per cent.....	\$2,579,000	\$2,811,000
5½ per cent.....	1,492,000	14,000
5¼ per cent.....	150,000	—

4¾ per cent.....	—	30,000
4½ per cent.....	92,000	6,422,000
4 per cent.....	14,000	357,000
	\$5,670,000	\$14,541,000

Average rate of interest per dollar of all mortgages, including those at 6 per cent.:

1906.....	5.58 per cent.
1905.....	4.94 per cent.
	.64 per cent.

Leaving out the 1905 6 per cent. mortgages and reducing the 1906 6 per cent. mortgages by the ratio which the amount in dollars of 1905 6 per cent. mortgages bore to the total amount in dollars of 1905 mortgages, the following result is shown:

1906.....	5.48 per cent.
1905.....	4.69 per cent.
	.79 per cent.

Average rate of interest per mortgage of all mortgages, including those at 6 per cent.:

1906.....	5.73 per cent.
1905.....	5.39 per cent.
	.34 per cent.

Leaving out the 1905 6 per cent. mortgages and reducing the 1906 6 per cent. mortgages by the ratio which the 1905 6 per cent. mortgages bore to the total number of mortgages, gives the following result:

1906.....	5.54 per cent.
1905.....	4.95 per cent.

The Atlantic Avenue Terminal.

The new terminal of the Long Island Railroad at Atlantic and Flatbush avenues is over 3,000 ft. in length, and includes a depressed freight yard, 2,240x225 ft., extending under Sixth and Carlton avenues; an elevated freight yard at Hansom place and Fort Green place; an express stable on the Atlantic avenue grade, to cost \$80,000; a two-story passenger station, with a broad entrance at the corner of Hansom place and Flatbush avenue; a postoffice building, and a three-story express and baggage depot on Hansom place.

The depressed yard will contain the New York Rapid Transit subway station, and four through tracks of that system, affording a direct connection between that railroad and the Long Island Railroad, over which through cars will run from the Bronx to Jamaica without change. It will also contain eight terminal tracks and broad platforms for the Long Island Railroad electric trains that stop at this station, and ten tracks for the express and meathouse service. Arrangements are also to be made at this station for handling merchandise freight in less than carload lots, such as dry goods, groceries, meat products and other package freight.

By a convention between the city and the railroad company in 1897 it was stipulated that the company should remove its rails from the surface and operate its passenger trains by a motive power not requiring local combustion, a limitation which plainly indicated electric traction, and the installation of the system of electrification was recently completed on all the lines leading from the Flatbush terminal.

It was decided to adopt for the car equipment a type and dimension of car which would permit, if necessary, of through operation over connecting lines. It was also decided to adopt a system of electric distribution which was standard on connecting lines, namely, third-rail contact and direct current at 600 volts for the propulsion current and alternating current transmission at 11,000 volts for conversion at substations.

Current for the entire system will be generated at the large power house at Long Island City. This power house will eventually be one of the largest in the world, and has the distinction of being entirely equipped with steam turbines. There are at present installed three Westinghouse-Parsons turbine units of 5,500 kilowatts capacity each, and the engine room provides facilities for three more such units.

The substations are five in number, and are located at the following places: Substation No. 1, Grand and Atlantic avenues, Brooklyn; substation No. 2, East New York; substation No. 3, Woodhaven Junction; substation No. 4, near Rockaway Junction; substation No. 5, Hammels.

In external appearance all these substations resemble each other, being built of brick and steel and of fireproof construction throughout. They also conform closely in interior arrangement, the rotaries and transformers being set up on the first floor, while the main switchboard is placed in a gallery on one side of the building from which the operators have an uninterrupted view of all the machinery under their control. The high-tension cables are led to a carefully insulated board on the other side of the building facing the main switchboard.

Direct current, at a potential of 600 volts, is led directly to the third rail from the different substations and is carried in this way to considerable distances.

The total mileage of third-rail installation reduced to single-track basis is 97½.

The trains at present are made up entirely of steel motor cars, of which 130 have already been equipped, and trailers in the ratio of three to two; that is, a five-car train will consist of three motor cars and two trail cars, the motor cars beings cars 1, 3 and 5.

Westinghouse, Church, Kerr & Co. acted as engineers and constructors of the road and the whole work was done under the direction of George Gibbs, the chief engineer of electric traction of the road.

Forty-nine years ago the corner of Broadway and 34th st. New York, was bought by the Tabernacle Church for \$78,000. Four or five years ago the church sold the property for \$1,300,000. The buyer paid \$140,000 for two small lots in the rear and then sold what had cost him \$1,440,000 for about \$2,000,000. This property has again changed hands, and while there is no authoritative statement of the price, it is understood to have been in the neighborhood of \$2,500,000.

### Sale of Broadway Loft Building.

BROADWAY.—Leopold Weil sold for the Lawyers' Mortgage Co. to C. C. Peck No. 371 Broadway, 75 ft. north of Franklin st, extending through to Franklin alley, a 5-sty store and loft building, 25x150, for something less than \$200,000. The Lawyers' Mortgage took the property under foreclosure last fall and spent about \$30,000 in remodelling it.

BROADWAY.—Andrew J. Connick and Charles E. Johnson sold to Hiram Ricker & Sons, proprietors of Poland water, No. 1180 Broadway, adjoining the northeast corner of 28th st, a 5-sty iron and brick building, on lot 26.5x95. ### The Broadway Tabernacle Deal.

BROADWAY.—The old Broadway Tabernacle, at the northeast corner of Broadway and 34th st, has been bought by William R. H. Martin, of Rogers, Peet & Co., and owner of the Hotel Martinique. The price was approximately \$2,500,000. The deal covers not only the Tabernacle site itself, fronting 98.9 ft. on Broadway and 150 ft. on 34th st, but also the three abutting houses, 68, 70 and 72 West 34th st, on plot 53x98.9. On this site Mr. Martin will erect a large building, part of which will be used by Rogers, Peet & Co. The corner is regarded as the most valuable unimproved site in the new midtown shopping district. The Roxton Realty Co., which is controlled by Benjamin Altman, bought it, along with the abutting dwellings at 68 and 70 West 35th st, from Edward F. Searles two years ago for about \$2,000,000. The dwelling at 72 West 35th st was added to the holding later at a cost of about \$100,000. The sale was made through the agency of Geo. R. Read & Co.

## ARCHITECTURAL TERRA COTTA.

Since the Bronx and Heights booms of 1904-5 there has been a new influx of speculative tenement house builders in these two sections of the city. People who speculated in lots there and were the last to buy, not being able to dispose of their holdings in vacant property at a profit, were compelled to improve.

The result is that a number of wealthy people, who acquired surplus capital in their various other lines of enterprise, are now in the speculative tenement house building business, giving that line a new and altogether different aspect.

So large is the number of this new class, that, together with the responsible builders in this line of former years, they constitute a very large and desirable set of people to do business with, giving the supply houses a good chance to discriminate against the few cheats that might have been left over from former years and crowd them out of the business—a thing which has almost already been accomplished.

Some of the better class of manufacturers of architectural terra cotta are still under the impression of "past events" and consequently give this line—otherwise a quite profitable one—a wide berth, with the result that others, who are in closer proximity to the field of operations and who look with open eyes on "present events" reap the benefit. These latter are actually swamped with orders in this line, so much so, that quite a number of operations of various magnitude in this line have suffered considerably, owing to delays in the supply of terra cotta far beyond the time stipulated in the contracts.

Would it not be advisable for all manufacturers to look into this matter a little more closely?

The writer, an experienced terra cotta salesman, a former builder and enjoying the confidence of a number of this class of builders, desires to communicate with some of the above firms with the view of placing a goodly share of this trade.

**REAL ESTATE NOTES**

Congressman Goulden is endeavoring to secure an appropriation for a federal building on the North Side.

The Port Morris Branch of the Mechanics' and Traders' Bank is the newest financial institution in the Bronx.

Eventually, it is believed, the Whitehall Building will be extended over the plot adjoining on the north, which the Battery Place Realty Co. has been acquiring, and now amounts to a frontage of about 275 ft on both West and Washington sts.

As a result of the hearing given on the Mortgage Tax Law, at the Fifth Av Hotel, some weeks ago, by the Republican County sub-committee, the committee at large recommends the immediate repeal of the law and the substitution of a simple recording tax of one-half of one per cent.

Frederick A. Booth, real estate broker and agent, has removed his offices from 22 East 16th st to larger quarters at 860 Broadway, northeast corner of 17th st. Mr. Booth makes a specialty of caring for and leasing property largely in the Union square district, and has a large clientage.

At a meeting of the board of directors of the United States Realty & Improvement Company William F. Havemeyer was elected a member of the board of directors of that corporation. James Stillman has been elected a member of the board of directors of the Century Realty Company.

The firm of Barry & McLaughlin, composed of Arthur J. Barry and Walter L. McLaughlin, real estate brokers and agents, with offices at 3418 3d av, will be dissolved on March 1, 1906, Mr. Barry retiring. Mr. McLaughlin will continue the business at the same location, and Mr. Barry, who is a son of the well-known Bronx builder, James T. Barry, will embark in the building business.

The City Investing Co. has authorized an increase of the capital stock of the company from \$3,000,000 to \$4,000,000. The new stock will be offered to the stockholders at par in proportion to their holdings on March 1, 1906. At the annual meeting of the stockholders, the retiring board of directors was re-elected as follows: W. L. Bull, George C. Clark, Robert E. Dowling, Robert Goelet, Theodore A. Havemeyer, Charles F. Hoffman, Bradish Johnson, Alvin W. Krech, Samuel T. Peters, B. Aymar Sands, William Rhinelandier Stewart, Henry S. Thompson, Frank Tilford and Henry R. Wilson.

Joseph H. Hoadley is president of the "Manhattan Transit Company," which proposes to put in a bid for the Third av subway from the Battery to the Bronx. In an interview Mr. Hoadley says: "I have sold the control of the Manhattan Transit Company to parties who are not yet ready to have their identity made public, and the company is more than amply able to build the Third av subway. We own the franchise for a steam railroad running from the post office in Manhattan, under Ann st and the East River, to City Hall square, Brooklyn. That franchise we obtained from the Legislature several years ago, and it gives us the power to condemn all the property we want for terminals. Our idea in bidding for the Third av tunnel is to connect it with this tunnel to Brooklyn."

So long as the Real Estate Salesroom now in Vesey st continues in the control of Mr. Peter F. Meyer, as it has for many years, its good name and welfare will be adequately guarded; and notwithstanding certain positive reports of the purchase of the lease, Mr. Meyer has been unable to prevail upon his friends in the Real Estate Auctioneers' Association to relieve him of the responsibility. He had hoped that a very generous offer which he made to individual members of the association would be accepted, but nothing came of it except talk. Ever since the association broke away from the old Real Estate Exchange the salesroom has been under the direction of Mr. Meyer, as the responsible head, and never has that body had a more pleasant place for auction sales than at the present time. A rental of but one hundred and fifty dollars a year is charged for each stand, the exchange fee for sales is the same as in the year 1861, when the first real estate salesroom was opened, and since the Association has been in Vesey street the public sales of properties have been very successful.
